Course Syllabus
ADTA 5250 – Large Data Visualization
ADTA 5250: Large Data Visualization
Sections: 80, 86, 100, and 126 – Spring 2020

COURSE INFORMATION
- ADTA 5250: Large Data Visualization – Sections 80, 86, 100, and 126 – Spring 2020
- Online Course UNT.Instructure.com

Professor / Instructor Contact Information
- Instructor: Abdulrahman Habib, PhD
- Office Location: UNT New College at Frisco # 145
- Office Hours: Online and face to face by appointment
- Email Address: habib@unt.edu

About the Professor / Instructor

Welcome to ADTA 5250 – Large Data Visualization. My name is Abdulrahman Habib, call me Habib. I have over 15 years of work experience in IT project management. I led projects in Smart City, e-government, e-commerce, and ERP implementation for small and medium businesses. I am passionate about how technology improves people lives and contribute to our society. I have a BS in computer science, MS in Engineering Systems, and a Ph.D. in Information Science. My current research interests include applied research on emerging technologies, innovation, and smart cities applications.

Course Pre-requisites, Co-requisites, and/or Other Restrictions
Required prerequisite courses: none

Materials – Text, Readings, Supplementary Readings
No textbook is required for this course. The following books are listed for suggested reading:

Course Description
This course presents strategies and methods for effective visualization and communication of data analyses. Standard and open source data visualization software packages will be used to develop presentations that convey findings, answer business questions, drive decisions, and provide persuasive evidence supported by data. The course is targeted towards students interested in using visualization to understand data better and improve their analytics work.

Course Objectives
- Provide an overview and brief history of the practice of data visualization
- Introduce students to the key design principles and techniques for visualizing data
- Develop an understanding of the fundamentals of communication and alignment around the concepts that are required for effective data presentation
- Provide an overview and develop competency on the use of several available software tools that can be used for data visualization such as Tableau and Python’s libraries
- Allow for project-based opportunities to identify, understand, analyze, prepare, and present effective visualizations on a variety of topics
- Introduce students to programming for data science with Python
Course Topics

- Introduction to Data Visualization
- Value of Data Visualization
- Data Visualization: Data and Image Models & Properties of Images
- Data Visualization & Exploratory Data Analysis (EDA)
- Multivariate Data Visualization
- Narrative Data Visualization
- Data Visualization: Graphs
- Data Visualization: Colors
- Data Visualization: Design & Best Practices
- Data Visualization Software Applications: Tableau & Python Pandas, Matplotlib
- Introduction to Programming for Data Science with Python

COURSE REQUIREMENTS

1. The student will be responsible for checking Canvas announcements. I recommend you using Canvas mobile application and setup your course notifications to your preferred email. Read more about Canvas: https://community.canvaslms.com/docs/DOC-10701-canvas-student-guide-table-of-contents

2. The student will access and follow all course instructions found in the syllabus, announcements, assignments, and all other class-related documents.

3. The student will complete all the class assignments in the time frame specified in class documents including the course calendar to participate effectively in class activities.

4. The student will complete all the assessment tests and exams – if required – in the time frame specified in the class documents including the course calendar.

5. The student will complete all the projects – if required – in the time frame specified in the class documents including the course calendar.

COMMUNICATIONS

Interaction with Instructor: I look forward to getting to know all of you and working with you. Contact me anytime using my UNT email (habib@unt.edu). I will check messages daily and will make every effort to respond as quickly as possible. If you would like to meet me we can do an
online conference call or we can meet in person at UNT New College in Frisco #109. In both cases please send me and email to schedule the meeting.

My goal is for you to enjoy this course, to learn how to engage in meaningful and useful online course activities, to gain a greater understanding of the topics associated with data visualization, and to help you in any way that I can to be successful.

ASSIGNMENTS, ASSESSMENTS, and PROJECTS

There will be 5 discussions. The student will respond to posted online course discussion questions following the instructions for discussion forums. For each student, he/she should submit his/her initial posts to respond to the discussion questions by the deadline provided on the discussion board. Then he/she should continue by posting responses to his/her classmates’ posts throughout the week to maximize points earned each week. Students are encouraged to enhance the conversation by providing complementary resource materials and properly referenced supplementary items.

There will be five homework assignments throughout the course. Students are required to submit their homework on time.

There will be one midterm take-home assignment. Midterm take-home assignment

There will be a final project.

- The student will complete a final project following the project instructions.
- Students will submit the final project by the deadline.

Make-Up Policy

No make-up assessment tests or exams will be offered except for being approved in advance. Students will be required to provide necessary documentation.

Late-work Policy

All assignments are to be submitted using the UNT email.

The deadline for submitting an assignment is 11:59 PM on the due date. Late submissions can still be submitted up to 24 hours after the deadline. Assignments submitted within 24 hours after the due date/time will be subject to a 25% penalty. No submissions will be accepted later than 24 hours after the deadline.

NOTES: Late work is subject to penalty described above unless previously approved by the instructor.
GRADING POLICY
The student’s grade in the course consists of the following components:

Discussions: 15%
Homework Assignments: 30%
Midterm Assignment: 25%
Final Project: 30%

The final letter grade will be determined as follows:

- A: 90 – 100; B: 80 – 89; C: 65 – 79; D: 50 – 64; F: < 50

The University of North Texas UIT Student Helpdesk provides student technical support in the use of Canvas and supported resources (https://clear.unt.edu/services/lms-support). The student help desk may be reached at:

Email: helpdesk@unt.edu
Phone: 940.565-2324
In Person: Sage Hall, Room 130

Business hours are:
- Monday-Thursday 8am-midnight
- Friday 8am-8pm
- Saturday 9am-5p
- Sunday 8am-midnight

ACCESS & NAVIGATION

Access and Log in Information
This course was developed and will be facilitated utilizing the University of North Texas’ Canvas. To get started with the course, please go to the website at https://canvas.unt.edu.

You will need your EUID and password to log in to the course. If you do not know your EUID or have forgotten your password, please go to the website at http://ams.unt.edu.

TECHNICAL REQUIREMENTS / ASSISTANCE

The following information has been provided to assist you in preparation for the technological aspect of the course.

UIT Help Desk: http://www.unt.edu/helpdesk/index.htm
Web Browser
Word Processor
Creating and submitting files in Microsoft Office, the standard software for this course
Minimum Technical Skills Needed:

- Using the learning management system
- Using email with attachments
- Copying and pasting
- Downloading and installing software
- Using spreadsheet programs

ACADEMIC POLICIES

Scholarly Expectations

All works submitted for credit must be original works created by the scholar uniquely for the class. It is considered inappropriate and unethical, particularly at the graduate level, to make duplicate submissions of a single work for credit in multiple classes, unless specifically requested by the instructor. Work submitted at the graduate level is expected to demonstrate higher-order thinking skills and be of significantly higher quality than work produced at the undergraduate level.

Instructor Responsibilities and Feedback

The instructor is responsible for responding to student questions about assignments and projects, about the course material presented, and for providing additional resources to enhance understanding of course material. Timely feedback is essential for student success and the instructor is responsible for providing timely feedback to students throughout the course. The instructor will actively participate in each week’s discussion forum and will provide feedback to students each week regarding their participation. The instructor will grade submitted assignments and will post grades for students within 10 days of assignment due date.

Class Participation

Students are required to log in regularly to the online class site. Students are also required to participate in all class activities such as discussion boards, chat or conference sessions, and group projects. To learn more about campus resources and information on how you can achieve success, go to succeed.unt.edu

Virtual Classroom Citizenship

The same guidelines that apply to traditional classes should be observed in the virtual classroom environment. Please use proper netiquette when interacting with class members and the professor.

Incompletes

This course will observe the UNT policy on incompletes, found here: http://registrar.unt.edu/grades/incompletes
Policy on Server Unavailability or Other Technical Difficulties
The University is committed to providing a reliable online course system to all users. However, in the event of any unexpected server outage or any unusual technical difficulty which prevents students from completing a time-sensitive assessment activity, the instructor will extend the time windows and provide an appropriate accommodation based on the situation. Students should immediately report any problems to the instructor and also contact the UNT Student Help Desk: helpdesk@unt.edu or 940.565.2324. The instructor and the UNT Student Help Desk will work with the student to resolve any issues at the earliest possible time.

Copyright Notice
Some or all of the materials on this course Web site may be protected by copyright. Federal copyright law prohibits the reproduction, distribution, public performance, or public display of copyrighted materials without the express and written permission of the copyright owner unless fair use or another exemption under copyright law applies. Additional copyright information may be located at http://copyright.unt.edu.

Graduate Online Course Attendance Policy
Students are expected to participate actively each week and to meet all deadlines for course assignments as detailed in the Course Calendar. Information about the University of Texas’ Attendance Policy may be found at http://policy.unt.edu/policy/15-2-5

Administrative Withdrawal
This course will observe the UNT policy on academic withdrawal found here: https://deanofstudents.unt.edu/withdrawals

Syllabus Change Policy
Changes to the course syllabus or due dates are not anticipated but should they be necessary, the instructor will provide ample notification to students to allow them to complete assignments in a timely manner without penalty.

UNT GENERAL POLICIES

Student Conduct and Discipline: Student Handbook.
You are encouraged to become familiar with the University's Policy of Academic dishonesty found in the Student Handbook. The content of the Handbook applies to this course. If you are in doubt regarding the requirements, please consult with me before you complete any requirements of the course.

The UNT Code of Student Conduct can be found here: https://deanofstudents.unt.edu/sites/default/files/code_of_student_conduct.pdf
ADA Policy
The University of North Texas makes reasonable academic accommodation for students with disabilities. Students seeking accommodation must first register with the Office of Disability Accommodation (ODA) to verify their eligibility. If a disability is verified, the ODA will provide you with an accommodation letter to be delivered to faculty to begin a private discussion regarding your specific needs in a course. ... Note that students must obtain a new letter of accommodation for every semester and must meet with each faculty member prior to implementation in each class. Students are strongly encouraged to deliver letters of accommodation during faculty office hours or by appointment. Faculty members have the authority to ask students to discuss such letters during their designated office hours to protect the privacy of the student. For additional information see the Office of Disability Accommodation website at http://disability.unt.edu/. You may also contact them by phone at 940.565.4323.

Add/Drop Policy
The University of North Texas Add Drop Policy for Fall 2017 can be found at the following link: http://registrar.unt.edu/registration/fall-add-drop

Important Notice for F-1 Students taking Distance Education Courses:
Federal Regulation

University of North Texas Compliance
To comply with immigration regulations, an F-1 visa holder within the United States may need to engage in an on-campus experiential component for this course. This component (which must be approved in advance by the instructor) can include activities such as taking an on-campus exam, participating in an on-campus lecture or lab activity, or other on-campus experience integral to the completion of this course. If such an on-campus activity is required, it is the student’s responsibility to do the following:
1. Submit a written request to the instructor for an on-campus experiential component within one week of the start of the course.
2. Ensure that the activity on campus takes place and the instructor documents it in writing with a notice sent to the International Student and Scholar Services Office. ISSS has a form available that you may use for this purpose.
Because the decision may have serious immigration consequences, if an F-1 student is unsure about his or her need to participate in an on-campus experiential component for this course, s/he should contact the UNT International Student and Scholar Services Office (telephone 940-5652195 or email internationaladvising@unt.edu) to get clarification before the one-week deadline.
Class Schedule
The following is a tentative schedule. Should any change become necessary, it will be announced via the Canvas announcement.
