AlAzmi	Aeshah	1	Medication Exchange and Sharing Network Program (MESNP) Initiative to cope with drug shortages in the Kingdom of Saudi Arabia (KSA)	Best Practice
AlAzmi	Aeshah	2	Impact of Computerized physician order entry (CPOE) system on the incidence and nature of drug related problems (DRP) on pediatric wards in KAMC-Jeddah	Scientific/Research Abstract
AlAzmi	Aeshah	3	Epidemiology of Preventable Drug Related Problems (DRPs) in Hospitalized Children: Single institution observational study	Scientific/Research Abstract
Alm	Danielle	4	Assessing the effect of gestational age on morphine dosing in neonatal abstinence syndrome	Scientific/Research Abstract
Alm	Danielle	5	Ceftriaxone and metronidazole vs. piperacillin/tazobactam for treatment of pediatric perforated appendicitis	Scientific/Research Abstract
Attas	Neli	6	Evaluation of a lower Osmolarity cut off for peripherally infused parenteral nutrition on the extravasation incidence in neonates and reduction of complications	Best Practice
Ayarza	Melanie	7	Evaluation of withdrawal medication use before and after implementation of a pediatric intensive care unit analgesia and sedation protocol in mechanically ventilated children	Student Research Abstract
Baghal	Azhar	8	Evaluation of extended-interval aminoglycoside regimens in neonatal patients on extracorporeal membrane oxygenation.	Student Research Abstract
Benner	Kim	9	Evaluation of Antibiotic Allergies in Cystic Fibrosis Patients	Scientific/Research Abstract
Boehme	Sabrina	10	Overdose huddles – a standardized multidisciplinary approach to mitigate harm in hospitalized pediatric patients.	Best Practice
Bourque	Jonathan	11	Pharmacist bedside delivery and teaching is a cost effective paradigm for increasing vitamin D supplementation rates among infants.	Best Practice
Bowers	Miranda	12	Evaluation of intravenous and subcutaneous enoxaparin in the treatment of thromboembolism of pediatric patients in an academic medical center	Student Research Abstract
Brebberman	Kelsey	13	Dose standardization of aminophylline and theophylline for diuresis in a pediatric intensive care unit	Best Practice
Buksa	Ashley	14	Evaluation of intravenous acetaminophen use and prescribing practices	Scientific/Research Abstract
Campbell	Christopher	15	Retrospective evaluation of antimicrobial prophylaxis during pediatric extracorporeal membrane oxygenation in an academic medical center	Scientific/Research Abstract
Capino	Amanda	16	Change in pharmacy students' attitudes of pediatric-related topics after participation in pediatric pharmacy focused skills lab	Scholarship in Teaching
Cash	Jared	17	Proposed National Standard Concentrations of Pediatric Continuous Intravenous Infusions	Best Practice
Cho	Andrew	18	comparison of oral liquid medication measurements when using an oral syringe with and without an oral syringe adapter	Scientific/Research Abstract
Chowdhury	Tasnim	19	Clinical outcomes with concomitant calcineurin inhibitor and ketorolac therapy post pediatric liver transplant	Student Research Abstract

Chung	Allison	20	Enhancing student understanding of pediatric patients by incorporating a longitudinal service project into a pediatric elective	Scholarship in Teaching
Crandall	Bronwyn	21	Fluconazole bladder irrigation in a patient with Candida kefyr candiduria	Case Report
Dorich	Heather	22	Practicality and usability of an adolescent-directed substance use prevention resource website	Student Research Abstract
Exley	Lauren	23	Enoxaparin as Anticoagulant in Pediatric Patients: Evaluation of Indication, Dosing and Monitoring Practices in a Tertiary Pediatric Institution	Student Research Abstract
Fichter	Courtney	24	Vancomycin medication use evaluation in neonatal intensive care unit patients	Student Research Abstract
Gill	Meghan	25	Evaluation of the safety of infliximab dose rounding to reduce waste	Student Research Abstract
Goodin	Claire	26	Outcomes in patients with cystic fibrosis who participated in a "total care" model of pharmacy services	Student Research Abstract
Grocki	Paulette	27	Incidence of immunosuppression among a sub-set of pediatric renal transplant patients treated with mycophenolate	Scientific/Research Abstract
Harlan	Rhea	28	Asthma and Antibiotics in the ED	Student Research Abstract
Harris	Noah	29	Allergic bronchopulmonary aspergillosis in children with cystic fibrosis	Student Research Abstract
Harris	Noah	30	Evaluation of cystic fibrosis transmembrane conductance regulator modulators in a pediatric CF care center	Student Research Abstract
Hendricks	Ellie	31	Mobile competency program to improve bedside preparation of low-dose epinephrine in the pediatric intensive care unit (PICU): a pharmacist-led pilot program.	Best Practice
Heo	Jeong	32	Retrospective evaluation of free-text medication orders in the computerized provider order entry (CPOE) system at pediatric tertiary care institution	Student Research Abstract
Hirani	Rohit	33	Association between vitamin D deficiency and renal allograft dysfunction: A systematic review	Student Research Abstract
Hoffmeister	Nick	34	Knowledge of Over the Counter Medications Among Caregivers of Children in Grades K-8th	Student Research Abstract
Jannick	Steven	35	The Impact of Competency Evaluations on Pediatric Patient Care	Student Research Abstract
Johnson	Peter	36	Prescribing Patterns of Continuous Infusions in Non-obese versus Obese Children Admitted to the Pediatric Intensive Care Unit	Student Research Abstract
Johnson	Pete	37	Impact of Ketamine Continuous Infusion among Critically-Ill Children	Student Research Abstract
Kapoor	Seerat	38	Performance improvement and cost saving initiatives: Lidocaine-Epinephrine-Tetracaine gel formulations	Student Research Abstract
Kastelic	Kylee	39	Single sample evaluation of a pediatric enoxaparin treatment dosing protocol at an academic medical center	Scientific/Research Abstract
Kenneally	Allison M	40	Efficacy of antithrombin III supplementation calculation in critically ill pediatric patients on extracorporeal membrane oxygenation.	Student Research Abstract

Kimler	Katelin	41	Retrospective evaluation of pain management regimens in patients receiving dinutuximab therapy	Scientific/Research Abstract
Kiskaddon	Amy	42	Integration of clinical pharmacists into a pediatric cardiac transplant ambulatory clinic	Best Practice
Kleyn	Elane	59	Proton therapy as an option in pediatric patients with solid tumors	Student Research Abstract
Knoderer	Chad	43	Social justice and diversity presentations in a pediatric pharmacy elective course: impact on student knowledge and perceptions	Scholarship in Teaching
Landmesser	Katherine	45	Metoclopramide and ranitidine induced QTc prolongation	Case Report
Law	Gabrielle	46	community pharmacist confidence with prescriptions for pediatric patients	Student Research Abstract
Lee	Amanda	47	Evaluation of a pharmacokinetically-derived amikacin dosing regimen for paediatric febrile neutropaenia in a tertiary haematology-oncology unit in Singapore	Scientific/Research Abstract
Lewis	Megan	48	Pharmacist evaluation of discharge prescriptions from a pediatric emergency department for medication errors and opportunity for pharmacist optimization	Scientific/Research Abstract
Lim	Sin Yin	49	Evaluation of body composition and its relationship with vancomycin dosing and pharmacokinetics in neonates and infants	Student Research Abstract
Lim	Sin Yin	50	Population analysis of pharmacokinetics, sedative effect, and tolerance of fentanyl continuous infusion in critically-ill children	Scientific/Research Abstract
Lise	Jessica	51	Oral sodium bicarbonate for urinary alkalization in pediatric patients with acute lymphoblastic leukemia receiving high dose methotrexate	Scientific/Research Abstract
Machin	Stephanie	52	Immunoglobulin utilization in a pediatric teaching hospital	Scientific/Research Abstract
Maehler	Colin	53	Psychiatry pharmacy intern shift on an inpatient adolescent psychiatry unit	Student Research Abstract
Monangai	Kathy	54	Evaluation of Risk Factors and Outcomes of Treatment of Clostridium difficile Infection in High-Risk Pediatric Oncology and Bone Marrow Transplantation Patients: Comparison Prior to and Following Updated IDSA Guidelines	Student Research Abstract
Mullen	Laura	55	Intern pharmacist expanded role in transitions of care	Student Research Abstract
Nguyen	Thao	56	Globicatella spp. as a Cause of Neonatal Meningitis: a Case Report	Case Report
Nierman	Sarah	57	Proparacaine unit dose preparation for neonatal retinopathy of prematurity examinations	Best Practice
O'Bryan	Madeline	58	Evaluating the impact of provider chosen antibiotic indications on third generation cephalosporin use in the neonatal intensive care unit	Scientific/Research Abstract
Paddy	Juliana	60	Hydroxyurea and its contribution in the reduction of malaria in children with sickle cell disease in Sub-Saharan Africa	Student Research Abstract
Park	Katie	61	Response to Unfractionated Heparin Bolus Prior to Extracorporeal Membrane Oxygenation Vascular Cannulization	Scientific/Research Abstract

Patch	Megan	62	Review of Staphylococcus aureus colonization polymerase chain reaction and chromagar plate screenings on selection of or change in antimicrobial therapy within a community pediatric hospital	Scientific/Research Abstract
Pham	Huong	63	Antimicrobial Stewardship in Management of Early-Onset Sepsis: A Quality Improvement Approach	Best Practice
Powers Shaddix	Brittany	75	Effects of a pharmacist-driven acid suppressive therapy (AST) stewardship program in children admitted to non-intensive care units	Best Practice
Procaccini	David	64	Failure mode and effects analysis of a pediatric venous thromboembolism risk screen at a large academic children's center	Best Practice
Ragan	Hunter	65	Evaluation of Non-Pseudomonas aeruginosa Prophylaxis in Children with Cystic Fibrosis	Student Research Abstract
Ramsden	Shannon	66	Identification and management of delirium in critically ill pediatric patients: let's clear the confusion	Student Research Abstract
Reiter	Chris	67	Evaluation of QT-prolongation risk in pediatric patients with cystic fibrosis	Student Research Abstract
Rogers	Danielle	68	Perceptions of Healthcare Professionals on the use of a Vaccine Selection Tool in an Ambulatory Care Clinic	Student Research Abstract
Rotolo	Shannon	69	Inhaler use by patients and caregivers with visual impairment – A case report and summary of available literature and resources	Case Report
Rubin	Mara	70	Therapeutic drug monitoring and pharmacokinetics of once-daily extended-interval (ODEI) amikacin in critically-ill children	Scientific/Research Abstract
Rush	Cassandra	71	Quantification of fluid intake from all sources in pediatric patients in an intensive care unit (PICU)	Student Research Abstract
Russel	John	72	Characterization of pediatric education within pharmacy school curricula	Student Research Abstract
Saunders	Melody	73	Gap Analysis of Pediatric Pharmacy Services at UF Health Shands Children's Hospital in Accordance with the ASHP-PPAG Guidelines	Student Research Abstract
Schomburg	Kaitlyn	74	Evaluation of compliance with vaccine recommendations at neonatal intensive care units in a health system	Student Research Abstract
Shah	Dhara	76	Medication preparation and administration in the pediatric population: the nurse's perspective	Scientific/Research Abstract
Shah	Dhara	77	Osmolality of commonly used oral medications in the neonatal intensive care unit	Scientific/Research Abstract
Shah	Pooja	78	Evaluation of buccal glucose gel for the treatment of neonatal hypoglycemia Purpose	Scientific/Research Abstract
Shah	Sonali H.	79	Targeting antimicrobial resistance in our generation, one community pharmacist at a time	Student Research Abstract
Shields	Elizabeth	80	Use of zinc supplementation in pediatric patients with anorexia nervosa or avoidant restrictive food intake disorder: a retrospective review.	Student Research Abstract

Shukla	Praveen	81	Implementation and assessment of a model-based clinical decision support (CDS) tool into routine clinical use for personalized busulfan therapy in the pediatric hematopoietic cell transplantation (HCT) population	Student Research Abstract
Shukla	Praveen	82	Identification of non-myeloablative cumulative AUC (cAUC) for busulfan (Bu) by assessing the donor-cell chimerism dynamics in the pediatric alloHCT population with non-malignant disorders	Student Research Abstract
Smith	Kelley	83	Evaluation of the impact of antimicrobial stewardship guidelines on perforated appendicitis	Scientific/Research Abstract
Song	Diane	84	Evaluation of N-acetylcysteine therapy for refractory obsessive compulsive disorder in children	Case Report
Stehling	Caitlin	85	Impact of transition to telephone encounters for medically complex care program for pharmacist medication reconciliation	Best Practice
Stone	Sadie	86	Implementation of a mentorship program for postgraduate year 1 pharmacy residents in a pediatric healthcare system	Scholarship in Teaching
Stultz	Jeremy	87	Factors associated with cefazolin non-susceptibility in pediatric patients hospitalized with ceftriaxone-susceptible Enterobacteriaceae urinary tract infections	Scientific/Research Abstract
Suchovsky	Skyler	88	proteomics analyses to elucidate key stress response candidates in leishmania	Student Research Abstract
Sukar	Nabil	49	Evaluation of body composition and its relationship with vancomycin dosing and pharmacokinetics in neonates and infants	Student Research Abstract
Szynalik	Natalia	89	Outcomes of a pharmacist driven vancomycin and aminoglycoside service in a pediatric hospital	Student Research Abstract
Tipton	Kayla	90	Comparison of ampicillin-sulbactam vs. cefotaxime for empiric therapy in children with sickle cell disease and fever	Student Research Abstract
Townsend	Alexa	91	Evolution of parenteral nutrition associated cholestasis in premature neonates with use of a mixed oil based fat emulsion	Student Research Abstract
Urban	Victoria	92	Identifying the utility of pharmacy intern led interventions related to pediatric prescriptions in the community setting	Student Research Abstract
Weaver	Krista	93	Evaluation of appropriateness and cost-savings of pharmacist-driven palivizumab ordering	Scientific/Research Abstract
Wells	Maegan	94	Sildenafil therapy and progression to stage II palliative surgery in single ventricle physiology	Scientific/Research Abstract
Willard	Gina	95	Presentation of new onset neonatal hypertension after administration of darbepoetin alfa- a case report.	Case Report
Wytiaz	Rebecca	96	Evaluation of the appropriateness of antifungal use in the pediatric and cardiothoracic intensive care units at a children's hospital	Scientific/Research Abstract
Xu	Kelvin	97	The simulated administration of lansoprazole orodispersible tablets through different pediatric feeding tubes and gastrostomy buttons	Scientific/Research Abstract
