## **For Immediate Release**

# **Jason Digos Promoted to Modus Senior Product Testing and Validation Manager**

**Oxnard, Calif., April 6, 2026** – [Modus](#) is proud to announce that Jason Digos has been promoted to Senior Product Testing and Validation Manager. Previously, Digos was Senior Sales Trainer at Modus.

In his new role, Digos will lead a four-person team and oversee the development and rollout of a comprehensive testing and validation framework, ensuring every new audio product meets strict performance, reliability, and real-world use standards before launch.

“Jason has been an instrumental part in Modus’ development,” said Navid Farhand, Co-CEO at AVA Enterprises, Inc. “His leadership will help establish a structured, data-driven approach to product development, bridging engineering, product management, and field performance.”

Digos has been an aftermarket audio development, installation, fabrication, and sales, training, and marketing professional with a wealth of expertise for more than 30 years, working with some of the industry’s top brands.

“Modus has already taken the industry by storm, and with our technology-dominant products now shipping and ready for installation, I look forward to ensuring that Modus remains at the forefront of the industry,” said Digos.

### **About Modus**

Modus is a premium car and marine audio technology brand under DSP Solutions, specializing in audio solutions that combine cutting-edge technology with superior sound quality. [www.modusglobal.com](http://www.modusglobal.com)

### **About DSP Solutions**
