OBTAINING FREE SAFETY AND INSURANCE INFORMATION FROM THE SAFER WEBSITE

For every case involving a tractor-trailer, you must immediately secure the motor carrier/broker information from the FMCSA Safety and Fitness Electronic Records (SAFER) System (safer.fmcsa.dot.gov) website in addition to the FOIA information request.

1. When you arrive on the main page, you will be asked to identify the company for which you are seeking information. If you know the DOT number or the MC number, these are much more efficient options as they return only one result. Remember you have to click the appropriate search term.

Users can search by DOT Number, MC/MX Number or Company Name.

2. You also want to run a “name search” to see if there are other related companies. Spaces also matter (for example: “P&S” returns different results than “P & S.” Adding spaces between the search terms will cause different results. As always with computer systems: GIGO (garbage in, garbage out). **Alert the lawyers to multiple companies.**
3. When you have identified the appropriate company, you will be taken to the “Company Snapshot.” Print this page and save it as a PDF for your case using the standard naming convention.

Company Snapshot
SCHNEIDER NATIONAL CARRIERS INC
USDOT Number: 264184

[ID/Operations](#) | [Inspections/Crashes In US](#) | [Inspections/Crashes In Canada](#) | [Safety Rating](#)

Carriers: If you would like to update the following ID/Operations information, please complete and submit form [MCS-150](#) which can be obtained [online](#) or from your State FMCSA office. If you would like to challenge the accuracy of your company's safety data, you can do so using FMCSA's [DataQs](#) system.

Carrier and other users: FMCSA provides the Company Safety Profile (CSP) to motor carriers and the general public interested in obtaining greater detail on a particular motor carrier's safety performance than what is captured in the Company Snapshot. To obtain a CSP please visit the [CSP order page](#) or call (800)832-5669 or (703)260-4901 (Fee Required).

For help on the explanation of individual data fields, click on any field name or for help of a general nature go to [SAFER General Help](#).

The information below reflects the content of the FMCSA management information systems as of 04/10/2020.

Entity Type:	CARRIER/CARGO TANK/BROKER		
Operating States:	AUTHORIZED	Out of Service Date:	None
Legal Name:	SCHNEIDER NATIONAL CARRIERS INC		
DBA Name:			
Physical Address:	3181 S PALMERLAND DR GREEN BAY, WI 53110		
Phone:	(800) 558-4747		
Mailbox Address:	PO BOX 2548 GREEN BAY WI 53103-7428		

Objective: this ensures we have (1) DOT number; (2) MC number; (3) number of trucks; (4) legal name and address; and (5) DBA name.

4. Select the Licensing & Insurance link in the top right corner.

5. You will be taken to a page to confirm you aren't a robot. The DOT number is pre-filled and most of the time you can just click that you aren't a robot and you can proceed.

The screenshot shows a form titled "Please enter the challenge question." with the following fields:

- USDOT Number: 264184
- Docket Number: MC
- Legal Name: (empty)
- DBA Name: (empty)
- State: Select State/Country

 Below the fields is a reCAPTCHA widget with a green checkmark and the text "I'm not a robot". To the right of the widget is a "reCAPTCHA Privacy - Terms" link. At the bottom of the form are "Search" and "Reset" buttons. A note below the form states: "New applications will not be reflected in search results for 24 hours after filing".

Occasionally, you will be asked for the MC number of the company. That information can be found on the Company Snapshot page (which you should be able to access easily because you have printed that page and saved it as a PDF).

Note: typically \$750k or \$1 million policy limit is listed. This does not mean that is all the applicable insurance. It just identifies minimum coverage compliance.

8. You must print all of these pages and save the PDF in your case file.

It is **IMPERATIVE** that you identify the policy of insurance that was **in effect at the time of the wreck** in your case! There can be **more than one policy** in effect! 35 days is required to cancel (FMCSR § 387.31). List **all** policies in effect into the case management software.

Licensing & Insurance:

9. Click your **back** button in your browser to get back to the Licensing & Insurance screen. This time, you'll click the "HTML" button:

Get the Authority History. Any company in business less than 18 months is termed a “new entrant.” Make sure if the company is a new entrant, this is highlighted to the lawyer. Save the pages (these are also on the Report):

1. Rejected insurance
2. Authority history
3. Pending application
4. Revocation [of authority]

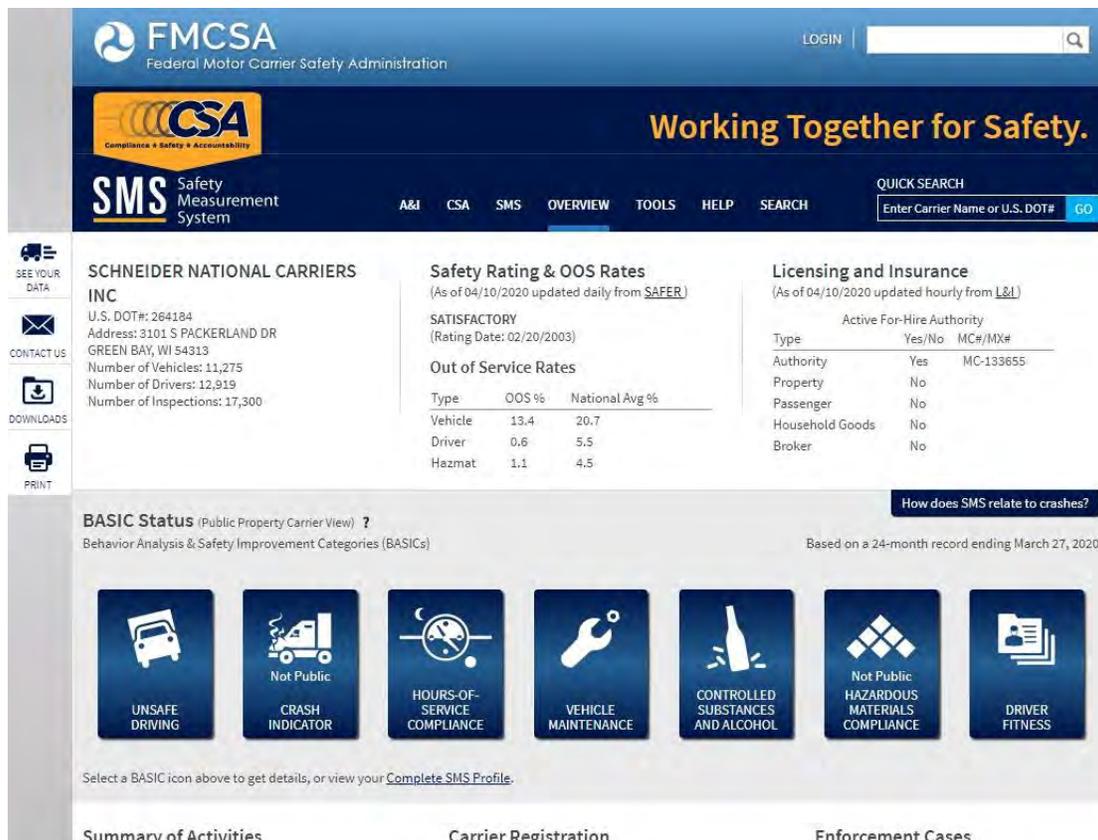

Now you are finished with the Licensing & Insurance section. Let’s move on to the company’s safety history.

Safety History:

12. Using your back button on your browser, go back to the Company Snapshot page. This time, you’ll click the “SMS Results” link:

13. When you click the link, it will take you to the main Safety Management System (SMS) page.

A screenshot of the FMCSA SMS Measurement System page for Schneider National Carriers, Inc. The page displays various safety statistics and licensing information. The top navigation bar includes "A&I", "CSA", "SMS", "OVERVIEW", "TOOLS", "HELP", and "SEARCH". The main content area is divided into several sections: "SCHNEIDER NATIONAL CARRIERS INC" with contact information, "Safety Rating & OOS Rates" showing a "SATISFACTORY" rating, "Out of Service Rates" table, "Licensing and Insurance" table, and "BASIC Status" with icons for various safety categories. The "BASIC Status" section is based on a 24-month record ending March 27, 2020.

14. The initial SMS page also contains information on any enforcement cases (see right-hand side) related to the company (cases where complaints were filed with the FMCSA).

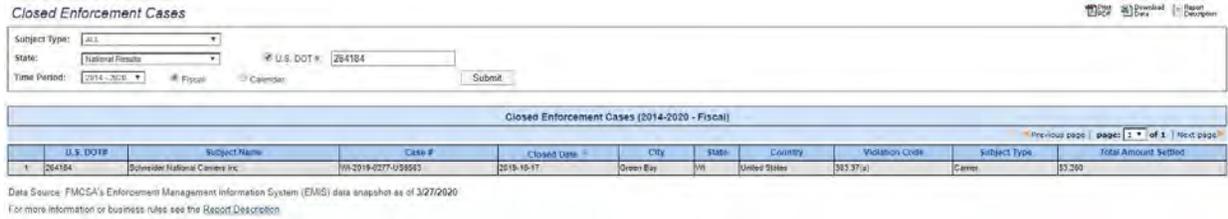

Enforcement Cases

(Six years as of 04/10/2020 updated monthly from
FMCSA)

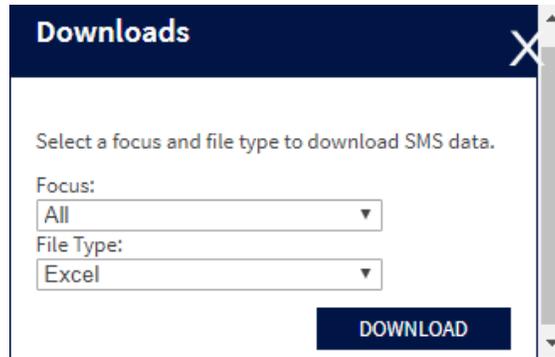

CLOSED DATE	CASE #
10/17/2019	WI-2019-0277-US0563

15. Clicking on the case number link opens a new tab that shows information on all closed cases going back 6 years from the date of the search. If the company has any enforcement cases, you'll want to print all of that

information and save it as well. We'll want to make sure those records are included in our FOIA request, and request them specifically if they aren't.

16. Go back to the SMS overview page. On the left side of the screen, you will see a “downloads” button. Click that and download the data (“all”) into an Excel spreadsheet and save it on the S drive using our standard file-naming protocol.

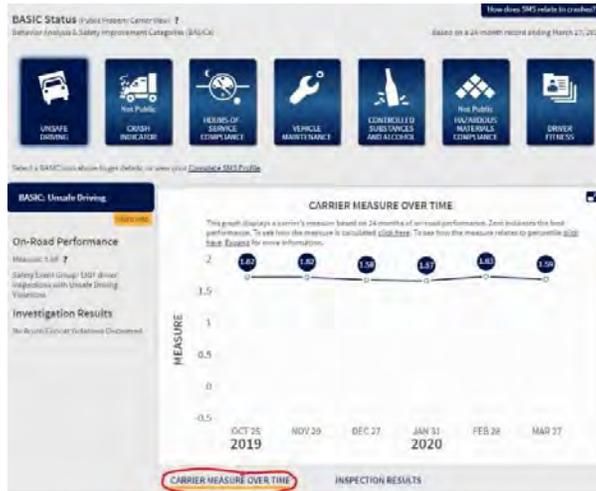

17. We want to see all of the company’s data, not just an overview. There are multiple ways to get to this information. You can click on the “See Your Data” button on the left-hand side OR you can click the “Complete SMS Profile” button located on the bottom right-hand side of the page.

18. Next, go to the Behavior Analysis & Safety Improvement Categories (BASICS):

19. You can click on each of these categories to see the company’s statistics (see below). Print and save each of these screens.

20. The “Carrier Measure Over Time” option (above) shows you a graph with two years’ worth of measurements. You can access if you expand the window using the button in the upper right corner. Download and save for each time period: monthly, quarterly, and semi-annually. Start with the date of the wreck in the far right column.

The measurements are calculated like this:

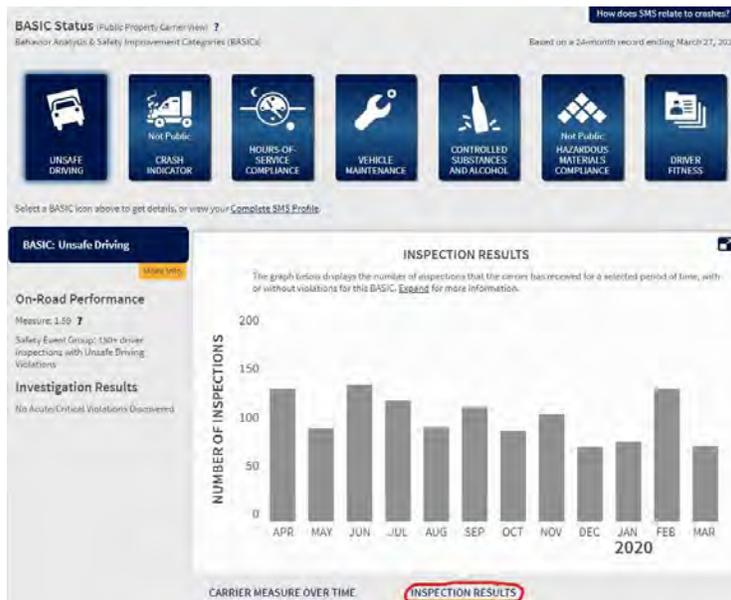

PERFORMANCE MEASURE LAST MONTH As of 2/28/2020 $\frac{\text{TotW}}{\text{Avg. PU} \times \text{UF}} = \frac{22,386}{13,685.8} = 1.63$	MORE INFO →	PERFORMANCE MEASURE THIS MONTH As of 3/27/2020 $\frac{\text{TotW}}{\text{Avg. PU} \times \text{UF}} = \frac{21,895}{13,685.8} = 1.59$
------------------------------------------------------------------------------------------------------------------------------------------	-------------	------------------------------------------------------------------------------------------------------------------------------------------

The graph can be expanded by clicking the link in the description. You can choose how you want to see the data. Print and save all combinations:

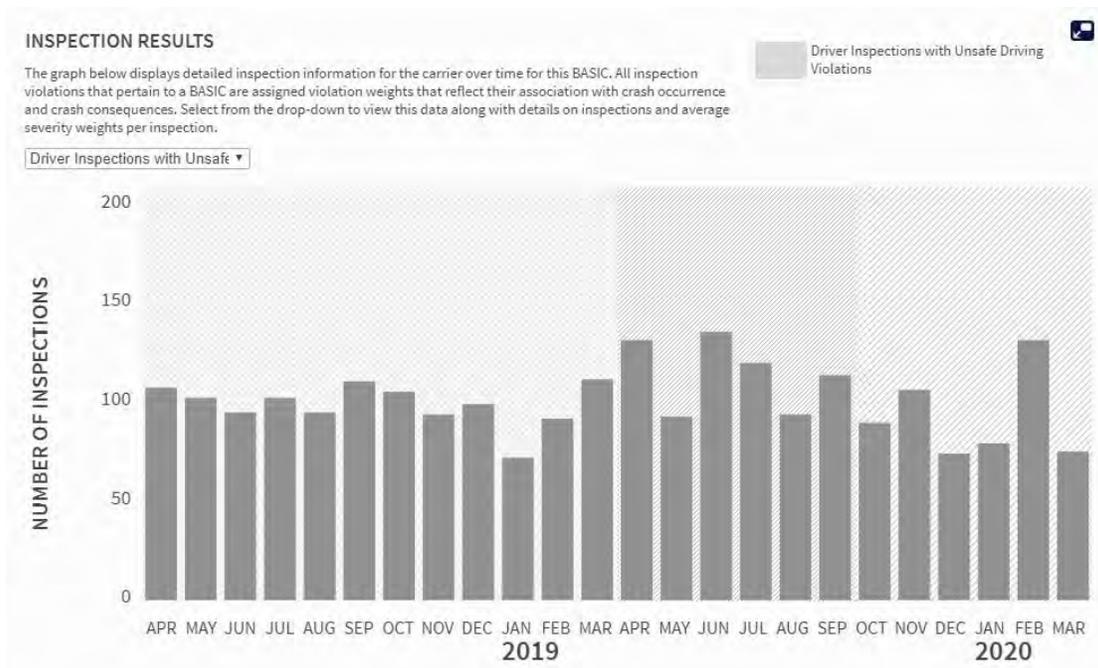

- | | |
|--------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------|
| <ul style="list-style-type: none"> a. Monthly b. Quarterly c. Semi-Annually | <ul style="list-style-type: none"> d. History e. Trends f. Both |
|--------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------|

21. Clicking the “Inspection Results” option provides a bar graph showing the total number of inspections the company has undergone in the last 12 months. Print and save this screen.

When you expand the graph, you have the option of seeing the number of driver inspections with unsafe driving violations or the number of driver inspections with violations and the average severity weight for each month over the past 2 years. Print and save both.

22. Below these graphs, you will see three expandable categories: Violation Summary, Inspection History, and Investigation Results. Use the “print” button on the left of the screen to print and save the full list of all three categories.

- + VIOLATION SUMMARY
- + INSPECTION HISTORY
- + INVESTIGATION RESULTS

23. Then under Inspection History, sort the list by “Plate Number,” find the truck and/or trailer involved in our wreck, click on the link to the inspection report for each instance. Then print and save the information in the pop-up window:

CARRIER INFORMATION				TIME/LOCATION

You then need to go to Inspection History for each category and check the box that says “with [that category] violations.” This will pull up a list containing only those violations within that category. This list can also be sorted by plate number. Save and print each of these lists in chronological order and by plate number.

- INSPECTION HISTORY Driver Inspections: 2,923

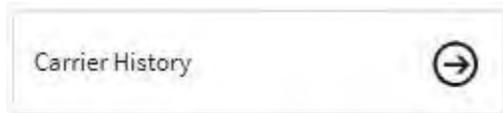

Please select to view your Inspection History. You can also sort your data by Date, Report Number, Vehicle Type, etc.

- Driver Inspections 2,923
- (or)
- With HOS Compliance Violations (96)
- Without HOS Compliance Violations (2,827)

Save the screens chronologically and by license plate number. The categories work like a spreadsheet; you can click the top of the column and it will sort by that heading. You will need to right click and select “print” in order to keep the sort settings, then select “print to PDF” in the print settings.

Objective: Most truck drivers drive the same truck. If there are multiple hits, request each report from the appropriate agency.

24. Next, using your browser back button, go to the Overview page. On the bottom right-hand side, click on the “Carrier History” button:

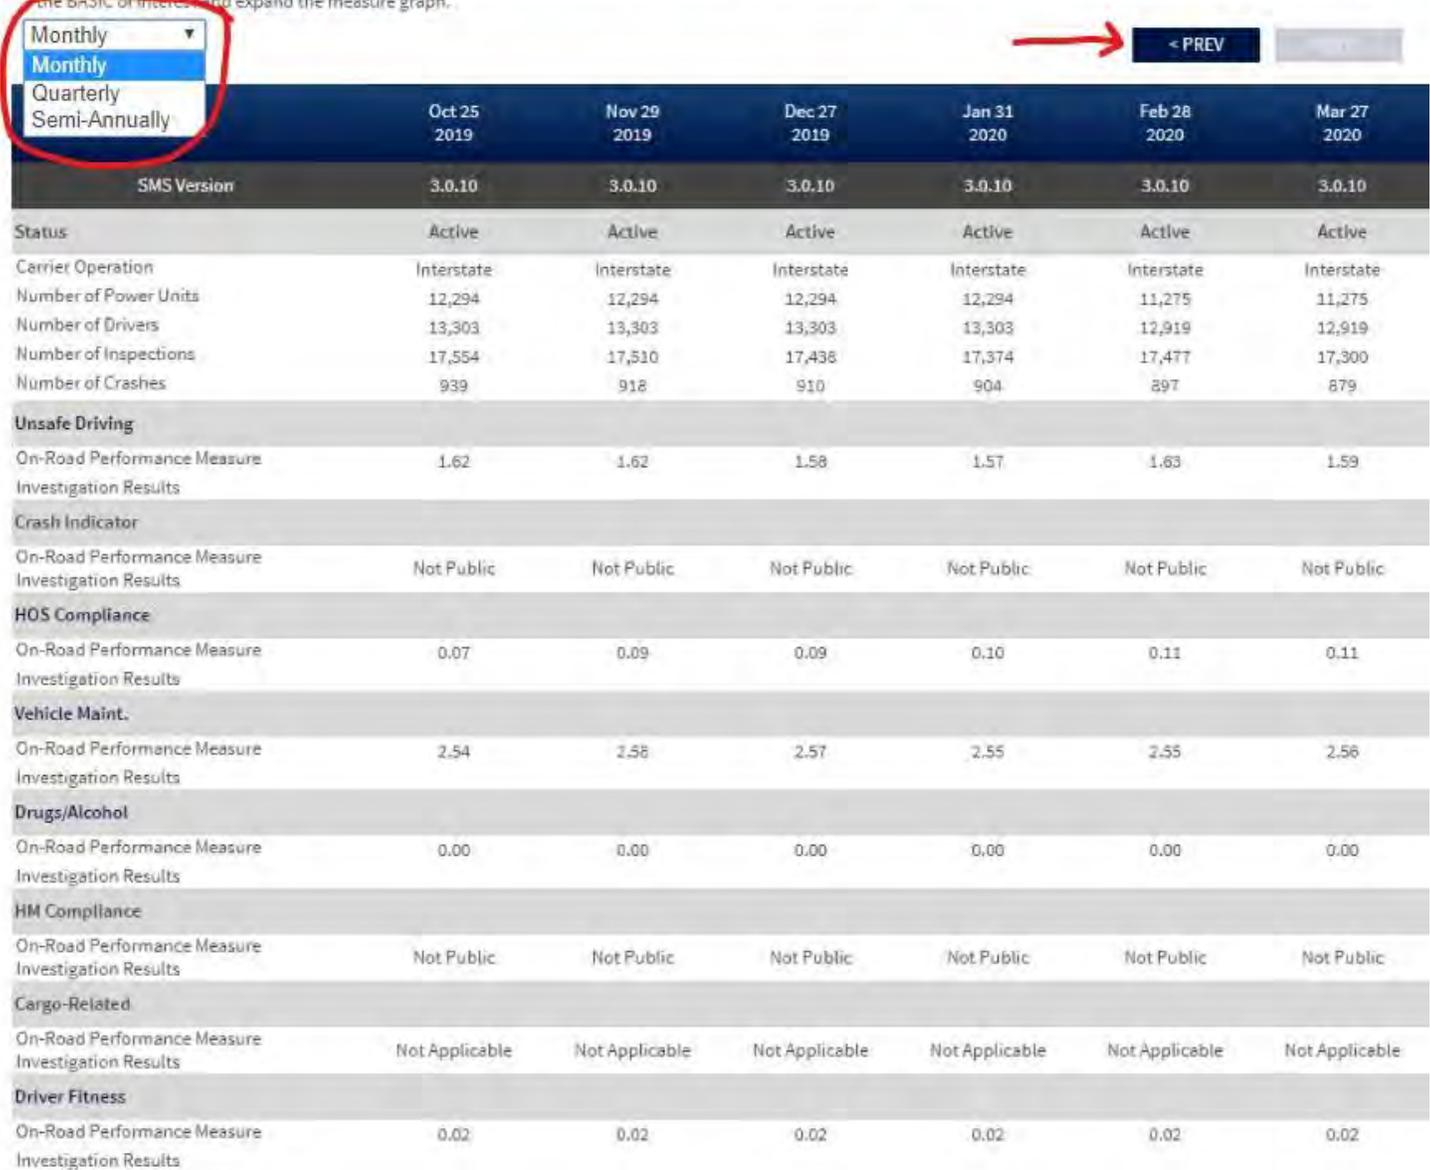

This page provides a rolling history of all the BASICS for the company going back multiple years. All of the categories are listed, with the dates at the top of each column. The default setting is “monthly” and shows six months at a time. You need to print and save each page starting with the date of the wreck all the way to the right, then using the “Prev” button, go to the previous six months until you reach the end. Then select “Quarterly” and repeat, printing and saving each page. Then select “Semi-Annually” and repeat, printing and saving each page.

Objective: Save the trucking company’s safety history prior to the wreck. This allows the attorneys to know what the trucking company should have identified as safety problems (to fix) as well as the shipper/broker that hired them and put them on the road and pointed them at our client.

Carrier History

The Carrier Measurement History Report displays six monthly runs. The default is the current month's results followed by the five previous. To change the monthly run dates, use the previous and next buttons. You can also choose to view quarterly or semi-annual reports.

The report displays the BASIC values that were available on the SMS website for that run. To view historical SMS runs based on a consistent methodology-SMS version 3, go to the BASIC of interest and expand the measure graph.
