

Delaware Trial Lawyers Association Statement Against Racism

The Delaware Trial Lawyers Association stands unified with the Black community against racism, violence, and hate in all forms. We are outraged by the murders of George Floyd, Sean Reed, Breonna Taylor, Ahmaud Arbery and too many other Black lives. Racism must end.

DTLA's mission is to seek justice for all; therefore, we join the many voices calling for a thorough and honest investigation into police brutality directed against Black Americans wherever it occurs. The victims and their families deserve justice. Racism must end.

This country must end the widespread discrimination against and disenfranchisement of the Black community. We stand with our members and colleagues of color and all who confront discrimination to speak with one voice for justice, equality, and inclusion. Racism must end.
