Through in-depth discussions and design projects, each student will have the opportunity to participate in the design process from first read to final design. With each presentation, we will hone the skills needed to effectively communicate the physical and emotional properties of light.

Digital lighting, LED lighting, automated lighting equipment, Vectorworks Spotlight, Lightwright, and Capture will be part of the hands-on training

## Lighting II

This class will explore the lighting design process from first read of the script to opening. In addition to research techniques, script analysis, and CAD drafting, we will focus on the cueing process and preparing for being in the theatre.

*As Lighting Designers, we will be using both sides of our brains – half of what we do is subjective and creative, and the other half is formulaic and technical. Our goal is to combine these two create effective and original designs that don't burn down the theatre.*

If a disability is verified, the ODA will provide you with an accommodation letter to be delivered to faculty to begin a private discussion regarding your specific needs in a course. You may request accommodations at any time, however, ODA notices of accommodation should be provided as early as possible in the semester to avoid any delay in implementation. Note that students must obtain a new letter of accommodation for every semester and must meet with each faculty member prior to implementation in each class. ### Emergency Notification & Procedures

UNT uses a system called Eagle Alert to quickly notify you with critical information in the event of an emergency (i.e., severe weather, campus closing, and health and public safety emergencies like chemical spills, fires, or violence). The system sends voice messages (and text messages upon permission) to the phones of all active faculty staff, and students. Please make certain to update your phone numbers at <http://www.my.unt.edu>. Some helpful emergency preparedness actions include: 1) know the evacuation routes and severe weather shelter areas in the buildings where your classes are held, 2) determine how you will contact family and friends if phones are temporarily unavailable, and 3) identify where you will go if you need to evacuate the Denton area suddenly. In the event of a university closure, please refer to Blackboard for contingency plans for covering course materials.

### Retention of Student Records

Student records pertaining to this course are maintained in a secure location by the instructor of record. All records such as exams, answer sheets (with keys), and written papers submitted during the duration of the course are kept for at least one calendar year after course completion.
