Assassin dagger guide ragnarok mobile

Loading agi crit assassin cross guide agi crit construction assassin cross standard construction when you talk about killers. With enhanced card effect on Ragnarok Mobile, especially the Cobble card, Assassin's Cross can be easily built into the Agi Crit Build. In addition, the severe doubling when using the cuters and the crit attacks ignore the goal's def and run away, making it good build in 1 vs 1. It might build a DPS killer cross, but don't get silly, this AGI Crit can reach 100k damage in less than 5 seconds from the build, being equivalent to the loss of sound flick killer cross construction. A small delay with their skills, plus cards that can reduce delays and, this build can do nearly 1,0,0,0 damage in just a few seconds. Perhaps, the biggest drawback of this construction is item dependency, and should be overupgrades, but won't even disappoint with basic gear, sound flick and soul breaker construction!
