## 1. Opener

a) If our classroom is the domain, is shoe size a function? Is parents' first names? Is number of fingers? Why or why not?

b) Simplify:  $3x^2 \cdot (3x^2)^{-3}$

$$2\left(\frac{2x}{16x^2}\right)^{-2}$$

c) My car will need a major tuneup after I have driven it 120,000 miles. What day will I have to get that tune-up?

d) What is the largest manmade structure on Earth?
