- 9.) 5 minutes of Questions & Answers exam (Two-voice at 225 wpm)

Each examinee must personally take down the exam by either stenotype or voice, and reduce it to writing via computer.

TCRA will provide a list of proper names used in the exam at registration check-in.

You will be allowed three (3) hours to complete the transcription. Your transcript must be printed or typewritten and double or triple spaced on white paper. You must leave at least a one-inch margin on the left side of the page so that no part of the transcript will be hidden once the pages are stapled to the cover sheet.

All three sections of the exam must be saved as one file. Do not separate the sections into individual files for Lit, JC and Q & A. The candidate number is on your envelope. It will be saved as "Exam" and your 2 or 3-digit candidate number. Example: Exam 123.

Raise your hand when you are ready to print. A proctor must watch you print. All three sections must be printed at the same time. Please begin each section of the exam on a new page for ease in grading. After you have printed your exam, you must delete it while the proctor is still there and you must empty your recycle or trash bin, RAM, and any other areas where your equipment may store the exam. If you are using software that creates an auto archive folder, you need to be sure to delete that as well. The proctors are not responsible for deleting the exam from your equipment. They are only there to witness you erase it.

**Test your printer for functionality, ink, printed pages per minute, etc. before you arrive on site.**

Once you have printed your exam, the proctor will ask you to power off your writer and computer. You will then be able to utilize the remaining transcription time to proofread and make corrections on your exam in blue ink only. You may make corrections on your exam papers by placing an "X" over the error and writing the correction directly above it in blue ink. All corrections must be legible.

If you finish transcribing the exam early or request a "No Grade," you may leave the transcription room but will not be permitted to remove your equipment or leave the premises until ALL exams have been turned in.

A "No Grade" request is equivalent to receiving a failing grade.

**Examinees must stop typing/proofreading when time is called at the end of the exam. Do not continue to type/proof after the proctor announces the close of the session or your transcript will not be accepted. At that time, examinees must turn in their exam.**

We will give a 30-minute warning to begin printing and also a 10-minute warning. When time is called, you must be finished printing, not beginning to print. When time is called, the piece of paper coming out of your printer will be the last piece of paper that we can accept. No exceptions.

When turning in your exams, if you used storage media, you must write your 2 or 3-digit candidate number on this items.

Do not pack up your equipment until all exams have been turned in and you are allowed back in the room.
