COURSE DESCRIPTION
3 hours. An exploration of the many ways that art can exist in public spaces, from temporary interventions to formal proposal-based projects. Prerequisite(s): ASTU 2801 and ASTU 2802.

COURSE CONTENT & SCHEDULE CHANGES
This interdisciplinary course will explore the history and evolution of public art, and the various strategies and forms artists use to engage with and intervene in public spaces outside of galleries and museums. Students will complete two public art proposals and execute/install one temporary public art project for a light art exhibition. Students in this course will have access to the full range of Sculpture facilities and equipment, and technical demonstrations will be given by the instructor upon request. The course schedule reflects expected class progress in course subject matter and is considered tentative. The schedule is subject to change in content and scope at the Instructor's discretion.

COURSE OUTCOMES & OBJECTIVES

<table>
<thead>
<tr>
<th>Outcomes</th>
<th>Objectives</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Knowledge: What students should know</strong></td>
<td></td>
</tr>
<tr>
<td>Understand the history, current issues, and direction of the artistic discipline</td>
<td>Knowledge of the history and theory of public art forms, including the traditions, conceptual modes, and evolutions of the discipline.</td>
</tr>
<tr>
<td>Place works in the historical, cultural, and stylistic contexts of the artistic discipline</td>
<td></td>
</tr>
<tr>
<td>Use the technology and equipment of the artistic discipline</td>
<td>Knowledge and skills in the use of professional tools, techniques, and processes to work from concept to finished product. Advanced understanding of the possibilities and limitations of various materials.</td>
</tr>
<tr>
<td><strong>Skills: What students should be able to do</strong></td>
<td></td>
</tr>
<tr>
<td>Use the elements and principles of art to create artworks in the artistic discipline</td>
<td>Understanding of advanced design principles with an emphasis on three-dimensional design, and the ability to apply these principles to a specific aesthetic intent, including professional abilities in drawing sufficient to support work in the public art field</td>
</tr>
<tr>
<td>Create artwork that demonstrates perceptual acuity, conceptual understanding, and technical skill</td>
<td></td>
</tr>
<tr>
<td>Analyze and evaluate works of art in the artistic discipline</td>
<td>Demonstrated expertise in analyzing and evaluating works of public art.</td>
</tr>
</tbody>
</table>
COURSE REQUIREMENTS

- Attend all classes and actively participate in class activities and discussions.
- Complete Reading Response worksheets for three required readings and actively participate in group discussions.
- Project 1: Research, propose and produce a light-based artwork for a public light art exhibition in Bedford. Participate in a site visit on February 3. Install and deinstall the artwork for a one-night exhibition on April 8. Document your work and write a project statement.
- Project 2: Research and propose a mural for the Advanced Environmental Research Institute at UNT (AERI).
- Complete the SPOT Course evaluation and upload a PDF of your email confirmation.

STUDIO ART IDEA STATEMENT

The Department of Studio Art is committed to fostering an inclusive community that respects and values diverse experiences and viewpoints. We provide a supportive, creative environment where students are encouraged to be curious, explore wide-ranging traditional and unorthodox artistic practices, engage in self-reflection, demonstrate cultural competency, and approach challenges with a critical eye to identify creative solutions. The Department of Studio Art supports the representation and participation of diverse populations, including but not limited to individuals of many cultures, religions, socio-economic backgrounds, races, ethnicities, abilities, sexual orientations, genders, ages, and intersectional experiences. The department will actively engage in practices that support diversity, equity, and inclusion within our community of faculty, staff, and students.

The Department of Studio Art will:
- Honor student agency and voice. We understand that our students come from diverse backgrounds and bring with them a wealth of experience and culture that informs their actions and ideas. We acknowledge that their education starts before they enter our doors and that we are contributing to a process of life-long learning. We are committed to crafting assignments that rely on a broad understanding of cultural knowledge that is aimed at enfranchising and empowering all our students.
- Equip students with the skills to connect broad ideas and approach the world with curiosity and openness. Our curriculum reinforces concepts of community and justice-oriented citizenship through open discussion, critical analysis, personal accountability, and respect. We foster self-efficacy by scaffolding our curriculum to grow students’ confidence and direction.
- Foster anti-racist teaching practices. Coursework at every level is designed to explicitly address histories of oppression and to critique the ongoing social structures that contribute to systemic racism. We provide our students with the necessary tools to recognize, intervene, and dismantle injustice, judgment, and shame. Faculty engage in teaching methods that disrupt conventional pedagogical approaches that reinforce structural discrimination.
- Value contributions and perspectives that are different than our own. We pledge to defuse defensiveness and fear and replace it with generosity, openness, and appreciation. We support intersectional research initiatives and encourage our students to express their personal and complex identity(ies). We recognize the importance of representation and the necessity to recruit and retain diverse faculty, staff, and students. We identify opportunities to highlight under-represented voices through our selection of visiting artists and guest lecturers.
- Respect each other's disciplines and artistic practice. We celebrate our broad-based knowledge and range of expertise that stems from the pursuit of multifarious artistic practices and research agendas. We value the contributions from all members of our community and recognize that we are stronger and have richer intellectual experiences because of our pluralism. We support equal access to opportunities, interdisciplinary pursuits, and the cross-pollination of ideas that lead to growth spread equitably amongst all constituents.

- Attend to the psychological realm of our student, faculty, and staff’s experiences. We are mindful of the emotional impact of our course content, academic expectations, and social interactions and that there is a differential impact born by individuals from different backgrounds. We seek to address feelings of invisibility and isolation by broadening community engagement and providing greater access to diverse examples of success.

- Acknowledge this work is ongoing and shared responsibility. Regardless of position within the department, we are equally accountable for upholding the community standards outlined in this document.

**ASSIGNMENT & ASSESSMENTS**

**COURSE STRUCTURE**

Class meetings will vary in nature from day to day, and involve activities such as slide presentations, technical demonstrations, group discussions, studio work days, individual meetings, and critiques. You should expect to attend every class in person and devote a minimum of 5 hours per week to this class outside of scheduled class time to complete assigned projects.

**COURSE SCHEDULE** (subject to change)

</tbody>
</table>
**REQUIRED TOOLS & MATERIALS**

Required tools/materials that students must acquire and bring to every class or keep in a locker:
- Sketchbook and drawing utensils
- Materials required for independent projects (IE light art exhibition)
- Transportation to Bedford for site visit and light art exhibition

**REQUIRED READINGS**

Three Required Readings (RR) will be selected based on class content and posted on Canvas. Students will complete Reading Response worksheets for each Required Reading.

**CLASS PARTICIPATION EXPECTATIONS**

- Come to class prepared & on time.
- Do your very best to attend scheduled off-campus site visits.
- Participate consistently in class discussions and critiques. Think critically. Be honest.
- Respect your peers’ opinions, beliefs, orientations, and histories when discussing their work.
- Challenge your classmates and push each other to do your best.
- Share your skills, experiences, and energy to strengthen the community. Give more than you take.

Students are expected to attend every class. You are responsible for completing all of the required assignments. I expect all students to participate in class discussions, contributing ideas and perspectives on topics or art. All your work should incorporate aspects or issues addressed in class in relation to your personal or professional interests.

You are expected to assist in maintaining a classroom environment that is conducive to learning. In order to assure that everyone has an opportunity to gain from time spent in class, unless otherwise approved by the instructor, you are prohibited from using cellular phones, checking your email or surfing the internet, updating your social networking sites, eating or drinking in class, making offensive remarks, reading newspapers or magazines, sleeping or engaging in any other form of distraction. Inappropriate behavior in the classroom shall result in, minimally, a request to leave class, which will be counted as an unexcused absence.

**ATTENDANCE POLICY**

- Regular and punctual attendance is mandatory.
- Three absences will be tolerated.
- More than three absences will require a note from a doctor or a note from the art office excusing the absence for a reason covered under UNT policy 06.039 (Student Attendance and Authorized Absences) in order to be counted as excused.
- More than three absences will lower your final grade by one letter grade per additional absence.
- Most lectures, demonstrations, and assignments will occur at the beginning of class periods and will not be repeated for those who come in late. If you are late to class, you will need to notify me at the end of the class period to replace an absence with a tardy. Three tardies will constitute an absence.
- A tardy is considered to be an arrival of 10-30 minutes after the beginning of class. If you arrive more than 30 minutes after the class begins, you will be marked absent for the day.
- Assignments that are turned in late will receive one letter grade lower per day for each class day they are late.
- Examinations, quizzes, and in-class assignments missed may only be made up with an official doctor’s excuse or note from the art office excusing the absence for a reason covered under UNT policy 06.039 (Student Attendance and Authorized Absences).
- Critiques missed may not be made up and grades will reflect the student’s failure to participate in the critique discussions.

**LATE WORK / MAKE-UP POLICY**

Late work will receive a penalty of 10% deducted from the assignment’s value per class day the work is late, unless the student provides proof of an acceptable mitigating circumstance: serious illness, death of a family member, or other circumstance if approved by the instructor.

**FINAL CLEAN-UP**

We will conduct a final clean-up of the sculpture facilities during finals week. Participation in final clean-up is mandatory. Absence from the final clean-up will result in lowering your final grade by one full letter. If you are unable to attend final clean-up, you must schedule an alternate date and time with your instructor.

**GRADING**

Grades will be provided regularly through the semester (after assignments are submitted, critique, etc…) and at mid-term. Note: There are no pluses and minuses given at UNT.

A = Excellent (100-90%)
B = Above Average (89-80%)
C = Average (79-70%)
D = Inferior (69-60%) [passing but not necessarily satisfying degree requirements]
F = Failure (59% or below)

**SCULPTURE SHOP ACCESS & POLICIES**

Sculpture Shop Hours for Spring 2022:
Monday-Thursday: 8am - 9pm
Fridays: 8am - 5pm
Saturdays and Sundays: 12pm-5pm (After 12th class day!)

The shop is only open to undergraduate students who are currently enrolled in a sculpture course, OR who have taken a sculpture course in the past and have purchased a Shop Card ($50/semester for undergraduate students, free for graduate students).

**WORKING OUTSIDE OF CLASS TIME**

Students have access to the classroom and sculpture shop areas outside of their scheduled class times. Please respect other classes when they are in session by following these guidelines:
1. If you need to retrieve things from the classroom or storage cubby room while a class is in session, please enter from the back door (from the metal fabrication area) and be as quiet as possible as you enter and exit the classroom in order to avoid disrupting the class.

2. Do not enter the critique room when other class critiques are in session.

3. If you need to work in the wood shop or metal area while a class is in session, ask the instructor for permission whenever possible. Note that any classes using a shop space for an assignment has first priority to that equipment and may not be able to accommodate you during their class.

4. Do not use equipment in the wood shop or metal area while a class demo is being given in that space.

5. You may be asked to stop working if your activity is producing noise that disrupts a class lecture or critique.

### SCULPTURE TOOL CHECK-OUT SYSTEM

1. Only students that are currently enrolled in a Sculpture course or who have bought a Shop Card are allowed to check out tools from the tool cage.

2. Tool check-out is for one day (not overnight), unless it is a long term checkout item (like welding jackets). Tools must be returned before the shop closes that day. Tools not returned by the time the shop closes and that haven’t been checked out overnight will be will be considered a Shop Rule Violation.

3. Some tools may be checked out overnight but permission must be obtained from the Shop Supervisor or a faculty member in advance. Tools checked out overnight must be returned by 9am the next morning unless permission has been granted in advance by a faculty member or the Shop Supervisor. Please plan accordingly. Tools returned after 9am will be will be considered a Shop Rule Violation.

4. All tools must remain in the building unless you have received advanced permission to take them elsewhere from a faculty member or the Shop Supervisor.

5. Never leave your tools unattended. If you need to leave the area for a short time (for example, to use the restroom), please ask someone in the shop to look after your tools for you. Please check your tools back in if you need to leave the Sculpture area for more than 10 minutes. Tools found unattended will be checked back in by a Tool Cage Worker, and this will be considered a Shop Rule Violation.

6. You are financially responsible for all the tools you have checked out. If a tool is lost or stolen under your care, you will be charged for its replacement.

7. Report any broken or damaged tools to a Cage Worker or the Shop Supervisor. Tools break all the time, so you won’t be punished if that happens, but we need to know about it so that we do not hand a damaged or broken tool to the next student who needs it.

### PROJECT AND MATERIAL STORAGE

1. Projects and materials may be stored in the Sculpture area only if they are labeled with a current Storage Tag. Tags can be acquired from the tool cage.

2. A Storage Tag will permit you to store that item on one of the shelves in the classroom for two weeks. If additional time is needed to store the same item(s), you must receive special permission for a new Storage Tag from a faculty member or the Shop Supervisor.

3. If your Storage Tag expires, a Cage Worker will replace it with a red Removal Tag. At that point you will have one week to remove or renew your belongings. If the item is not removed or renewed by the date on the Removal Tag, it will be put in the dumpster or allocated as scrap material. This will be considered a Shop Rule Violation.

4. Emergency egresses must ALWAYS remain clear. Make sure artworks/materials are not blocking walkways, doorways, etc.

5. Perishable items such as food are not be stored in the Sculpture area. If you are incorporating perishable items into a sculpture or performance, please speak with your instructor or the Shop Supervisor about their proper use, clean-up and disposal.

### TOOL RESERVATIONS ON BOOKED SCHEDULER

The digital fabrication tools in the Sculpture area may only be reserved by students who have learned how to operate the equipment in a Beginning Sculpture course, or by students who have gained that knowledge in
other ways and have received permission from a sculpture instructor or the Shop Supervisor. These tools include the Large-Format PLA Printer, the CNC Plasma Cutter, and the 3-Axis CNC Router. They can be reserved using Booked Scheduler at this link: https://itservices.cvad.unt.edu/reservations

**MATERIAL PURCHASES FROM THE TOOL CAGE**

Some materials are available for purchase at the Sculpture Tool Cage for your convenience, and those materials are always sold at cost (UNT is not making any profit from the sale). The tool cage workers will create a document to keep track of your purchases over the course of the semester. At the end of the semester, students must visit the tool cage to receive a slip showing the total amount due. Students will need to take that slip to pay the Eagle Student Services in the UNT Union to pay it, and then bring the receipt back to the Tool Cage as proof of payment. Proof of payment needs to be submitted before the last day of Final Exam Week in order to receive a final grade in the class.

**CONSEQUENCES FOR SHOP RULE VIOLATIONS**

The following consequences will be faced for health and safety, material storage, and/or tool-check out violations.

1. First Violation: Warning from instructor and Shop Supervisor.
2. Second Violation: Meeting with course instructor and shop supervisor, and loss of tool checkout privileges for 3 days.
3. Third violation: Meeting with program coordinator, course instructor and shop supervisor, and loss of tool checkout privileges for one week.
4. Fourth violation: Meeting with studio art department chair, and indefinite loss of tool checkout privileges.

**HEALTH & SAFETY PROGRAM**

Students are required to follow the Department of Studio Art Health and Safety guidelines and are required to complete training for each studio course. The goal of the Studio Art Health and Safety Program is to protect the health and welfare of all faculty, staff, and students and to cooperate with the University of North Texas’ Office of Risk Management. Please visit the website for details and the departmental handbook: https://art.unt.edu/healthandsafety.

**HEALTH & SAFETY INFORMATION (SCULPTURE SHOP)**

1. Hazards (Inherent)

   Metal Shop and Wood Shop Equipment
   Most wood and metal shop equipment/hand tools involve high speed rotating or revolving blades or sanding disks that can be dangerous if not used properly. Lifting heavy materials, equipment, and tools can lead to strain injuries. Electric tools cause vibrations, which can also lead to strain on the muscles. Noise from percussive equipment and tools can damage hearing.
Metals and Metal Compounds
Metalworking produces toxic and/or irritating dust and fumes. Welding, heat cutting/bending and brazing produces toxic fumes and radiates UV light. Both electrical and structural soldering produces toxic fumes from flux (hydrochloric acid and phosphors). Solder may contain lead, which is toxic. Corrosion products used in patinas (oxides, carbonates, sulfides, or sulfates) produce toxic fumes and irritating dust.

Metal Casting and Mold Techniques
Metal casting produces toxic fumes. Cast mold techniques (resin bonded sand, traditional investment and ceramic shell) produces fumes and/or irritating dust and generates liquid hazardous waste. Silica sand generates toxic, irritating dust when mixing, and exposure can cause silicosis.

Woodworking Sanding and Cutting
Sanding and cutting wood produces toxic and/or irritating dust. The organic chemicals produced by trees (terpenes, paraffin, fatty acids, phenols, phthalic acid esters, sterols, stilbenes, flavonoids, and cyclic or acyclic tannins) can be toxic if absorbed through the skin, the respiratory tract, or orally. Lumber intended for use in contact with the outdoor elements is chemically treated with additives (fire retardants, pesticides, and preservatives) and produce highly toxic fumes and dust. Plywood and Composition Boards contain wood glues and adhesives (urea-formaldehyde, phenol-formaldehyde resins or urethane plastics) which cause toxic fumes and irritating dust when cutting or sanding.

Spray Paint, Stains, Solvents, Paint Stripper and other Aerosol Sprays
Spray paint, stains, Paint Strippers and other aerosol sprays produce toxic fumes, skin irritants and generates liquid hazardous waste in excess paint and solvents used in cleaning (acetone, mineral spirits).

Epoxy, Natural and Synthetic Polymers, Polyester Resins
Epoxies, resins, glues, plastics/acylics and body fillers produce toxic fumes, skin irritants and generate both toxic and liquid hazardous waste. All of these (including some stones) can contain silica causing toxic fumes when sanded. Some polyester resins, plastics, urethane rubbers, and silicon rubbers are used in mold making and can be even more toxic and irritating to the skin when in liquid form.

Stones, Plaster, Cement and other Dusts, Clays and Powders
Minerals in stone, ceramics, glass, and abrasives (e.g. flint, steatite, dolomite, fluorspar stone, silica, garnet) produces toxic and irritating dust. Plastic is calcium sulfate, which produces toxic, irritating dust when mixing. Cement is a mixture of finely ground lime, alumina, and silica, which produces toxic, irritating dust and skin irritation when mixing. Cement is also highly alkaline and can burn the skin when exposed.

2. Best Practices
- All students must attend an orientation before using the wood and metal shops. During the orientation all shop rules and policies are presented as well as a discussion of the proper and safe use of shop tools.
- If you have never before used a specific tool or machine, please ask an Instructor, Shop Technician, or Graduate Student Assistant for a hands-on demonstration of the equipment. You must demonstrate your ability to properly operate the equipment prior to using it without supervision.
- Work in a well-ventilated area (or outside) while working with any material or practice that produces toxic or irritating fumes or dust (Resins, chemicals, oil-based paints, and solvents may not be mixed indoors).
- Purchase a good half face respirator that fits snug on your face (3M is a good brand)
- Never share your respirator with another peer (exchanging germs can cause illness)
- It's best to get a respirator that has a filter for both vapors and particulates
- Shave facial hair so respirator fits face snug
- When not in use, store respirator in a plastic bag to prolong the longevity of the filters – the filters will continue to work if not properly sealed.
- Change filters often depending on use (see instruction manual of specific respirator)
- ALWAYS clean up all messes produced by any material or practice to prevent from exposing others to the hazards of that material and/or practice.
- Steel-toed boots or metatarsal covers are best for many practices in the sculpture area.
- Shield eyes with approved safety wear. Safety goggles and face shields are most commonly used for many different sculpture methods.
- Wash hands (including under fingernails) after using toxic materials and chemicals (even if you were wearing gloves). Pumice hand cleaners are available in the shop.
- Wear Nitrile gloves and use plastic drop cloth to contain chemicals, paints, and stains when applying.
- Make sure to wear the proper safety gear for each process.
- All spray painting must be done in spray booth and you must put wood, plastic, or cardboard down on the surface that you are spraying on as to prevent any permanent back spray.
- Welding, soldering, and brazing should be done in a well-ventilated area. Never produce metal sparks or fire near the wood shop. All hot metal working needs to be done in the designated area or outside.
- Always use common sense, avoid distractions and concentrate on the task at hand.
- To prevent hearing loss, use proper hearing protection when working with load equipment/tools. Earplugs are available in the shop.
- Sculpture materials can sometimes get messy. Make sure to wear clothes that you are ok with getting dirty or you may want to purchase an apron (note: an apron cannot be used with all materials, it can sometimes be a danger when working with wood shop or metal shop equipment).

4. Area Health & Safety Rules

All users of the studio classrooms are expected to follow studio area rules at all times. If you have any questions, ask your instructor.

- Follow all CVAD Health and Safety handbook guidelines (the handbook should be reviewed by your instructor and can be found here: https://art.unt.edu/healthandsafety
- Follow the CVAD Waste Management Chart in the classroom and other health & safety guidelines posted
- In case of emergency, call campus police at (940)565-3000 or call 911
- File an incident report (forms may be found in the CVAD H&S handbook and in the main office. Turn completed forms into the Studio Art Departmental Office within 48 hours of the event).
- Do not prop classroom doors. Doors are to remain closed to ensure the building HVAC and ventilation work properly.
- No food or drink in the studio.
- Report any safety issues IMMEDIATELY to your instructor or the shop technician.
- Use best practices for material handling. If you have questions about a material, ask an instructor for guidance or check the MSDS sheet.
- Familiarize yourself with the closest eyewash station and first aid kit. Notify your instructor if first aid supplies are low.
- Do not spray any aerosols in any CVAD classroom/studio/doorway or exterior wall/floor. Use the spray booth.
- No eating, consumption of alcohol or smoking is permitted in the studios.
- Wear close-toed shoes only – NO SANDALS!
- Tie up any long hair and remove any loose jewelry or clothing.
- ALWAYS clean up all messes produced by any material or practice to prevent from exposing others to the hazards of that material and/or practice.
- ALWAYS make sure that you are 100% sober and awake! Drugs, smoking and alcohol are not allowed in the studio and anyone under the influence should not attempt to use the facilities.
- Make sure to wear the proper personal protective equipment (PPE) for each process. The proper eye protection, hearing protection, clothing, shoes, and gloves must be worn when using any power tools/
equipment. Earplugs, welding jackets, leathers, face shields, welding helmets and goggles, leather gloves, and Nitrile gloves are available in the shop. Students need to purchase their own dust masks, respirators and safety goggles (do not share – exchanging germs can cause illness).

- Students are prohibited from taking home any UNT property.
- Students are prohibited from storing materials or projects in the wood or metal shops, please use the shelves & lockers provided.
- Do not use stationary equipment to cut painted, recycled or chemically treated lumber.
- Never wear head phones when working with power tools/equipment (you need to hear the machine or other people if something goes wrong).
- Do not block doorways or walkways with materials.
- Do not remove furniture from rooms or borrow furniture from rooms without permission from the area coordinators.
- Do not create “daisy chains” with multiple electric cords.
- Do not block doorways or block access to lights.
- All courses must engage in an end of the semester clean up.
- Put back all tools, safety gear, and extension cords in their designated location.
- Scrap material must be relocated in the designated scrap wood bin or scrap metal bin. Please do not leave any materials out or on the shelves that you do not want. Properly discard any unwanted materials in the trash or the Satellite Waste Management area and properly labeled.
- Do not block doorways or walkways with materials.
- Do not block doorways or block access to lights.
- Do not remove furniture from rooms or borrow furniture from rooms without permission from the area coordinators.
- Do not create “daisy chains” with multiple electric cords.
- Do not block doorways or block access to lights.

There are 3 types of labels used in CVAD.
All containers must have a label identifying the contents at all times.

UNIVERSAL LABELS (while chemical is in use)
All secondary/satellite containers for hazardous materials (or what might be perceived as hazardous -i.e. watered-down gesso, graphite solutions, satellite containers of solvents, powders, spray paints, fixatives, oils, solvents) must be marked with content, your name and the date opened. All unmarked containers will be disposed of with no notice. Labels can be found in the studios. All containers must be marked with your name, contents and date opened.

UNIVERSAL WASTE LABELS (when material is designated as waste)
All containers solely containing a universal waste must have a universal waste label identifying the contents as “Universal Waste - (type of universal waste)” that are designated as waste for proper disposal. The label must also include the date the first item of universal waste entered the container.

HAZARDOUS WASTE LABELS
All hazardous waste containers must have a label identifying the contents as hazardous. Labels should include all constituents in the waste mixture as well as an approximate percentage of the total for that item. All constituents should equal 100%.

ACADEMIC INTEGRITY

According to UNT Policy 18.1.16, Student Academic Integrity, academic dishonesty occurs when students engage in behaviors including, but not limited to cheating, fabrication, facilitating academic dishonesty, forgery, plagiarism, and sabotage. A finding of academic dishonesty may result in a range of academic penalties or sanctions ranging from admonition to expulsion from the University.
DISABILITY ACCOMMODATION

The University of North Texas makes reasonable academic accommodation for students with disabilities. Students seeking reasonable accommodation must first register with the Office of Disability Access (ODA) to verify their eligibility. If a disability is verified, the ODA will provide you with a reasonable accommodation letter to be delivered to faculty to begin a private discussion regarding your specific needs in a course. You may request reasonable accommodations at any time, however, ODA notices of reasonable accommodation should be provided as early as possible in the semester to avoid any delay in implementation. Note that students must obtain a new letter of reasonable accommodation for every semester and must meet with each faculty member prior to implementation in each class. Students are strongly encouraged to deliver letters of reasonable accommodation during faculty office hours or by appointment. Faculty members have the authority to ask students to discuss such letters during their designated office hours to protect the privacy of the student. For additional information, refer to the Office of Disability Access website at http://www.unt.edu/oda. You may also contact ODA by phone at (940) 565-4323.

ACCEPTABLE STUDENT BEHAVIOR

Student behavior that interferes with an instructor's ability to conduct a class or other students' opportunity to learn is unacceptable and disruptive and will not be tolerated in any instructional forum at UNT. Students engaging in unacceptable behavior will be directed to leave the classroom and the instructor may refer the student to the Dean of Students to consider whether the student's conduct violated the Code of Student Conduct. The University's expectations for student conduct apply to all instructional forums, including University and electronic classroom, labs, discussion groups, field trips, etc. The Code of Student Conduct can be found at deanofstudents.unt.edu/conduct.

STUDENT EVALUATION ADMINISTRATION DATES

Student feedback is important and an essential part of participation in this course. The student evaluation of instruction is a requirement for all organized classes at UNT. The survey will be made available during weeks 13 and 14 [insert administration dates] of the long semesters to provide students with an opportunity to evaluate how this course is taught. Students will receive an email from "UNT SPOT Course Evaluations via IASystem Notification" (no-reply@iasystem.org) with the survey link. Students should look for the email in their UNT email inbox. Simply click on the link and complete the survey. Once students complete the survey they will receive a confirmation email that the survey has been submitted. For additional information, please visit the spot website at www.spot.unt.edu or email spot@unt.edu.

INCOMPLETE GRADES

An Incomplete Grade ("I") is a non-punitive grade given only during the last one-fourth of a term/semester and only if a student (1) is passing the course and (2) has a justifiable and documented reason, beyond the control of the student (such as serious illness or military service), for not completing the work on schedule. In consultation with the instructor, complete a request for an Incomplete Grade. This form can be found on the department website and must be turned into the department chair prior to the last day of classes (not the exam date). Note: A grade of Incomplete is not automatically assigned to students.

SEXUAL DISCRIMINATION, HARASSMENT & ASSAULT

UNT is committed to providing an environment free of all forms of discrimination and sexual harassment, including sexual assault, domestic violence, dating violence, and stalking. If you (or someone you know) has experienced or experiences any of these acts of aggression, please know that you are not alone. The federal Title IX law makes it clear that violence and harassment based on sex and gender are Civil Rights offenses. UNT has staff members trained to support you in navigating campus life, accessing health and counseling services, providing academic and housing accommodations, helping with legal protective orders, and
more. UNT’s Dean of Students’ website offers a range of on-campus and off-campus resources to help support survivors, depending on their unique needs: http://deanofstudents.unt.edu/resources_0. UNT’s Student Advocate she can be reached through e-mail at SurvivorAdvocate@unt.edu or by calling the Dean of Students’ office at 940-565-2648. You are not alone. We are here to help.

EMERGENCY NOTIFICATION & PROCEDURES

UNT Emergency Guide: https://emergency.unt.edu/emergency-guidelines-0

UNT uses a system called Eagle Alert to quickly notify students with critical information in the event of an emergency (i.e., severe weather, campus closing, and health and public safety emergencies like chemical spills, fires, or violence). In the event of a university closure, please refer to the course management system for contingency plans for covering course materials.

ADOBE CREATIVE CLOUD

Adobe Creative Cloud is available to students to purchase at a heavily discounted price. The price of a student subscription through our program is $50 (+$5.55 processing fee). The subscriptions will be valid for the full 2021-2022 Academic Year, through August 31st. On or before August 1st, they will have the option to renew their subscription for the same price for the 2022-2023 Academic year. Further details and the option to purchase a subscription are available here: http://www.unt.edu/adobe. This offer is only available to students.

A subscription to Adobe Creative Cloud allows for on and off-campus use of all of the applications: on UNT or personally-owned laptops, as well as on the remote lab computers.

If a student is currently paying for a subscription through Adobe ($239-$359 per year) but would like to take advantage of the lower cost of a subscription through this program: they are eligible to cancel an existing subscription without an early termination fee or further obligation once they have purchased a subscription through our program. They must contact Adobe Customer Care within fourteen days of purchasing this subscription to inform Adobe of their wish to opt-out of an existing subscription in order to have the early termination fees waived. Adobe will not provide a refund, however – only the months left on the current subscription will be canceled. We are not able to process the opt-outs on their behalf. The subscription they would be opting out of is an agreement between the student and Adobe. The subscription through our program would be a new subscription, not an extension of the current subscription.

Adobe Customer Care can be reached by phone at 1-800-833-6687, you may also visit their support website and talk to someone via chat. Please contact us at untadobe@unt.edu if you have any further questions.
