Communication Expectations: This course will use the Canvas learning management system (LMS) to distribute course materials, communicate and collaborate online, post grades, and submit assignments. You are responsible for checking the Canvas course site regularly for class work and announcements. You may find the [Online Communication Tips](https://clear.unt.edu/online-communication-tips) (https://clear.unt.edu/online-communication-tips) helpful. Should you have any questions about the course or material in general, you may attend your instructor's office hours or use your UNT e-mail address to e-mail your instructor directly at the e-mail address listed above **with text CSCE 5560.001/002 and Combined 4560.001/002 in the subject line**. Every attempt will be made to respond to emails within 24 hours. If no reply is received within this time frame, please follow up with your instructor again to ensure a response. ***(Note: The emails will generally be replied to within one day (if not in hours); however, due to unexpected reasons, it may take a bit longer. If you do not receive a response within two days, please email me again.) And please be patient! For the assignments and quizzes, the expected grades will be provided within one-to-two weeks.)***

For assistance with assignments or questions about the grading of a particular assignment, you may also contact the **TA/IA (@unt.edu)** assigned to this course either via email or during their office hours. This information will be available on Canvas.

Grades will be posted on Canvas throughout the semester to provide an ongoing assessment of student progress, but typically about one week after the assignment was due. Grading disputes should first go to the TA who graded your assignment, but if a resolution cannot be reached between the student and the grader, then you should go to the instructor, who will have the final say on the grade.

Welcome to UNT!

As members of the UNT community, we have all made a commitment to be part of an institution that respects and values the identities of the students and employees with whom we interact. UNT does not tolerate identity-based discrimination, harassment, and retaliation. UNT's full Non-Discrimination Policy can be found in the UNT Policies section of the syllabus.

Course Description

This course covers electronic commerce technology, models, and issues, with emphasis on security. Supporting technology such as cryptography, digital signatures, certificates, and public key infrastructure (PKI) is explored in security-conscious programming for web-based applications. Exposure is also given to the interaction between technical issues and business, legal, and ethical issues.

Course Structure

This is an in-person, face-to-face course, where instruction is delivered fully on site, meeting in

We will use homework assignments, projects, and labs to reinforce and apply the main ideas discussed in lectures.

Tentative Class Schedule *(subject to change)*:

Week	<u>Mondays and Wednesdays</u> (CSCE 5560-001, CSCE 4560-004)	note
1	Internet	
2	E-Commerce Overview	Martin Luther King Jr. Holiday , Jan. 19, 2026
3	HTML & CSS	Lab#0 Designing a Secure E-Commerce Client Webpage, Frontend
4	PHP	
5	Databases & XML	Lab#1 Creating a Full-Stack Web Development Environment on Ubuntu
6	Security Landscape & Vulnerabilities & Analysis	
7	Threats & Attacks/Review & Web App Vulnerabilities	
8	Security Design Principles	
9	1st Exam	In class, closed book
10	Spring Break Step-1 of the Project Design Website	No Classes – University closed , March 9-15, 2026
11	Secure Software	Lab#2 Information Gathering and WebGoat Attacks
12	Risk Management & Security Technologies	
13	Security Technologies	Lab#3 Nessus Vulnerability Scanning
14	Development & Deployment Advanced Payment systems, Secure payment systems and Gateways	
15	Project Presentation Step-2 of the project Secure Design Website,	
16	2nd Exam It will be scheduled by the end of the semester, and it will be announced during the semester based on the topics	

Course Objectives

Course outcomes are measurable achievements that students are expected to accomplish upon completing a course. These outcomes are evaluated as part of our ABET accreditation process.

1. Knowledge of and experience with secure web development, with exposure to at least three current technologies (such as XML, Perl, PHP, ASP, JSP, JavaScript, etc.).
2. Knowledge of how cryptography can be used to support confidentiality and integrity of electronic transmissions and transactions.
3. Knowledge of electronic transaction and payment systems.
4. Perform basic network and system security, including the ability to set up a typical electronic commerce setting of networks and hosts.
5. Demonstrate understanding of business, legal, and ethical issues related to electronic commerce, and the interaction of these issues with technical issues.
6. Perform the basic administration of a secure electronic commerce website, including the setup, backup, and restore of a system from a backup.

Course Technology & Skills

Minimum Technology Requirements

Provide a list of the minimum technology requirements for students, such as:

- Computer
- Reliable internet access
- Plug-ins
- Microsoft Office Suite
- [Canvas Technical Requirements](https://clear.unt.edu/supported-technologies/canvas/requirements) (https://clear.unt.edu/supported-technologies/canvas/requirements)

Computer Skills & Digital Literacy

Provide a list of course-specific technical skills learners must have to succeed in the course, such as:

- Using Canvas
- Using email with attachments
- Downloading and installing software
- Using presentation and graphics programs

Technical Assistance

Part of working in the online environment involves dealing with the inconveniences and frustrations that can arise when technology breaks down or does not perform as expected. Here at UNT, we have a Student Help Desk that you can contact for help with Canvas or other technology issues.

UNT IT Help Desk

Email: helpdesk@unt.edu

Live Chat: <https://it.unt.edu/helpdesk/chatsupport>

Phone: 940-565-2324

In Person: Sage Hall, Room 330

Hours and Availability: Visit <https://it.unt.edu/helpdesk> for up-to-date hours and availability

For additional support, visit [Canvas Technical Help](https://community.canvaslms.com/docs/DOC-10554-4212710328) (https://community.canvaslms.com/docs/DOC-10554-4212710328)

Rules of Engagement

Rules of engagement refer to the manner in which students are expected to interact with one another and with their instructors. Here are some general guidelines:

- While the freedom to express yourself is a fundamental human right, any communication that utilizes cruel and derogatory language on the basis of race, color, national origin, religion, sex, sexual orientation, gender identity, gender expression, age, disability, genetic information, veteran status, or any other characteristic protected under applicable federal or state law will not be tolerated.
- Treat your instructor and classmates with respect in any communication online or face-to-face, even when their opinion differs from your own.
- Ask for and use the correct name and pronouns for your instructor and classmates.
- Speak from personal experiences. Use “I” statements to share thoughts and feelings. Try not to speak on behalf of groups or other individuals’ experiences.
- Use your critical thinking skills to challenge other people’s ideas, instead of attacking individuals.
- Avoid using all caps while communicating digitally. This may be interpreted as “YELLING!”
- Be cautious when using humor or sarcasm in emails or discussion posts as tone can be difficult to interpret digitally.
- Avoid using “text-talk” unless explicitly permitted by your instructor.
- Proofread and fact-check your sources.
- Keep in mind that online posts can be permanent, so think first before you type.

See these [Engagement Guidelines](https://clear.unt.edu/online-communication-tips) (https://clear.unt.edu/online-communication-tips) for more information.

Course Requirements

In-Class Activities with Attendance:

These grades will be based on in-class assignments or short quizzes, which may be given at any time during class. To receive credit, students must be present when the activity is assigned and must complete it within the allotted time.

In-class activities may be conducted on paper or through iClicker Cloud and/or Canvas. Therefore, students are expected to attend class regularly, register with iClicker Cloud, and bring a device (such as a smartphone, tablet, or laptop) for polling and participation. These activities will also be used to track attendance.

Quizzes:

There will be approximately six quizzes during the semester. All quizzes will be administered through the **Canvas LockDown Browser**. Quizzes may be given at the beginning or at the end of class without prior notice. They will be based primarily on previous lecture notes and recent topics, usually covering material from the past two weeks.

Homework:

Homework will be assigned based on material from the lectures and may include some minor programming or scripting-related projects assigned to demonstrate mastery of the lecture material and covered technologies. These assignments are meant to be individual assignments, so you should work on these without the assistance of others or solutions available on the Internet.

Lab Assignments:

Students will complete several in-depth, hands-on laboratory projects during the semester, designed to provide a more comprehensive understanding of advanced e-commerce security.

1st Exam:

There will be one or two in-person midterm examinations given on this course. The date of this exam will be posted on Canvas and announced in class at least one week prior to the date of the exam (**NO** make-up exam will be given). When a student misses an exam due to an excused absence, the final exam will be considered a midterm exam. Unexcused absences on the date of an exam may result in a grade of 0 for the missed exam, so every effort should be made to attend class on the day of a scheduled exam.

Final Project Overview and Requirements:

There will be a final project in this course. Students will form groups of **up to 4 students** to research, discuss, and work on topics related to **Secure e-commerce**. Each group will choose a topic of interest within this area and will be responsible for investigating, designing, and implementing a secure e-commerce solution or Website.

Students are required to form teams and begin working on their project early in the semester. Each team must submit a **Final Project Proposal** after the team is formed and initial project work has started.

By the end of the semester, each team must submit the following:

1. A **project presentation** (as instructed).
2. A **PowerPoint (PPT) presentation** summarizing the project and demonstrating the implemented security tests and security structures.
3. There will be **two project progress checkpoints** during the semester. Teams must present their progress at each checkpoint, and grades will be assigned based on demonstrated progress.
4. A **URL link** to the live, deployed **Secure E-Commerce website**.
5. The complete **project source code** is published on **GitHub or GitLab**.

All submitted materials must be accessible and properly documented.

2nd Exam:

A 2nd exam will be administered at the end of the semester. I will announce it during the semester via Canvas announcements. All students are expected to take the final exam during the scheduled period.

Grading (Tentative):

- **In-Class activities, quizzes, Homework assignments, attendance, and Lab exercises** **40%**
- **Final term Projects and Project Demo and other requirements** **20%**
- **1st exam** **20%**
- **2nd exam** **20%**

Grading scale

Final Grade	Letter
89.5 - 100	A
79.5 - 89.49	B
69.5 –79.49	C
59.5 –69.49	D
< 59.49	F
Grades are rounded to the nearest whole integer.	

Grades will be posted on Canvas throughout the semester to provide an ongoing assessment of student progress, though the final assessment will be measured using the weighted average above. *Once a grade is posted on Canvas, students have two (2) weeks to dispute the grade, unless otherwise instructed.* The proper channel for resolving grade disputes is to first approach the original grader (i.e., the TA/IA) to resolve the issue. If, however, a resolution cannot be reached between the student and the grader, the student shall then go to the instructor, who will have the final say on the grade.

Students are responsible for submitting the *correct* assignments (i.e., uploading the proper files) for each applicable assignment submission on Canvas. In certain cases, when an assignment is submitted on time, but to an incorrect assignment location (e.g., submitting *Lab 04* to the *Lab 05* drop box on Canvas), the assignment may be assessed as a 30% reduction penalty if the due date has passed. If you have any questions or concerns about your submission, please work with your instructor or TA/IA to ensure the correct file(s) is/are submitted.

Attendance

Students are expected to attend class meetings regularly and adhere to the attendance policy established for the course. It is important that you communicate with the professor and the instructional team prior to being absent, so you, the professor, and the instructional team can discuss and mitigate the impact of the absence on your attainment of course learning goals. Please inform the professor, instructional team, and Deans of Students if you are unable to attend class meetings due to illness, taking into account the health and safety of everyone in our community.

If you are experiencing any [symptoms of COVID-19](https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html) (<https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html>) please seek medical attention from the Student Health and Wellness Center (940-565-2333 or askSHWC@unt.edu) or your health care provider PRIOR to coming to campus. UNT also requires you to contact the UNT COVID Team at COVID@unt.edu for guidance on actions to take due to symptoms, pending or positive test results, or potential exposure.

Lecture Section:

Class attendance is regarded as both an obligation and a privilege. All students are therefore expected to attend each class meeting. A student who misses class is still responsible for finding out what was discussed and to learn the material that was covered and obtaining the homework that was assigned on the missed day. The instructor is not responsible for re-teaching material missed by a student who did not attend class. Therefore, each student is accountable for and will be evaluated on all material covered in this course, regardless of attendance. If there are extenuating circumstances preventing you from attending the class, please notify your instructor so that you can work together to ensure your success in learning the material.

Late Work

No late work will be accepted for in-class assignments. Homework and laboratory assignments, however, will be accepted up to 24 hours late and will be assessed a 30% grade reduction penalty. Homework or lab assignments submitted more than 24 hours late will not be accepted and will receive a grade of 0.

Examination Policy

The 1st exam will be closed-notes and will be completed in-person in the lecture classroom at the announced date.

The 2nd exam will be closed-notes and will be given in-person during the scheduled exam time in Week 15 or 16 (date to be announced on Canvas) in the usual classroom.

A makeup exam will be given at the instructor's discretion when a student misses an exam due to a documented excused absence.

Assignment Policy

The University is committed to providing a reliable online course system to all users. However, in the event of any unexpected server outage or any unusual technical difficulty that prevents students from completing a time-sensitive assessment activity, the instructor will extend the time windows and provide appropriate accommodation based on the situation. Students should immediately report any problems to the instructor and contact the UNT Student Help Desk at helpdesk@unt.edu or 940.565.2324 to obtain a ticket number. The instructor and the UNT Student Help Desk will work with the students to resolve any issues as soon as possible.

All assignments will be posted to Canvas with the given due dates. Submissions will be made using Canvas to the appropriate assignment drop box by the due date and time. A sophisticated program will be used to compare your assignment submission to the work of all other students (including students in past classes).

Instructor Responsibilities and Feedback

Your instructor is committed to providing a quality course that includes clear instructions for projects and

assignments, as well as an appropriate amount of time to complete the assignments. Questions about an assignment may be addressed to the instructor or the TAs supporting this course. Study guides for exams will be made available to students in advance of the exam.

Every attempt will be made to respond to emails within 24 hours. If you do not receive a response by that time, please resend the e-mail and verify that you have sent it to my correct e-mail address: Ali.Zarafshani@unt.edu. It is my hope that grades will be returned to students approximately one week after the due date. However, please keep in mind that this course has several students with limited grading resources who are also students themselves. I appreciate your patience if we run behind in returning the graded assignments.

Syllabus Change Policy

This syllabus may be modified as the course progresses, should the instructor deem it necessary. Notice of changes to the syllabus shall be made through Canvas and/or class announcement.

UNT Policies

Academic Integrity Policy

Academic Integrity Standards and Consequences. According to UNT Policy 06.003, Student Academic Integrity, academic dishonesty occurs when students engage in behaviors including, but not limited to cheating, fabrication, facilitating academic dishonesty, forgery, plagiarism, and sabotage. A finding of academic dishonesty may result in a range of academic penalties or sanctions ranging from admonition to expulsion from the University.

This course follows UNT's policy for *Student Academic Integrity*, which can be found at <https://policy.unt.edu/policy/06-003>, as well as the *Cheating Policy* for the Department of Computer Science and Engineering (posted on Canvas). Specifically, the first instance of a student found to have violated the academic integrity policy (i.e., cheating) may result in a grade of "F" for the course and a report filed in the Academic Integrity Database, which may include additional sanctions.

Individual assignments, such as homework and lab assignments, must be the sole work of the individual student. You should not work with other students on shared program solutions or use program solutions found on the Internet. Specifically, you should never copy someone else's solution or code, and never let a classmate examine your code. For example, copying and pasting an answer to a homework question from a past student or an online forum is considered plagiarism. A sophisticated program will be used to compare your work to the work of all other students (including students in past classes). If you are having trouble with an assignment, please consult with your instructor or TA/IA associated with the class.

Discussion with other students on homework and lab assignments is acceptable at a high level only (i.e., do not share student work or code), but solutions must be your own and written in your own words. And although you may seek assistance from your instructor or TA/IA, you are still required to work on your own lab assignment and turn in your individual work to Canvas, unless directed otherwise.

You must do your own work on exams. There should be no ambiguity here.

If the above description and in-class discussion of appropriate and inappropriate collaboration do not address all your questions, please consult with your instructor and review the university's Student Rights and Responsibilities web page.

ADA Policy

UNT makes reasonable academic accommodation for students with disabilities. Students seeking
University of North Texas | updated 01/08/2026 | 9

accommodation must first register with the Office of Disability Accommodation (ODA) to verify their eligibility. If a disability is verified, the ODA will provide a student with an accommodation letter to be delivered to faculty, initiating a private discussion regarding the student's specific course needs. Students may request accommodation at any time; however, ODA notices of accommodation should be provided as early as possible in the semester to avoid any delays in implementation. Note that students must obtain a new letter of accommodation for every semester and must meet with each faculty member prior to implementation in each class. For additional information, see the [ODA website \(https://disability.unt.edu/\)](https://disability.unt.edu/).

Prohibition of Discrimination, Harassment, and Retaliation (Policy 16.004)

The University of North Texas (UNT) prohibits discrimination and harassment because of race, color, national origin, religion, sex, sexual orientation, gender identity, gender expression, age, disability, genetic information, veteran status, or any other characteristic protected under applicable federal or state law in its application and admission processes; educational programs and activities; employment policies, procedures, and processes; and university facilities. The University takes active measures to prevent such conduct and investigates and takes remedial action when appropriate.

Emergency Notification & Procedures

UNT uses a system called Eagle Alert to quickly notify students with critical information in the event of an emergency (i.e., severe weather, campus closing, and health and public safety emergencies like chemical spills, fires, or violence). In the event of a university closure, please refer to Canvas for contingency plans for covering course materials.

Retention of Student Records

Student records pertaining to this course are maintained in a secure location by the instructor of record. All records, including exams, answer sheets (with keys), and written papers submitted during the course, are retained for at least one calendar year after course completion. Coursework completed via the Canvas online system, including grading information and comments, is also stored in a safe electronic environment for one year. Students have the right to view their individual records; however, information about students' records will not be divulged to other individuals without proper written consent. Students are encouraged to review the Public Information Policy, the Family Educational Rights and Privacy Act (FERPA) laws, and the University's policy. Refer to UNT Policy 10.10, Records Management and Retention, for further details.

Acceptable Student Behavior

Student behavior that interferes with an instructor's ability to conduct a class or other students' opportunity to learn is unacceptable and disruptive and will not be tolerated in any instructional forum at UNT. Students engaging in unacceptable behavior will be directed to leave the classroom, and the instructor may refer the student to the Dean of Students for consideration of whether the student's conduct has violated the Code of Student Conduct. The University's expectations for students' conduct apply to all instructional forums, including University and electronic classrooms, labs, discussion groups, field trips, etc. Visit UNT's [Code of Student Conduct \(https://deanofstudents.unt.edu/conduct\)](https://deanofstudents.unt.edu/conduct) to learn more.

Access to Information - Eagle Connect

Students' access point for business and academic services at UNT is located at: my.unt.edu. All official communication from the University will be delivered to a student's Eagle Connect account. For more information, please visit the website that explains Eagle Connect and how to forward e-mail [Eagle Connect](https://it.unt.edu/eagleconnect) (<https://it.unt.edu/eagleconnect>).

Survivor Advocacy

UNT is committed to providing a safe learning environment free of all forms of sexual misconduct. Federal laws and UNT policies prohibit discrimination based on sex as well as sexual misconduct. If you or someone you know is experiencing sexual harassment, relationship violence, stalking, and/or sexual assault, there are campus resources available to provide support and assistance. The Survivor Advocates can be reached at SurvivorAdvocate@unt.edu or by calling the Dean of Students Office at 940-5652648.

Student Verification

UNT takes measures to protect the integrity of educational credentials awarded to students enrolled in distance education courses by verifying student identity, protecting student privacy, and notifying students of any special meeting times/locations or additional charges associated with student identity verification in distance education courses.

See [UNT Policy 07-002 Student Identity Verification, Privacy, and Notification and Distance Education Courses](https://policy.unt.edu/policy/07-002) (<https://policy.unt.edu/policy/07-002>).

Class Recordings & Student Likenesses

Synchronous (live) sessions in this course may be recorded throughout the semester. Class recordings are the intellectual property of the university or instructor and are reserved for use only by students in this class and only for educational purposes. Students may not post or share the recordings outside the class or outside the Canvas Learning Management System in any form. Failing to follow this restriction constitutes a violation of the UNT Code of Student Conduct and may result in disciplinary action.

Academic Support & Student Services

Student Support Services

Mental Health

UNT provides mental health resources to students to ensure there are numerous outlets to turn to that wholeheartedly care for and support students in need, regardless of the nature or severity of the issue. Listed below are several resources on campus that can support your academic success and mental well-being:

- [Student Health and Wellness Center](https://studentaffairs.unt.edu/student-health-and-wellness-center) (<https://studentaffairs.unt.edu/student-health-and-wellness-center>)
- [Counseling and Testing Services](https://studentaffairs.unt.edu/counseling-and-testing-services) (<https://studentaffairs.unt.edu/counseling-and-testing-services>)
- [UNT Care Team](https://studentaffairs.unt.edu/care) (<https://studentaffairs.unt.edu/care>)
- [UNT Psychiatric Services](https://studentaffairs.unt.edu/student-health-and-wellness-center/services/psychiatry) (<https://studentaffairs.unt.edu/student-health-and-wellness-center/services/psychiatry>)
- [Individual Counseling](https://studentaffairs.unt.edu/counseling-and-testing-services/services/individual-counseling) (<https://studentaffairs.unt.edu/counseling-and-testing-services/services/individual-counseling>)

Chosen Names

A chosen name is a name that a person goes by that may or may not match their legal name. If you have a chosen name that differs from your legal name and would like it to be used in class, please notify the instructor. Below is a list of resources for updating your chosen name at UNT.

- [UNT Records](#)
- [UNT ID Card](#)
- [UNT Email Address](#)
- [Legal Name](#)

**UNT eUIDs cannot be changed at this time. The collaborating offices are working on a process to make this option accessible to UNT community members.*
