Endorsing Statement Following CDC ACIP Meeting from Nation’s Leading Doctors, Nurses, Pharmacists and Public Health Leaders on Benefits of Vaccination

As healthcare providers who are dedicated to the health and well-being of children, the Pediatric Pharmacy Association endorses the HHS “Statement Following CDC ACIP Meeting from Nation’s Leading Doctors, Nurses, Pharmacists and Public Health Leaders on Benefits of Vaccination.”

Serious adverse effects following receipt of the COVID-19 vaccine are extremely rare, and it is vitally important that everyone 12 years and older who is eligible receive the vaccine. As we are approaching a new school year, with a return to in-person learning, it is also important that children are up-to-date on all of their routine vaccines. We encourage parents and care-givers to visit their children’s physician or a local pharmacist to make sure their children are fully protected against diseases that are preventable with vaccination.

Approved by the PPA Board of Directors:

Kristin Klein, PharmD, BCPPS, FPPA, President
Michael Chicella, PharmD, BCPPS, FPPA, President-Elect
