Key Career Accomplishments

- Experience as a non-traditional attorney with a focus on US DOT/FAA/NTSB enforcement defense, data privacy, regulatory compliance, electronic discovery, and contract litigation.
- Directed and managed interactive teams of technology professionals to plan, develop, implement, and provide 7x24 support for data security solutions in one of the largest US freight railroads (U.S. Critical Network Infrastructure).
- Planned, developed, and deployed a robust third-party vendor SSAE16 SOC 2 and Data Security Review Process designed to ensure the security of company data when transmitted, processed, or stored with third party vendors and cloud providers.
- Extensive experience managing data security audits and reviews, including, but not limited to: Attack and Penetration, Computer Forensic Investigations, Network Perimeter Reviews, Firewall Configuration Reviews, Database Reviews, and Data Center Security Reviews.
- Planned, designed, developed, and deployed complete enterprise-wide and centrally managed CCTV and badge access control system for a 500,000 square foot Boeing logistics subsidiary as part of C-TPAT compliance.
- Assisted multiple companies in establishing controls to comply with PCI DSS standards and ensure the secure storage, processing, and transmission of consumer payment data.
- Assisted large U.S. companies with international data security compliance, privacy compliance, and import/export.
- Managed data privacy breaches, including public relation responses, mitigating damages, and providing cost-effective recommendations to reduce the risk of future incidents.
- Provided business clients with practical, cost-effective solutions for Gramm-Leach-Bliley, Health Insurance Portability and Accountability, Safe Harbor Compliance, and Sarbanes-Oxley § 404 requirements.
