

Course Title/Number/Section: MEET 4350-Section 001: Heat Transfer Applications

Instructor Information:

Name: Armita Hamidi, PhD

Email: armita.hamidi@unt.edu

Office #: F115U

Office Hours:

Friday: 10 AM to 12:00 PM

Other days/times by appointment. In-person or virtual meetings are available by appointment.

NOTE:

1. If, for unavoidable reasons, I am unable to hold office hours, I will do my best to notify you in advance and arrange an alternative meeting time.
2. If you cannot attend during scheduled times, feel free to email me to arrange an appointment.
3. **Open Door Policy:** If my door is open and I'm not in a meeting, feel free to stop by no appointment needed.
4. Office hours are a great opportunity to ask questions, clarify course material, and seek support. You are strongly encouraged to take advantage of office hours. Come visit me! I'm here to support you and your success is our goal!

TA:

TBD

Catalogue Course Description:

Principles of energy transfer by heat; conduction, free and forced convection, radiation, condensation and boiling heat transfer; combined heat transfer; introduction to heat exchanger; simple numerical techniques and computer applications.

Prerequisite(s): [MEET 3940](#), [MEET 3990](#) all with a grade of C or better.

Course Delivery:

This is a face-to-face course with learning resources and supplemental materials posted on [Canvas](#). Lesson materials will be organized on the Canvas website for the course. You are expected to have access to the lesson handouts during class by either printing the handouts or having them available for modification on your computer/tablet. The handouts only outline the material for a given class and will need to be completed during class for the student to have the relevant information.

Class Schedule:

Tuesdays & Thursdays 9:05 to 10:25 AM in Room: NTDP F187

Texts and Materials:

- **Textbook: Required**
Heat and Mass Transfer: Fundamentals and Applications
Yunus A. Cengel and Afshin J. Ghajar, Mc Graw Hill ; 9780073398198, 0073398195.
- **Technology requirements for courses with digital materials:**

Make sure to have the following items before the first day of class.

- Computer
- Reliable internet access
- Speakers
- Microphone
- Plug-ins
- Microsoft Office Suite
- Canvas Technical Requirements
(<https://clear.unt.edu/supportedtechnologies/canvas/requirements>)
- Calculators

Class Materials for Digital Learning language **must** include the following: This course has digital components. To fully participate in this class, students will need internet access to reference content on the Canvas Learning Management System. If circumstances change, you will be informed of other technical needs to access course content. Information on how to be successful in a digital learning environment can be found at [Learn Anywhere](https://online.unt.edu/learn) (<https://online.unt.edu/learn>).

Make sure you are familiar with Using Canvas, email with attachments, downloading and installing software, spreadsheet programs, presentation and graphics programs.

Technical Assistance:

UIT Help Desk: [UIT Student Help Desk site](http://www.unt.edu/helpdesk/index.htm) (<http://www.unt.edu/helpdesk/index.htm>)

Email: helpdesk@unt.edu

Phone: 940-565-2324

In Person: Sage Hall, Room 130

Walk-In Availability: 8am-9pm

Telephone Availability:

- Sunday: noon-midnight
- Monday-Thursday: 8am-midnight
- Friday: 8am-8pm
- Saturday: 9am-5pm

Laptop Checkout: 8am-7pm

For additional support, visit [Canvas Technical Help](https://community.canvaslms.com/docs/DOC-10554-4212710328) (<https://community.canvaslms.com/docs/DOC-10554-4212710328>)

Use of Artificial Intelligence in this class:

Generative Artificial Intelligence (GenAI) describes tools, such as ChatGPT, Gemini, and GitHub Copilot, that are trained to generate responses to user-defined prompts or questions. Such tools are a major milestone in machine learning and an impressive application of data science in the real world. Their use can be helpful to your learning but cannot be used to demonstrate mastery of any course objectives.

In this course, I want you to engage deeply with the materials and develop your own critical thinking and writing skills. For this reason, the use of Generative AI (GenAI) tools is not permitted. While these tools can be helpful in some contexts, they do not align with our goal of fostering the development of your independent thinking. Using GenAI to complete any part of an assignment, exam, or coursework will be considered a violation of academic integrity, as it prevents the development of your own skills, and will be addressed according to the [Student Academic Integrity policy](https://policy.unt.edu/policy/06-003) (<https://policy.unt.edu/policy/06-003>).

Course Learning Outcomes:

Upon successful completion of this course, students will be able to:

1. Solve steady conduction problems for multilayered and finned geometries.

2. Use thermal circuits method to solve heat transfer problems.
3. Formulate solution to transient heat transfer for geometrical solids.
4. Analyze internal and external forced convection for both laminar and turbulent flows.
5. Understand the basic theory behind radiation heat transfer.
6. Understand the thermal design of a heat exchanger.

Grading Criteria:

Homework	15%
Quiz	15%
Exam 1	20%
Exam 2	20%
Exam 3 (Final exam)	25%
Attendance	5%
Total	100%

Letter Grade Assignment

A $\geq$ 90%; B $\geq$ 80%; C $\geq$ 68%; D $\geq$ 58%; F < 58%

Final numerical grades will be rounded to the nearest whole number. For example, 89.5% will round to 90% while 89.4% will remain 89%. Grades are based on the course requirements and grading criteria stated in the syllabus. Individual requests for additional points, extra credit, or grade adjustments at the end of the semester will not be considered.

Course Expectations:

- **Attendance**

Regular attendance is essential for your success in this course. You are expected to attend every class unless you have a university-excused absence, such as active military service, a religious holy day, or an official university function, as outlined in the [Student Attendance and Authorized Absences Policy \(PDF\)](https://policy.unt.edu/policy/06-039) (<https://policy.unt.edu/policy/06-039>).

Please arrive on time and prepared for each class. Attendance will be recorded. If you must miss class due to an emergency, notify me as soon as possible—preferably before the absence. To receive an excused absence, you must provide satisfactory evidence. Attend the class with full attention and participate in class discussions. Maximizing the benefits of being in class saves you a lot of time in out of class preparations for exams.

- **Grading**

I am interested in your learning and your approach to problems. Therefore, partial credit will be given when you have solved parts of the problem correctly. Showing your work allows us to assess whether you are on the right track.

- **Assignment**

All assignments must be submitted electronically through Canvas in PDF or word format. Submissions are expected to be neat, well-organized, and clearly readable. Work that is difficult to read, poorly formatted, or disorganized may receive a reduced grade regardless of correctness.

If you anticipate needing additional time of up to 48 hours, you must contact the TA and instructor before the assignment due date to request an extension. Extensions are granted at the instructor's

discretion. For the assignments submitted late without prior approval penalty is applied as following:

- 0-24 hours late: 5% deduction from the total possible points.
- 24-48 hours late: 15% deduction from the total possible points.
- 48-72 hours late: 25% deduction from the total possible points.

Late submissions beyond 72 hours are not accepted, except in cases of UNT-approved excused absences in accordance with UNT Policy 06.039.

- **Exams**

Exams are closed-book exams, and you are not allowed to use any electronic devices (including cell phone) other than your computer and calculator. Internet access is not allowed during exams. You will be allowed to make up a missed exam only if you have a documented university excused absence. If you know in advance that you will miss an exam, you **MUST** contact me before the scheduled exam. Make-up exams will not contain the same questions.

- **Academic Integrity**

Every student in my class can improve by doing their own work and trying their hardest with access to appropriate resources. Students who use other people's work without citations will be violating UNT's Academic Integrity Policy. Student Academic Integrity, academic dishonesty occurs when students engage in behaviors including, but not limited to cheating, fabrication, facilitating academic dishonesty, forgery, plagiarism, and sabotage. A finding of academic dishonesty may result in a range of academic penalties or sanctions ranging from admonition to expulsion from the University. Please read and follow this important set of [guidelines for your academic success \(https://policy.unt.edu/policy/06-003\)](https://policy.unt.edu/policy/06-003). If you are concerned about how well you are doing in this course, please come speak with me instead of considering academic misconduct.

- **Communication**

The instructor responds to emails within 48 hours during regular business days (Monday–Friday). Messages sent during evenings, weekends, or university holidays may not receive a response until the next business day. At certain points in the semester, email volume may be high; however, student communication is important. If you do not receive a response within two business days, please feel free to send a brief follow-up message as a gentle reminder.

All private communication will be done through your ASU email address. Check frequently for announcements and course updates. In your emails to faculty, include the course name and section number in your subject line.

- **Professionalism**

Professional engineering standards apply in this class. You are expected to demonstrate a behavior consistent with the conduct of an individual practicing in the engineering profession. You are expected to:

- Come prepared for class
- Respect faculty and peers
- Demonstrate responsibility and accountability for your own actions
- Demonstrate sensitivity and appreciation for diverse cultures, backgrounds, and life experiences
- Offer and accept constructive criticism in a productive manner
- Demonstrate an attitude that fosters professional behavior among peers and faculty

- Be punctual to class meetings
- Maintain a good work ethic and integrity
- Recognize the classroom as a professional workplace

I value the many perspectives students bring to our campus. Please work with me to create a classroom culture of open communication, mutual respect, and belonging. All discussions should be respectful and civil. Although disagreements and debates are encouraged, personal attacks are unacceptable. Together, we can ensure a safe and welcoming classroom for all. If you ever feel like this is not the case, please stop by my office and let me know. We are all learning together.

- **Syllabus Update**

This syllabus is subject to change during the semester with changes to be announced in class and provided on Canvas.

Academic Support & Student Services:

Mental Health

UNT strives to offer a high-quality education in a supportive environment where you can learn, grow, and thrive. As a faculty member, I am committed to supporting you, and I want to remind you that UNT offers a range of mental health and wellness services to help maintain balance and well-being. Utilizing these resources is a proactive way to support your academic and personal success. To explore campus resources designed to support you, check out [mental health services \(https://clear.unt.edu/student-support-services-policies\)](https://clear.unt.edu/student-support-services-policies), visit unt.edu/success, and explore unt.edu/wellness. To get all your enrollment and student financial-related questions answered, go to scrappysays.unt.edu.

UNT Policies:

- **Academic Integrity Policy**

Academic Integrity Standards and Consequences. According to UNT Policy 06.003, Student Academic Integrity, academic dishonesty occurs when students engage in behaviors including, but not limited to cheating, fabrication, facilitating academic dishonesty, forgery, plagiarism, and sabotage. A finding of academic dishonesty may result in a range of academic penalties or sanctions ranging from admonition to expulsion from the University. [Insert specific sanction or academic penalty for specific academic integrity violation.]

- **ADA Policy**

The University of North Texas makes reasonable accommodations for students with disabilities. To request accommodations, you must first register with the Office of Disability Access (ODA) by completing an application for services and providing documentation to verify your eligibility each semester. Once your eligibility is confirmed, you may request your letter of accommodation. ODA will then email your faculty a letter of reasonable accommodation, initiating a private discussion about your specific needs in the course. You can request accommodations at any time, but it's important to provide ODA notice to your faculty as early as possible in the semester to avoid delays in implementation. Keep in mind that you must obtain a new letter of accommodation for each semester and meet with each faculty member before accommodations can be implemented in each class. You are strongly encouraged to meet with faculty regarding your accommodations during office hours or by appointment. Faculty have the authority to ask you to discuss your letter during their designated office hours to protect your privacy. For more information and to access resources that can support your needs, refer to the [Office of Disability Access](https://studentaffairs.unt.edu/office-disability-access) website (<https://studentaffairs.unt.edu/office-disability-access>).

- **Emergency Notification & Procedures**

UNT uses a system called Eagle Alert to quickly notify students with critical information in the event of an emergency (i.e., severe weather, campus closing, and health and public safety emergencies like chemical

spills, fires, or violence). In the event of a university closure, please refer to Blackboard for contingency plans for covering course materials.

- **Retention of Student Records**

Student records pertaining to this course are maintained in a secure location by the instructor of record. All records such as exams, answer sheets (with keys), and written papers submitted during the duration of the course are kept for at least one calendar year after course completion. Course work completed via the Canvas online system, including grading information and comments, is also stored in a safe electronic environment for one year. Students have the right to view their individual record; however, information about student's records will not be divulged to other individuals without proper written consent. Students are encouraged to review the Public Information Policy and the Family Educational Rights and Privacy Act (FERPA) laws and the University's policy. See UNT Policy 10.10, Records Management and Retention for additional information.

- **Acceptable Student Behavior**

Student behavior that interferes with an instructor's ability to conduct a class or other students' opportunity to learn is unacceptable and disruptive and will not be tolerated in any instructional forum at UNT. Students engaging in unacceptable behavior will be directed to leave the classroom and the instructor may refer the student to the Dean of Students to consider whether the student's conduct violated the Code of Student Conduct. The University's expectations for student conduct apply to all instructional forums, including University and electronic classroom, labs, discussion groups, field trips, etc. Visit UNT's Code of Student Conduct (<https://deanofstudents.unt.edu/conduct>) to learn more.

Access to Information - Eagle Connect

Students' access point for business and academic services at UNT is located at: my.unt.edu. All official communication from the University will be delivered to a student's Eagle Connect account. For more information, please visit the website that explains Eagle Connect and how to forward e-mail Eagle Connect (<https://it.unt.edu/eagleconnect>).

- **Student Evaluation Administration Dates**

Student feedback is important and an essential part of participation in this course. The student evaluation of instruction is a requirement for all organized classes at UNT. The survey will be made available during weeks 13, 14 and 15 [insert administration dates] of the long semesters to provide students with an opportunity to evaluate how this course is taught. Students will receive an email from "UNT SPOT Course Evaluations via IASystem Notification" (no-reply@iasystem.org) with the survey link. Students should look for the email in their UNT email inbox. Simply click on the link and complete the survey. Once students complete the survey they will receive a confirmation email that the survey has been submitted. For additional information, please visit the SPOT website (<http://spot.unt.edu/>) or email spot@unt.edu.

- **Sexual Assault Prevention**

UNT is committed to providing a safe learning environment free of all forms of sexual misconduct, including sexual harassment sexual assault, domestic violence, dating violence, and stalking. Federal laws (Title IX and the Violence Against Women Act) and UNT policies prohibit discrimination on the basis of sex, and therefore prohibit sexual misconduct. If you or someone you know is experiencing sexual harassment, relationship violence, stalking, and/or sexual assault, there are campus resources available to provide support and assistance. UNT's Survivor Advocates can assist a student who has been impacted by violence by filing protective orders, completing crime victim's compensation applications, contacting professors for absences related to an assault, working with housing to facilitate a room change where appropriate, and connecting students to other resources available both on and off campus. The Survivor Advocates can be reached at SurvivorAdvocate@unt.edu or by calling the Dean of Students Office at 940-565- 2648. Additionally, alleged sexual misconduct can be non-confidentially reported to the Title IX Coordinator at oeo@unt.edu or at (940) 565 2759.

Tentative Course Schedule:

Week	Date	Lecture Topics	Homework assign date
#1	August 18-20	Introduction and heat transfer mechanisms (Ch 1)	HW #1
#2	August 25-27	Heat conduction: Heat Conduction Equations (Ch2)	HW #2
#3	September 1-3	Heat conduction: Solution to Heat Conduction Equations (Ch2)	
#4	September 8-10	Heat conduction: Thermal Resistance Concept (Ch3) Heat conduction: Fins (Ch3)	HW #3
#5	September 15-17	Heat conduction: Fins (Ch3) Heat conduction: Transient conduction (Ch4)	HW #4
#6	September 22-24	Heat conduction: Transient conduction (Ch4) Exam #1	
#7	September 29-Oct 1	Heat Convection: Fundamentals (Ch6)	HW#6
#8	October 6-8	Heat Convection: External Flow Over flat plate (Ch7)	HW#7
#9	October 13-15	Heat Convection: External Flow Over Cylinders & Spheres (Ch7)	
#10	October 20-22	Heat Convection: Internal Forced Flow (Ch8)	HW#8
#11	October 27-29	Exam #2 Heat exchanger (Ch11)	
#12	November 3-5	Heat exchanger (Ch11)	HW#9
#13	November 10-12	Heat exchanger (Ch11)	
#14	November 17-19	Radiation Heat transfer (Ch12)	HW#10
#15	November 24-26	Thanksgiving Holiday	
#16	December 1-3	Radiation Heat transfer (Ch12)	
#17	December 8-10	Final Exam/ Exam #3	Thursday, December 10
