

CourtCall

Remote Appearances. Simplified.

CourtCall Assistance During Emergencies, Pandemics and Natural Disasters

As Judges, Administrators, Staff, Attorneys and the Public have questions, here are several incremental safety and access actions courts may consider:

- We can implement a telephonic appearance program in hours for virtually any court.
- We can **immediately** add to the list of the hearing types where Judges allow telephonic appearances. For example, a Judge who uses CourtCall for Status and Management Conferences can extend access to Motions, Show Cause hearings and other procedures.
- We can **immediately** expand the types of matters where Judges allow telephonic appearances. For example, if a court uses CourtCall for Civil but not for Criminal, Traffic, Family, Probate and other matters service for these other areas can be added. Many appearances in those additional areas are suitable for telephonic appearances and courts have used our service for these areas for years.
- Judicial officers at risk may appear remotely instead of traveling to courthouses. We can enable this feature in minutes.
- Where a record is necessary and reporters are unavailable, we can record proceedings on a temporary basis. We can also facilitate a reporter's telephonic participation.
- Should a full or partial closure of one or more court locations become necessary, we can implement a process to enable all courtroom staff, Judges, attorneys and members of the public can appear via telephone.
- We can assist in publicizing the addition or expansion of remote appearances via our website and email outreach.
