B.C. COVID-19 Update – May 12, 2020

3PM – BC health update from Health Minister Dix and PHO Dr. Henry

General update:

- BC launches province-wide survey – [COVID-19 Survey: Your story, our future](#) – to gather your feedback and experiences during the COVID-19 pandemic in BC
 - Survey created in collaboration with Medical Health Officers, Provincial Health Services Authority and the Office of the Provincial Health Officer
- Minister Dix says every step towards our social and economic renewal begins with the commitment to continuing to follow the rules, in order for BC's Going Forward plan, we must continue to be 100% committed to stopping the spread of COVID-19 and following all measures.

Reopening of business:

- Cruise ships will not be resuming; government does not advise that anyone get on a cruise ship and does not predict any amendments will be made to the current rules around cruise ships by July 1.
- Regarding travel within BC, it is a matter of progression and timing. As of right now, there is still some community spread so now is the time to stay put. As we gradually open up the economy at the end of May and into June, we need to support businesses in smaller communities, but need to do so safely. Visit our homes and cottages in small communities, but not overwhelm their communities and resources. Also be mindful of Indigenous communities – do not go unless you are invited.
- As for the possibility of the NHL restarting and coming to BC, Dr. Henry says she will not risk health and safety for large organizations, professional sports.
- Regarding concerns about the reopening of wet markets in China and elsewhere, Dr. Henry acknowledges they are very much a source of food for many communities, however there is a difference between that type of market and the illegal trade of exotic animals for food that often occurs at them; need establish restrictions around the illegal trade of exotic animals for food, and also ensure regulations are in place at wet markets to guarantee cleanliness and safety.

Reopening of borders:

- On border control for the film industry – do not foresee any exceptions to the rules of self-isolation; “we are not at the place to relax these measures yet.”
- Lifting ban on non-essential travel between Canada and US would be a mistake; “risk remains very high.”
