Dear Student,

In this document are a complete list of course supplies and a source list where you can get other notions and products used for this online certification course. Nearly 90% of the supplies will be available at www.shopfonsandporter.com. We think most people will already have most of these notions in their sewing room, but just in case this website will have them.

This list can appear to be a little daunting, and the reason we don’t show a total cost is because it's really hard to quantify as so many people are going to pull fabrics from their stash and most already have a lot of Sulky Threads and Stabilizers. We are however making a complete set of threads, a complete set of stabilizers, and a combo pack of both available on ShopSewItAll.com. Not everyone will purchase these complete packs because most everyone who signs up has some of them already. But, some will and we did it as a convenience - a one-stop-shopping benefit.

There are some specialty fabrics like the Fantasy Floral Sculptured Art and the 3-D Sunflower project, and those fabrics are still available, so there is a source for those. They are not large pieces - less than a yard for the 3-D project and about 1/3 yd. for the sculptured bowl, and the cost should be minimal for those. For most of the others you may have appropriate fabrics in your stash. We show lots of options, for instance for the Magical Tigers, we show a large flower print used instead of tigers, and a contemporary cosmic version. So you might want to view the video in the course before you actually purchase fabrics.

There are also a minimal number of laser pre-cut appliques for three of the projects and an embroidered pear. Contact patti.lee@sulky.com. So the early bird gets the worm with those.

I know you will love making these projects. I hope you join us.

Kind regards,

Patti Lee
