

ELEVATE THE STANDARDS OF INTEGRITY, HONOR AND COURTESY IN THE LEGAL PROFESSION

## Bring Civility Matters® to your law school

The American Board of Trial Advocates created Civility Matters® with the hope that the program would be presented at ABOTA educational activities, other bar and professional programs, and, especially, in every law school in the country. The programs feature first-hand lessons and experience from ABOTA members and are intended to instill values and standards that promote high regard for the legal profession.
