2018 CGM BILLING AND REIMBURSEMENT GUIDE

Medtronic

Reimbursement coverage for Continuous Glucose Monitoring (CGM) is continuing to expand. This document provides general guidance on billing for Professional and Personal CGM.

CGM Reimbursement Facts

- Approximately 92% of commercial health plans in the U.S. are covered by an insurer with a written policy for Personal and Professional CGM.
- All local Medicare contractors currently cover Professional CGM.

*Coverage and requirements may vary across payers. Suggested CPT codes are provided for convenience only. It is the provider's responsibility to determine and submit appropriate codes, modifiers and charges for services or products provided.

CGM Example Protocols

The following protocols may be used for Professional and Personal CGM. Criteria for Professional and Personal CGM may differ, so always verify coverage policy directly with the payer.

Professional CGM

1. **Office Visit (e.g. Evaluation)** E/M 99212 - 99215
2. **Professional CGM Placement** CPT 95250
3. **CGM Removal and Download** Included in CPT 95250
4. **CGM Data Interpretation** CPT 95251
5. **Office Visit (Post Evaluation)** E/M 99212 - 99215

Billing Notes

- Use modifier "-25" with an E/M code when billing 95250 or 95251 on the same day.
- E/M can only be billed separately on the same day when a significant and separately identifiable service took place above and beyond the services associated with CGM.
- CGM data interpretation (95251) can be billed on an ongoing basis, but should not be billed more than once per month, per patient.**

Personal CGM*

1. **Office Visit (e.g. Evaluation)** E/M 99212 - 99215
2. **Personal CGM Startup*** CPT 95249
3. **CGM Data Interpretation** CPT 95251
4. **Office Visit (Post Evaluation)** E/M 99212 - 99215

* Payers may have specific medical policy criteria and reporting requirements for billing Personal CGM. 95249 may not be billed more than once per time period that the patient owns a personal CGM receiver.

** Payers may have varying coverage policies for 95251 and are not obligated to pay on a monthly basis, so always check with payers to verify coverage and limits on frequency.

CGM Billing Guidance from the AMA

The American Medical Association (AMA) published an article in CPT® Assistant in December 2009 that clarified the following use of CPT® codes 95250 and 95251 for Professional and Personal CGM.

- **95250** can be billed for Professional CGM at the time of placement.
- **95251** does not require a face-to-face (in person) visit.
- **95250** and **95251** should only be reported once monthly per patient.
- **95250** requires that the service period be at least 72 hours.
- **95251** requires at least 72 hours of CGM data from a patient.
- **95249** can be billed for Personal CGM, only once per time period of time that the patient owns a CGM receiver.

Step 1 - Diagnosis Codes (Box 21)

- Document the primary diagnosis code and the appropriate ICD indicator.
- Example diagnosis code: E10.65 (Type 1 diabetes mellitus with hyperglycemia)

Step 2 - Place of Service (Box 24B)

- Specify the location where the service was performed.
- Examples: 11 = Office
  22 = Outpatient Hospital

Step 3 - Procedure Codes (Box 24D)

- Document the startup and initiation of CGM with 95250 or 95249 as appropriate.
- Document CGM data interpretation with 95251.
- If relevant, enter the appropriate E/M code for separately identifiable visit(s) concurrent with CGM (eg. for diagnosis and/or therapy changes).

Step 4 - Modifiers as Needed (Box 24D)

- Use the -25 modifier on an E/M code to distinguish a significant and separately identifiable E/M service, above and beyond the services associated with CGM, provided on the same day.

Step 5 - Diagnosis Pointer (Box 24E)

- Specify the diagnosis code reference from Box 21 (1, 2, 3, or 4) that relates to the procedure code(s) listed in Box 24D.
- If only 1 diagnosis code is listed in Box 21, then list "A" in 24E.
