

De Antonio Yachts Strengthens Its Presence in the United States with Strategic Agreement with Sandy Hook Yachts

Barcelona, October 21, 2025 – Spanish luxury boat manufacturer De Antonio Yachts continues its international expansion and strengthens its position in the U.S. market through a new distribution agreement with Sandy Hook Yachts. This partnership will allow the brand to expand its coverage in New Jersey, South Carolina, and Florida's West Coast, with offices in Naples and the Tampa Bay area.

This new alliance adds to the brand's existing network of official distributors in the United States. In Florida, in particular, Marine Connection stands out as one of De Antonio Yachts' key partners, with six sales points along the East Coast, from the Keys to Vero Beach.

With the signing of this new agreement, De Antonio Yachts strengthens its footprint in this strategic state, now boasting a total of eight points of sale, aside from its headquarters and a Test Center in Miami—a comprehensive deployment aimed at delivering top-tier service.

"The United States represents a key opportunity for us. It's a demanding, ever-evolving market that values design, technology, and efficiency—principles that are at the core of De Antonio Yachts. This partnership is a natural step in our international growth, and we're thrilled about this new chapter, which will bring De Antonio Yachts' excellence closer to the American market," said Stan Chmielewski, co-founder and co-CEO of the company.

"With its visionary design and refined aesthetics, De Antonio Yachts represents the kind of innovation that aligns perfectly with Sandy Hook Yachts' vision," added Daniel Furnback, Managing Partner at Sandy Hook Yachts.

With a network of over 50 distributors worldwide, De Antonio Yachts continues to strengthen its international presence by partnering with top-tier local distributors who share its vision, commitment to service excellence, and leadership in the nautical sector.

De Antonio Yachts' vessels are known for their cutting-edge design, clean, sporty aesthetics, and their exclusive hidden outboard engine configuration—an original and innovative solution that maximizes efficiency, ease of maintenance, and reliability without compromising style.

The public launch of this new partnership will take place at the 2025 Fort Lauderdale International Boat Show, where the brand will showcase a selection of five models, ranging from 29 to 50 feet. The new D60 will make its American debut in February 2026 at the Miami International Boat Show.
