

# Next Steps

Leading a small group can be a challenge! One way you can see growth in your group and even in yourself is to be aware of the next steps people can take. A win for a small group is any time someone takes a step closer to Christ. This list isn't exhaustive, but gives you an idea of what to look for and what to call your group members towards. Our small groups are designed to help people connect and grow! Thanks for your part in helping your group accomplish this.
