Innovative SONO probes

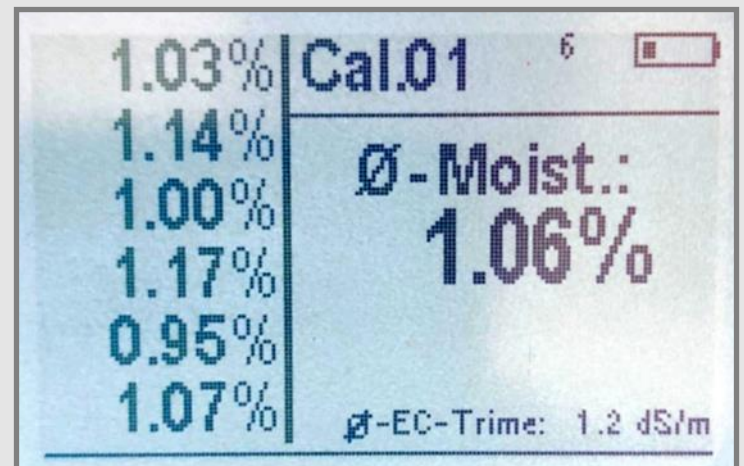

20 lbs sample

2 minutes

6+ averaged values

Accurate

- ✓ Highly accurate and repeatable moisture values
- ✓ Fast, Easy to use, very portable
- ✓ Average multiple readings for better accuracy
- ✓ Innovative and proven TRIME® TDR Technology

TRIME® TDR Technology

TRIME® TDR's measuring field penetrates deep into a large volume of material, resulting in **highly accurate** and **repeatable** moisture measurement values. MESA's handheld and online moisture probes and 25+ years of expertise meet all your aggregate and fresh concrete measurement needs.
