

NJAJ Statement on Racially Charged Comments Made by NJ 101.5 Radio Hosts

The New Jersey Association for Justice (NJAJ) strongly condemns the racially charged statements utilized by two radio hosts on New Jersey 101.5 radio.

Tolerance of such language will do nothing to move the great State of New Jersey forward. This language is contrary to the good of the public.

NJAJ is committed to the ideal of justice for all. Our Statement of Mission and Values makes clear that we speak for the rights of the victims of discrimination and for those whose civil rights have been trampled upon.

We welcome and encourage respect for, and between, all who seek to advance the rights of the people, regardless of gender, age, military status or service, family status, gender identity or expression, sexual orientation, race, ethnicity, national origin, nationality, ancestry, religion or creed.
