October 5, 2017

MAJ Supports the Replacement of State Flag

The Mississippi Association for Justice was formed to protect the right to trial by jury and support the men and women who defend Mississippi's harmed and wronged in our courthouses. Our belief that all Mississippians should be treated equally extends to what happens outside of the courtrooms where we practice.

As Mississippi's state flag has again entered our political dialogue, the Mississippi Association for Justice has taken notice. While other states have moved beyond official state symbols of rebellion, Mississippi stands alone as the only state that features the chief symbol of the Confederacy within its state flag.

The Mississippi Association for Justice supports removal of the confederate battle emblem from our state flag and hopes that we, as a state, can create a symbol that honors all Mississippians.
