

Multipurpose Screwdriver 3 in 1 Tool BLMPD2

The Multi-Position screwdriver can be changed to three different positions, making it extremely useful for the various machine preparations such as changing the needle, removing the presser foot holder, removing the needle plate or even tightening hoops for embroidery.

Using the Multi-Position Screwdriver Position “1”

You can install/remove the presser foot holder, needle clamp screw.

Position “2”

You can install/remove the needle plate.

Using the Multi-Position Screwdriver Position “3”

The multi-position screwdriver can be positioned over the screw on the embroidery frame to tighten the screw after hooping the fabric or when removing the fabric.

Note: When rotating the multi-position screwdriver, do not forcefully rotate it in the direction that it does not rotate; otherwise, it may break.

Tournevis Multi-Positions BLMPD2

Le tournevis multi-positions peut être changé dans trois positions différentes, ce qui le rend extrêmement utile pour les différentes préparations de la machine telles que le changement d'aiguille, le retrait du support de pied-de-biche, le retrait de la plaque à aiguille ou même le serrage des cerceaux pour la broderie.

Utilisation du tournevis Multi-Positions

Position "1"

Vous pouvez installer/retraiter le support du pied-de-biche, à l'aide de la vis de serrage de l'aiguille.

Position "2"

Vous pouvez installer/retraiter la plaque à aiguille.

Utilisation du tournevis Multi-Positions Position "3"

Le tournevis multi-positions peut être positionné sur la vis du cadre de broderie pour serrer la vis après avoir encerclé le tissu ou lors du retrait du tissu.

Remarque: Lorsque vous faites tourner le tournevis multipositions, ne le faites pas tourner avec force dans le sens où il ne tourne pas ; sinon, il peut casser.
