

BEHAVIORAL HEALTH TRENDS

2007–2017: A Decade of Utilization under the Mental Health Parity Act

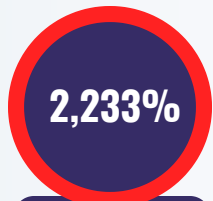

Substance Use, Abuse and Dependence

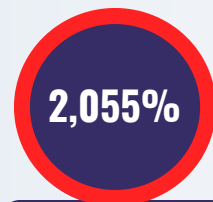

Increase in claim lines with diagnoses of **use, abuse and dependence** of these **substances**:

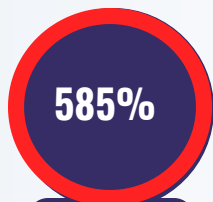

Amphetamines

Barbiturates

Hallucinogens

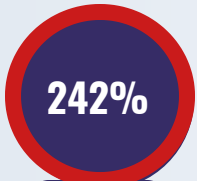

Cannabis

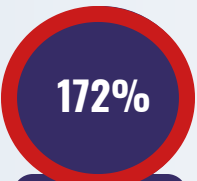

Mental Health

Increase in claim lines with these **mental health** diagnoses not related to substance use:

Anxiety

Major depressive disorder

Bipolar disorder

Use of services for behavioral health (mental health and substance use, abuse and dependence) **increased overall**:

"Claim lines" are the individual procedures or services listed on an insurance claim.
