Film and Video Permits

If you are planning film production or a video project, permits may be required. A checklist of requirements, including a list of staff, and landmarks as well as frequently asked questions are all available. You can begin this process by contacting Craig Eliason at (612) 673-3370 or craig.eliason@minneapolismn.gov and include:

- Name of Company, Contact Person and telephone number
- Date(s), time, and address/location of the shoot
- Type of Shoot (i.e. commercial, corporate, television)

While most requests can be completed in 2 to 3 days, as much advance notice as possible is appreciated.
