COURSE DESCRIPTION

3 hours. Advanced studies in sculpture with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation. Students will work on developing technical skills, materials and processes appropriate to their concepts as well as aesthetic sensibilities including the use of historic and contemporary references in sculpture and other arts, criticism, expression of personal concepts in works. Prerequisite(s) : Three of the following courses: ASTU 3801, ASTU 3802, ASTU 3803, ASTU 3804. Must have passed sculpture entry review.

COURSE CONTENT & SCHEDULE CHANGES

This course is designed to promote a sense of autonomy, allowing senior sculpture majors to develop a personal art practice, work in the medium and scale of their choice, and set and meet their own goals as an individual. Course content will include research, practice, reflection and presentation. Students will conceive and execute three advanced independent projects, and independently research an artist and a theme that is relevant to their own artwork and interests. The course content will require students to be independently motivated, imaginative, resourceful, and self-disciplined. Students will have access to the full range of Sculpture facilities and equipment, and technical demonstrations will be given by the instructor upon request. The course schedule reflects expected class progress in course subject matter, and is considered tentative. The schedule is subject to change in content and scope at the Instructor’s discretion.

COURSE OUTCOMES & OBJECTIVES

<table>
<thead>
<tr>
<th>Outcomes</th>
<th>Objectives</th>
</tr>
</thead>
<tbody>
<tr>
<td>Knowledge: What students should know</td>
<td>Advanced knowledge of the history and theory of sculpture, including the traditions, conceptual modes, and evolutions of the discipline.</td>
</tr>
<tr>
<td>Understand the history, current issues, and direction of the artistic discipline</td>
<td>Knowledge and skills in the use of professional tools, techniques, and processes to work from concept to finished product. Advanced understanding of the possibilities and limitations of various materials.</td>
</tr>
<tr>
<td>Place works in the historical, cultural, and stylistic contexts of the artistic discipline</td>
<td></td>
</tr>
<tr>
<td>Use the technology and equipment of the artistic discipline</td>
<td></td>
</tr>
<tr>
<td>Skills: What students should be able to do</td>
<td></td>
</tr>
<tr>
<td>Use the elements and principles of art to create artworks in the artistic discipline</td>
<td>Understanding of advanced design principles with an emphasis on three-dimensional design, and the ability to apply these principles to a specific aesthetic intent, including professional abilities in drawing sufficient to support work in interdisciplinary art practices.</td>
</tr>
<tr>
<td>Create artwork that demonstrates perceptual acuity, conceptual understanding, and technical skill</td>
<td>Demonstrated expertise in analyzing and evaluating 3-dimensional artworks.</td>
</tr>
<tr>
<td>Analyze and evaluate works of art in the artistic discipline</td>
<td></td>
</tr>
</tbody>
</table>
COURSE REQUIREMENTS

- Meet and work in class once per week and meet individually with the Instructor bi-weekly.
- Complete three or more exhibition-ready artworks.
- Actively participate in group critiques with your classmates and Instructor.
- Document the artwork you create in this course. Submit 1-3 images/videos of each artwork, along with an image list and an artist statement for each work.
- Participate in a group exhibition at the Cedars Union in Dallas. Attend all required onsite meetings, install/deinstall your work for the exhibition, and submit all required materials in a professional and timely manner.
- Utilize UNT’s library resources to research one artist and one thematic exhibition, and write annotated bibliographies describing those readings and how they are relevant to your own work.
- Give a 15-minute presentation about your research and its relevance to your individual artwork.
- Attend one extracurricular activity (IE the UNT Sculpture trip to Marfa/Big Bend, the Pneuhaus inflatable sculpture workshop, a Platform Lecture at the Greater Denton Arts Council, the Mark Dion lecture at the Amon Carter, Dallas Art Fair, or another pre-approved activity/event).

Requirements for 1st-timers/non-graduating seniors/non-majors: (Group 1)
- Research and present one exhibition, internship, or residency opportunity outside of CVAD.
- Submit a final portfolio that consists of 10-15 images, a resume and a one-page artist statement.

Requirements for 2nd-timers/graduating senior sculpture majors: (Group 2)
- Participate in the Full Circle BFA Exhibition.
- Submit a final portfolio that consists of 15-20 images, a resume and a one-page artist statement.

ASSIGNMENT & ASSESSMENTS

<table>

<td>5 points</td>
</tr>
<tr>
<td>Research/presentation of exhibition or internship opportunity (Group 1) OR Participation in Full Circle BFA Exhibition (Group 2)</td>
<td>5 points</td>
</tr>
<tr>
<td>Project 1 - artwork, documentation and artist statement</td>
<td>20 points</td>
</tr>
<tr>
<td>Project 2 (Cedars Union exhibition) - onsite meetings, artwork, installation/deinstallation, documentation and artist statement</td>
<td>20 points</td>
</tr>
</tbody>
</table>
COURSE SCHEDULE

Week 1:
Monday, January 13  First day of class; Library research day for Annotated Bibliographies
Wednesday, January 15 Show and Tell presentations; Discuss exhibition and internship opportunities; Intro to the work of Christine Sun Kim

Week 2: Syllabus Agreement & Artwork Permission forms due on Canvas (everyone) by Sunday, January 19
Monday, January 20  SCHOOL CLOSED - Martin Luther King, Jr. Day
Wednesday, January 22  ALICIA AWAY - Library research and work day

Week 3: Exhibition/internship opportunity presentations due on Canvas (Group 1) by Sunday, January 26
Monday, January 27  Sign language lessons, Group 2; Presentations about exhibition/internship opportunities (Group 1); Discussion about ISC Award
Wednesday, January 29  Individual meetings with Alicia, Group 1

Week 4: Annotated Bibliography #1 Due on Canvas (everyone) by Sunday, February 2
Monday, February 3  Sign language lessons, Group 1; Discussion about Cedars Union exhibition & trip to Marfa/Big Bend; Intro to work of Mark Dion
Wednesday, February 5  Individual meetings with Alicia, Group 2
** Saturday, February 8: Mark Dion lecture at the Amon Carter at 1pm (reserve a ticket in advance) **

Week 5:
Monday, February 10  Lunch and group discussion with Platform Lecturer Christine Sun Kim;
** Christine Sun Kim’s Platform Lecture at GDAC at 6:30pm **
Wednesday, February 12  Individual meetings with Alicia, on demand

Week 6:
Monday, February 17  Group 1 Critique
Wednesday, February 19  Group 2 Critique
** February 20-23: Group trip to Marfa (leave Thursday, return Sunday night) **

Week 7: Project 1 Artwork Documentation/Statements Due on Canvas (everyone) by Wednesday, February 26
Monday, February 24  Group artwork documentation session
Wednesday, February 26  Individual meetings with Alicia, Group 1
** Friday, February 28: MFA Open Studios**
** Sunday, March 1: ISC Student Award applications due **

Week 8: Annotated Bibliography #2 Due on Canvas (everyone) by Sunday, March 1
Monday, March 2  Discussion about Research Presentations
Wednesday, March 4  Individual meetings with Alicia, Group 2
** MIDTERM GRADES PROVIDED **

Week 9:
SCHOOL CLOSED FOR SPRING BREAK

<table>
<thead>
<tr>
<th>Project 3 - artwork, documentation and artist statement</th>
<th>20 points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Final portfolio of 10-20 images, a resume and one-page artist statement</td>
<td>5 points</td>
</tr>
<tr>
<td>SPOT Course Evaluation (email confirmation)</td>
<td>2 points</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>100 points</strong></td>
</tr>
</tbody>
</table>
Week 10:
Monday, March 16  Discussion about Cedars Union exhibition & work of Joyce Scott
** Joyce Scott Platform lecture at GDAC at 5:30pm **
Wednesday, March 18  Individual meetings with Alicia, Group 2

Week 11:
Monday, March 23  Discussion about Cedars Union exhibition
Wednesday, March 25  Individual meetings with Alicia, Group 1
** Thursday, March 26: Pneuhaus lecture **
** Friday, March 27: Pneuhaus inflatable sculpture workshop **
** Saturday, March 28: Opening of Cedars Union exhibition **

Week 12:
Monday, March 30  Discussion about Cedars Union exhibition & Final Portfolios
Wednesday, April 1  Individual meetings with Alicia, Group 2

Week 13: Project 2 Artwork Documentation/Statements Due on Canvas (everyone) by Sunday, April 5
Monday, April 6  Research Presentations, Group 2
Wednesday, April 8  Individual meetings with Alicia, Group 1

Week 14:
Monday, April 13  Research Presentations, Group 1
Wednesday, April 15  Individual meetings with Alicia, Group 2
** April 16-19: Dallas Art Fair **
** April 18-19: Group 2 installs Full Circle BFA Exhibition **

Week 15: Research Presentations Due on Canvas (everyone) by Sunday, April 19
Monday, April 20  Individual meetings with Alicia, Group 1
** Wednesday, April 22: Group 2 Critique (Full Circle BFA Exhibition) **
** Thursday, April 23: Full Circle opening from 5-7pm **
** Sunday, April 26: Group 2 deinstalls Full Circle exhibition **

Week 16: SPOT Course evaluation confirmation emails due on Canvas (everyone) by Sunday, April 26
Monday, April 27  Group 1 Critique
Wednesday, April 29  Last day of class; Artwork documentation session; Letters to future selves
** Thursday, April 30: Final Portfolios due to Studio Art Dept Canvas (Group 2)**

Finals Week: Project 3 Artwork Documentation/Statements Due on Canvas (everyone) by May 3
Sunday, May 3  Last day to work in the shop and remove all materials
Monday, May 4  Final clean-up (during our final exam period at 10:30am)
** Wednesday, May 6: Final Portfolios due on class Canvas (Group 1);
Proof of Extracurricular Activity due on Canvas (everyone) **
Friday, May 8  Shop Christmas

REQUIRED & OPTIONAL COURSE MATERIALS / TEXTBOOKS

Because the projects and research in this course will mostly be self-motivated, students will not be required to purchase specific materials or textbooks. Students need to source and purchase the materials they require to realize their individual projects.

REQUIRED READINGS

There are no required readings for this course. Students will conduct independently-motivated library research and identify two readings that pertain to their own artwork (one book about an individual artist and one book or scholarly article about a thematic exhibition).
CLASS PARTICIPATION EXPECTATIONS
- Come to class prepared & on time.
- Participate consistently in class discussions and critiques. Think critically. Be honest.
- Respect your peers’ opinions, beliefs, orientations, and histories when discussing their work.
- Challenge your classmates and push each other to do your best.
- Share your skills, experiences, and energy to strengthen the community. Give more than you take.

Students are expected to attend every class. You are responsible for completing all of the required assignments. I expect all students to participate in class discussions, contributing ideas and perspectives on topics or art. All your work should incorporate aspects or issues addressed in class in relation to your personal or professional interests.

You are expected to assist in maintaining a classroom environment that is conducive to learning. In order to assure that everyone has an opportunity to gain from time spent in class, unless otherwise approved by the instructor, you are prohibited from using cellular phones or beepers, checking your email or surfing the internet, updating your social networking sites, eating or drinking in class, making offensive remarks, reading newspapers or magazines, sleeping or engaging in any other form of distraction. Inappropriate behavior in the classroom shall result in, minimally, a request to leave class, which will be counted as an unexcused absence.

ATTENDANCE POLICY
- Regular and punctual attendance is mandatory.
- Three absences will be tolerated.
- More than three absences will require a note from a doctor or a note from the art office excusing the absence for a reason covered under UNT policy 06.039 (Student Attendance and Authorized Absences) in order to be counted as excused.
- More than three absences will lower your final grade by one letter grade per additional absence.
- Most lectures, demonstrations, and assignments will occur at the beginning of class periods and will not be repeated for those who come in late. If you are late to class, you will need to notify me at the end of the class period to replace an absence with a tardy. Three tardies will constitute an absence.
- A tardy is considered to be an arrival of 10-30 minutes after the beginning of class. If you arrive more than 30 minutes after the class begins, you will be marked absent for the day.
- Assignments that are turned in late will receive one letter grade lower per day for each class day they are late.
- Examinations, quizzes, and in-class assignments missed may only be made up with an official doctor’s excuse or note from the art office excusing the absence for a reason covered under UNT policy 06.039 (Student Attendance and Authorized Absences).
- Critiques missed may not be made up and grades will reflect the student’s failure to participate in the critique discussions.

LATE WORK / MAKE-UP POLICY
Late work will receive a penalty of 10% deducted from the assignment’s value per class day the work is late, unless the student provides proof of an acceptable mitigating circumstance: serious illness, death of a family member, or other circumstance if approved by the instructor.

FINAL CLEAN-UP
We will conduct a final clean-up of the sculpture facilities during our scheduled final exam period. Attendance and participation in final clean-up is mandatory. Absence from the final clean-up will result in lowering your final grade by one full letter. If you are unable to attend final clean-up, you must schedule an alternate date and time with your instructor.
GRADING

Grades will be provided regularly through the semester (after assignments are submitted, critique, etc…) and at mid-term. Note: There are no pluses and minuses given at UNT.

A = Excellent (100-90%)
B = Above Average (89-80%)
C = Average (79-70%)
D = Inferior (69-60%) [passing but not necessarily satisfying degree requirements]
F = Failure (59% or below)

ACADEMIC INTEGRITY

According to UNT Policy 18.1.16, Student Academic Integrity, academic dishonesty occurs when students engage in behaviors including, but not limited to cheating, fabrication, facilitating academic dishonesty, forgery, plagiarism, and sabotage. A finding of academic dishonesty may result in a range of academic penalties or sanctions ranging from admonition to expulsion from the University.

DISABILITY ACCOMMODATION

The University of North Texas makes reasonable academic accommodation for students with disabilities. Students seeking reasonable accommodation must first register with the Office of Disability Access (ODA) to verify their eligibility. If a disability is verified, the ODA will provide you with a reasonable accommodation letter to be delivered to faculty to begin a private discussion regarding your specific needs in a course. You may request reasonable accommodations at any time, however, ODA notices of reasonable accommodation should be provided as early as possible in the semester to avoid any delay in implementation. Note that students must obtain a new letter of reasonable accommodation for every semester and must meet with each faculty member prior to implementation in each class. Students are strongly encouraged to deliver letters of reasonable accommodation during faculty office hours or by appointment. Faculty members have the authority to ask students to discuss such letters during their designated office hours to protect the privacy of the student. For additional information, refer to the Office of Disability Access website at http://www.unt.edu/oda. You may also contact ODA by phone at (940) 565-4323.

ACCEPTABLE STUDENT BEHAVIOR

Student behavior that interferes with an instructor’s ability to conduct a class or other students’ opportunity to learn is unacceptable and disruptive and will not be tolerated in any instructional forum at UNT. Students engaging in unacceptable behavior will be directed to leave the classroom and the instructor may refer the student to the Dean of Students to consider whether the student’s conduct violated the Code of Student Conduct. The University’s expectations for student conduct apply to all instructional forums, including University and electronic classroom, labs, discussion groups, field trips, etc. The Code of Student Conduct can be found at deanofstudents.unt.edu/conduct.

STUDENT EVALUATION ADMINISTRATION DATES

Student feedback is important and an essential part of participation in this course. The student evaluation of instruction is a requirement for all organized classes at UNT. The survey will be made available during weeks 13 and 14 [insert administration dates] of the long semesters to provide students with an opportunity to evaluate how this course is taught. Students will receive an email from
UNT SPOT Course Evaluations via IASystem Notification" (no-reply@iasystem.org) with the survey link. Students should look for the email in their UNT email inbox. Simply click on the link and complete the survey. Once students complete the survey they will receive a confirmation email that the survey has been submitted. For additional information, please visit the spot website at www.spot.unt.edu or email spot@unt.edu.

INCOMPLETE GRADES
An Incomplete Grade ("I") is a non-punitive grade given only during the last one-fourth of a term/semester and only if a student (1) is passing the course and (2) has a justifiable and documented reason, beyond the control of the student (such as serious illness or military service), for not completing the work on schedule. In consultation with the instructor, complete a request for an Incomplete Grade. This form can be found on the department website and must be turned into the department chair prior to the last day of classes (not the exam date). Note: A grade of Incomplete is not automatically assigned to students.

SEXUAL DISCRIMINATION, HARASSMENT & ASSAULT
UNT is committed to providing an environment free of all forms of discrimination and sexual harassment, including sexual assault, domestic violence, dating violence, and stalking. If you (or someone you know) has experienced or experiences any of these acts of aggression, please know that you are not alone. The federal Title IX law makes it clear that violence and harassment based on sex and gender are Civil Rights offenses. UNT has staff members trained to support you in navigating campus life, accessing health and counseling services, providing academic and housing accommodations, helping with legal protective orders, and more. UNT’s Dean of Students’ website offers a range of on-campus and off-campus resources to help support survivors, depending on their unique needs: http://deanofstudents.unt.edu/resources_0. UNT’s Student Advocate she can be reached through e-mail at SurvivorAdvocate@unt.edu or by calling the Dean of Students’ office at 940-565-2648. You are not alone. We are here to help.

GENERAL BUILDING HOURS
Monday – Friday: 6:30am – 10pm
Saturday: 8am – 5pm
Sunday: 8am – 10pm

Currently enrolled CVAD students may request UNT identification card, or "swipe," access to the Art Building to gain access to work in the Art Building after regular working hours. Visit this link for more information: https://news.cvad.unt.edu/studentaccess

Art Building extended hours:
Monday–Thursday: Midnight to 11:59pm (24 hours a day)
Friday: Midnight to 10pm (Note: The building is not accessible from Friday @10pm to Saturday @8am)
Saturday: 8am to 11:59pm
Sunday: Midnight to 11:59pm (24 hours a day)

SCULPTURE SHOP ACCESS & POLICIES

Sculpture Shop Hours
Monday - Friday: 8am - 9pm
Saturday: 12pm - 5pm
Sunday: 12pm - 9pm

Access to Sculpture Shop Monday-Thursday, 8am-5pm
- open only to undergraduate students currently enrolled in a sculpture course
- open only to graduate students who are currently enrolled in the graduate sculpture course
- open to all faculty (as long their presence it not disruptive to a class)
- NOT open to students who have purchased shop cards (access after 5pm only)

Access to Shop After 5pm M-T and on Fridays, Saturdays and Sundays
- open to any students currently enrolled in a sculpture course
- open to any students who have purchased a shop card (see below)
- open to all graduate students (even if they are not currently enrolled in the sculpture course)
- open to all faculty

Digital Fabrication Equipment
- reserved for undergraduate and graduate students who are currently enrolled in a sculpture course
  (work must be done while Jeff is working M-F 8am-5pm)
- open to full-time faculty for walk-in appointments only Monday-Friday 8am-5pm
- Full-time faculty can reserve the equipment after 5pm M-F and during shop hours Saturday and Sunday. In order for faculty to use the equipment at night and on weekends, they must attend a training session and know how to operate the software and the machine without supervision. Faculty are required to provide their own router bits for the CNC router, and they must not store their work and the materials in our area (our storage space is already very limited). Faculty must see a tool cage worker to make a reservation on the schedule.

General Shop Card = $50/semester *
This gives an undergraduate student not currently enrolled in a sculpture course access to all facilities that they have been trained on in a previous class (woodworking, welding, etc). These students must have already taken a Beginning Sculpture course. Digital fabrication tools are not included in this package.

*Graduate students not currently enrolled in the graduate sculpture course do not have to pay the $50 fee to get a shop card, but their access is limited to shop card days/hours (after 5pm M-T, and Fridays, Saturdays and Sundays).

*Faculty are not required to have a shop card. They can use their faculty ID to check out tools.

**SCULPTURE AREA FACULTY & STAFF**
Sculpture Area Coordinator & Assistant Professor: Alicia Eggert
Visiting Assistant Professor: Ana Esteve Llorens
Area Technician and Shop Supervisor: Jeff McClung
Sculpture Teaching Fellows: Morgan Grasham, Heather Leigh Hoskins, Jacob Philips

**TOOL CHECK-OUT SYSTEM**
1. Only students that are currently enrolled in a Sculpture course or who have bought a Shop Card are allowed to check out tools from the tool cage. Shop Card holders can only check out tools after 5pm Mon-Thur and on Fridays, Saturdays and Sundays.
2. Tool check-out is for one day (not overnight). Tools must be returned before the shop closes that day. Tools not returned by the time the shop closes and that haven’t been checked out overnight will be will be considered a Shop Rule Violation.
3. Some tools may be checked out overnight but permission must be obtained from the Shop Supervisor or a faculty member. Tools checked out overnight must be returned by 9am the next morning unless permission has been granted in advance by a faculty member or the Shop Supervisor. Please plan accordingly. Tools returned after 9am will be will be considered a Shop Rule Violation.
4. All tools must remain in the building unless you have received advanced permission to take them elsewhere from a faculty member or the Shop Supervisor.
5. Never leave your tools unattended. If you need to leave the area for a short time (for example, to use the restroom), please ask someone in the shop to look after your tools for you. Please check
your tools back in if you need to leave the Sculpture area for more than 10 minutes. Tools found unattended will be checked back in by a Tool Cage Worker, and this will be considered a Shop Rule Violation.

6. You are financially responsible for all the tools you have checked out. If a tool is lost or stolen under your care, you will be charged for its replacement.

7. Report any broken or damaged tools to a Cage Worker or the Shop Supervisor. Tools break all the time, so you won’t be punished if that happens, but we need to know about it so that we do not hand a damaged or broken tool to the next student who needs it.

PROJECT AND MATERIAL STORAGE

1. Projects and materials may be stored in the Sculpture area only if they are labeled with a current Storage Tag. Tags can be acquired from the tool cage.

2. A Storage Tag will permit you to store that item on one of the shelves in the classroom for two weeks. If additional time is needed to store the same item(s), you must receive special permission for a new Storage Tag from a faculty member or the Shop Supervisor.

3. If your Storage Tag expires, a Cage Worker will replace it with a red Removal Tag. At that point you will have one week to remove or renew your belongings. If the item is not removed or renewed by the date on the Removal Tag, it will be put in the dumpster or allocated as scrap material. This will be considered a Shop Rule Violation.

4. Emergency egresses must ALWAYS remain clear. Make sure artworks/materials are not blocking walkways, doorways, etc.

CONSEQUENCES FOR SHOP RULE VIOLATIONS

The following consequences will be faced for health and safety, material storage, and/or tool-check out violations.

1. First violation: Warning from instructor and Shop Supervisor.

2. Second violation: Meeting with course instructor and shop supervisor, and loss of tool checkout privileges for 3 days.

3. Third violation: Meeting with program coordinator, course instructor and shop supervisor, and loss of tool checkout privileges for one week.

4. Fourth violation: Meeting with studio art department chair, and indefinite loss of tool checkout privileges.

HEALTH & SAFETY PROGRAM

Students are required to follow the Department of Studio Art Health and Safety guidelines and are required to complete training for each studio course. The goal of the Studio Art Health and Safety Program is to protect the health and welfare of all faculty, staff, and students and to cooperate with the University of North Texas’ Office of Risk Management. Please visit the website for details and the departmental handbook: https://art.unt.edu/healthandsafety.

HEALTH & SAFETY INFORMATION (SCULPTURE SHOP)

1. Hazards (Inherent)

   Metal Shop and Wood Shop Equipment
   Most wood and metal shop equipment/hand tools involve high speed rotating or revolving blades or sanding disks that can be dangerous if not used properly. Lifting heavy materials, equipment, and tools can lead to strain injuries. Electric tools cause vibrations, which can also lead to strain on the muscles. Noise from percussive equipment and tools can damage hearing.

   Metals and Metal Compounds
Metalworking produces toxic and/or irritating dust and fumes. Welding, heat cutting/bending and brazing produces toxic fumes and radiates UV light. Both electrical and structural soldering produces toxic fumes from flux (hydrochloric acid and phosphors). Solder may contain lead, which is toxic. Corrosion products used in patinas (oxides, carbonates, sulfides, or sulfates) produce toxic fumes and irritating dust.

**Metal Casting and Mold Techniques**
Metal casting produces toxic fumes. Cast mold techniques (resin bonded sand, traditional investment and ceramic shell) produces fumes and/or irritating dust and generates liquid hazardous waste. Silica sand generates toxic, irritating dust when mixing, and exposure can cause silicosis.

**Woodworking Sanding and Cutting**
Sanding and cutting wood produces toxic and/or irritating dust. The organic chemicals produced by trees (terpenes, paraffin, fatty acids, phenols, phthalic acid esters, sterols, stilbenes, flavonoids, and cyclic or acyclic tannins) can be toxic if absorbed through the skin, the respiratory tract, or orally. Lumber intended for use in contact with the outdoor elements is chemically treated with additives (fire retardants, pesticides, and preservatives) and produce highly toxic fumes and dust. Plywood and Composition Boards contain wood glues and adhesives (urea-formaldehyde, phenol-formaldehyde resins or urethane plastics) which cause toxic fumes and irritating dust when cutting or sanding.

**Spray Paint, Stains, Solvents, Paint Stripper and other Aerosol Sprays**
Spray paint, stains, Paint Strippers and other aerosol sprays produce toxic fumes, skin irritants and generates liquid hazardous waste in excess paint and solvents used in cleaning (acetone, mineral spirits).

**Epoxy, Natural and Synthetic Polymers, Polyester Resins**
Epoxies, resins, glues, plastics/acylics and body fillers produce toxic fumes, skin irritants and generate both toxic and liquid hazardous waste. All of these (including some stones) can contain silica causing toxic fumes when sanded. Some polyester resins, plastics, urethane rubbers, and silicon rubbers are used in mold making and can be even more toxic and irritating to the skin when in liquid form.

**Stones, Plaster, Cement and other Dusts, Clays and Powders**
Minerals in stone, ceramics, glass, and abrasives (e.g. flint, steatite, dolomite, fluorspar stone, silica, garnet) produces toxic and irritating dust. Plaster is calcium sulfate, which produces toxic, irritating dust when mixing. Cement is a mixture of finely ground lime, alumina, and silica, which produces toxic, irritating dust and skin irritation when mixing. Cement is also highly alkaline and can burn then skin when exposed.

### 2. Best Practices

- All students must attend an orientation before using the wood and metal shops. During the orientation all shop rules and policies are presented as well as a discussion of the proper and safe use of shop tools.
- If you have never before used a specific tool or machine, please ask an Instructor, Shop Technician, or Graduate Student Assistant for a hands-on demonstration of the equipment. You must demonstrate your ability to properly operate the equipment prior to using it without supervision.
- Work in a well-ventilated area (or outside) while working with any material or practice that produces toxic or irritating fumes or dust (Resins, chemicals, oil-based paints, and solvents may not be mixed indoors).
- Purchase a good half face respirator that fits snug on your face (3M is a good brand)
- Never share your respirator with another peer (exchanging germs can cause illness)
- It’s best to get a respirator that has a filter for both vapors and particulates
- Shave facial hair so respirator fits face snug
- When not in use, store respirator in a plastic bag to prolong the longevity of the filters – the filters will continue to work if not properly sealed.
- Change filters often depending on use (see instruction manual of specific respirator)
- ALWAYS clean up all messes produced by any material or practice to prevent from exposing others to the hazards of that material and/or practice.
- Steel-toed boots or metatarsal covers are best for many practices in the sculpture area.
- Shield eyes with approved safety wear. Safety goggles and face shields are most commonly used for many different sculpture methods.
- Wash hands (including under fingernails) after using toxic materials and chemicals (even if you were wearing gloves). Pumice hand cleaners are available in the shop.
- Wear Nitrile gloves and use plastic drop cloth to contain chemicals, paints, and stains when applying.
- Make sure to wear the proper safety gear for each process.
- All spray painting must be done in spray booth and you must put wood, plastic, or cardboard down on the surface that you are spraying on as to prevent any permanent back spray.
- Welding, soldering, and brazing should be done in a well-ventilated area. Never produce metal sparks or fire near the wood shop. All hot metal working needs to be done in the designated area or outside.
- Always use common sense, avoid distractions and concentrate on the task at hand.
- To prevent hearing loss, use proper hearing protection when working with load equipment/tools. Earplugs are available in the shop.
- Sculpture materials can sometimes get messy. Make sure to wear clothes that you are ok with getting dirty or you may want to purchase an apron (note: an apron cannot be used with all materials, it can sometimes be a danger when working with wood shop or metal shop equipment).

4. Area Health & Safety Rules

All users of the studio classrooms are expected to follow studio area rules at all times. If you have any questions, ask your instructor.

- Follow all CVAD Health and Safety handbook guidelines (the handbook should be reviewed by your instructor and can be found here: https://art.unt.edu/healthandsafety
- Follow the CVAD Waste Management Chart in the classroom and other health & safety guidelines posted
- In case of emergency, call campus police at (940)565-3000 or call 911
- File an incident report (forms may be found in the CVAD H&S handbook and in the main office. Turn completed forms into the Studio Art Departmental Office within 48 hours of the event).
- Do not prop classroom doors. Doors are to remain closed to ensure the building HVAC and ventilation work properly.
- No food or drink in the studio.
- Report any safety issues IMMEDIATELY to your instructor or the shop technician.
- Use best practices for material handling. If you have questions about a material, ask an instructor for guidance or check the MSDS sheet.
- Familiarize yourself with the closest eyewash station and first aid kit. Notify your instructor if first aid supplies are low.
- Do not spray any aerosols in any CVAD classroom/studio/doorway or exterior wall/floor. Use the spray booth.
- No eating, consumption of alcohol or smoking is permitted in the studios.
- Wear close-toed shoes only – NO SANDALS!
- Tie up any long hair and remove any loose jewelry or clothing.
- ALWAYS clean up all messes produced by any material or practice to prevent from exposing others to the hazards of that material and/or practice.
- ALWAYS make sure that you are 100% sober and awake! Drugs, smoking and alcohol are not allowed in the studio and anyone under the influence should not attempt to use the facilities.
- Make sure to wear the proper personal protective equipment (PPE) for each process. The proper eye protection, hearing protection, clothing, shoes, and gloves must be worn when using any power tools/equipment. Earplugs, welding jackets, leathers, face shields, welding helmets and goggles, leather gloves, and Nitrile gloves are available in the shop. Students need to purchase their own dust masks, respirators and safety goggles (do not share – exchanging germs can cause illness).
- Students are prohibited from taking home any UNT property.
- Newspaper or plastic must be used to protect table and floor surfaces from paint, glue, stains and plaster.
- Any trash that does not fit in the trash can must be immediately taken to the dumpster. Broken glass must be packed inside paper and labeled on the outside as broken glass and walked to the dumpster. The trash guidelines are to ensure the safety of anyone encountering the trash. Liquids, medical waste, yard waste, appliances and pallets are prohibited from disposal in the dumpster.
- Students are prohibited from storing materials or projects in the wood or metal shops, please use the shelves & lockers provided.
- Do not use stationary equipment to cut painted, recycled or chemically treated lumber.
- Never wear head phones when working with power tools/equipment (you need to hear the machine or other people if something goes wrong).
- Dust off tools and/or equipment, tables and sweep the floor when finished using any equipment and tools.
- Do not block doorways or walkways with materials.
- Put back all tools, safety gear, and extension cords in their designated location.
- Scrap material must be relocated in the designated scrap wood bin or scrap metal bin. Please do not leave any materials out or on the shelves that you do not want. Properly discard any unwanted materials in the trash or the Satellite Waste Management area and properly labeled.
- No hazardous materials, cement, wax or plaster down the sinks.
- Do not block doorways or block access to lights.
- Do not remove furniture from rooms or borrow furniture from rooms without permission from the area coordinators.
- Do not create “daisy chains” with multiple electric cords.
- No hazardous materials down sinks.
- Store all flammables in the flammable cabinet. Keep flammable cabinet closed at all times.
- All courses must engage in an end of the semester clean up.
- Follow the CVAD CONTAINER POLICY (see below)

There are 3 types of labels used in CVAD.
All containers must have a label identifying the contents at all times.

**UNIVERSAL LABELS** (while chemical is in use)
All secondary/satellite containers for hazardous materials (or what might be perceived as hazardous - i.e. watered-down gesso, graphite solutions, satellite containers of solvents, powders, spray paints, fixatives, oils, solvents) must be marked with content, your name and the date opened. All unmarked containers will be disposed of with no notice. Labels can be found in the studios. All containers must be marked with your name, contents and date opened.

**UNIVERSAL WASTE LABELS** (when material is designated as waste)
All containers solely containing a universal waste must have a universal waste label identifying the contents as “Universal Waste - (type of universal waste)” that are designated as waste for proper disposal. The label must also include the date the first item of universal waste entered the container.
HAZARDOUS WASTE LABELS
All hazardous waste containers must have a label identifying the contents as hazardous. Labels should include all constituents in the waste mixture as well as an approximate percentage of the total for that item. All constituents should equal 100%.

EMERGENCY NOTIFICATION & PROCEDURES
UNT Emergency Guide: https://emergency.unt.edu/emergency-guidelines-0

UNT uses a system called Eagle Alert to quickly notify students with critical information in the event of an emergency (i.e., severe weather, campus closing, and health and public safety emergencies like chemical spills, fires, or violence). In the event of a university closure, please refer to the course management system for contingency plans for covering course materials.
