

STORYCLOUD

StoryCloud 100% Remote Depositions

The new normal is health, safety, isolation and business continuity. In order to survive and thrive in this new reality, StoryCloud has developed a 100% remote deposition platform. No one, including the notarized digital reporter, physically shares the same room. Courts all across the country are quickly realizing the importance of utilizing a remote platform as well.

For the past five years, StoryCloud has been the market leader with the most consistent, reliable and highly acclaimed digital deposition platform.

More than 500 law firms, and the nation's largest insurance carriers, trust StoryCloud to deliver solutions that meet their needs.

Features

100% remote depositions

Highly trained remote digital reporters and notaries

Redundant cloud-based monitors

Seamless exhibit handling and readbacks

Extremely accurate transcripts using artificial intelligence and human court reporters

Best in the business service
