Net Wholesale Pricing

| | | |
|--|--------------------------------|---|
| Single-year Nucleus teacher licenses: | If buying 9 or fewer licenses: | \$4,000 per teacher per 1-year license |
| | If buying 10 or more licenses: | \$2,400 per teacher per 1-year license |
| Multi-year Nucleus teacher licenses: | If buying 9 or fewer licenses: | \$3,200 per teacher per multi-year license |
| | If buying 10 or more licenses: | \$2,000 per teacher per multi-year license |

Totals for 5-year license bundle:

- If buying 9 or fewer 5-year Nucleus teacher licenses:

- $\$3,200 \times 5 = \$16,000/\text{teacher}$ per 5-year license (total)
- If buying 10 or more 5-year Nucleus teacher licenses:
 - $\$2,000 \times 5 = \$10,000/\text{teacher}$ per 5-year license (total)

Components

5-year bundle for each Nucleus course includes:

- Student Edition
 - Access to student curriculum resources; includes everything that the Teacher Edition has, except for: answer keys, solution guides, and teacher-exclusive features like class enrollment, grading functionality, etc.
- Teacher Edition
 - Access to all Student Edition features, plus teacher-exclusive features like raffle tickets, certificates, solution guides, access to Grading Mode, assessments, and class rostering.
- Admin Edition
 - Access to all features that a student has, with additional Admin-level features such as analytics and district-wide reporting.
- Ancillary:
 - Unlimited Teacher Training & Support
 - Nucleus will provide unlimited training & support to teachers to ensure the successful implementation and usage of the curriculum. The training session normally takes 1 hour, and support is conducted by real-life Nucleus Customer Success Team members via text, phone call, or email. Each teacher has their own dedicated Nucleus support specialist, or “concierge,” throughout the duration of the contract.
 - Integrations with LMS/SIS
 - Nucleus will provide integrations with the district’s Learning Management System (LMS) and Student Information System

(SIS) upon request, for automatic grading, assignment creation, and rostering.
