Name _____

Picture Tree Diagram

Directions: Use the manipulatives like dice, cards, marbles, and playing cards to design a probability experiment. Create a tree diagram that models the possible outcomes of your experiment out of the manipulatives and a white board. Have the teacher take a picture and print it out for you and glue it in the space provided. Answer the questions.

1. What is your probability experiment?

2. How many possible outcomes are there?

3. Write a probability question related to your experiment.

4. Answer your question and show how you got that answer.
