PERSONAL GROWTH

Your challenge this week:

Waiting for anything is not easy. We live in an 'instant gratification' world. Waiting for God is also not easy. Often He doesn't seem to be answering our prayers but when we think that way it implies that God is not in control of our lives. But God is worth waiting for!

Write what it means to have patience.

What are the things in this world that make it difficult to experience patience?

Write the things that tempt you to be impatient. When you face these, ask God to help you live in His patience instead.

Need more about Patience?

Ask your leader for the Patience reading from The Life Transformation Bible or read it on pages A58-A59.
