

FALL 2026 MATH 1680.360 – Elementary Probability and Statistics

Instructor Information

Name: Ben Schwaighofer (Professor S)

Pronouns: He/him/his

Office Location: GAB 470C

Student Support Hours: M 1:30-3:30, T 3-5, and EMS Lab W 3-5

Email: Benjamin.schwaighofer@unt.edu

Hello! My name is Ben Schwaighofer (but that's a mouthful, so you can call me Professor S), pronouns he/him/his. I've been at UNT since 2010 as a graduate student, then as adjunct faculty, and now a lecturer - I may not have tenure, but I have more than ten-years! I love awful puns, so be warned. I have a bachelor's from Angelo State University and a master's from here at UNT, both in mathematics, and it's my goal to be an excellent teacher for as long as I can keep doing this.

How to Communicate with Your Instructor

I encourage you to reach out to me if you have questions, need help, or just to let me know if something happens that will affect your engagement with the class. It is not a bother, and I would much rather hear from you early and often than for you to be struggling alone. There are two primary ways to contact me:

- **Canvas:** Send me a message using the [Canvas](#) Inbox.
- **Email:** Send me an email with "MATH 1680.360" in the subject line. *To protect your privacy, questions about your academic performance must be sent from your [UNT email account](#).*

You may expect a response within two business days. If you do not hear from me within that timeframe, feel free to send a reminder.

Student Support Hours

Student support hours are for you to come by and get help or ask questions, no appointment necessary. They are in the General Academic Building, GAB 470C. The numbering can be weird, but if you go to the north-west corner of the 4th floor, closest to Avenue C, you'll find the glass door to GAB 470 almost right across from the stairs. You'll find me on the right of that room.

You can come by any time during the posted hours. You can also Zoom with me then, but I will need advance notice to pull up Zoom for a meeting, 24 hours if possible. You can use this time to ask questions about anything related to the class or your academics, or get help with homework or studying. I can also meet with you in person or by Zoom outside of these hours, subject to my schedule, just email me to set it up.

I will also spend 2 hours per week in the Early Math Support (EMS) lab, in Sage 120A, from 3-5 PM on Wednesdays. This lab is specifically for help with homework or review questions, and you're welcome to come do your homework there regularly. It is open Monday through Thursday 11:15 AM to 5 PM, and there should always be faculty available to help with this class.

Course Description

Introductory course to serve [students of any field who want to apply statistical inference](#). Descriptive statistics, elementary probability, estimation, hypothesis testing and small samples. **Prerequisites:** Placement by the Math Placement Center.

This is a 15-week, face-to-face course that will cover most of the material in Chapter 1-11. There will be three exams covering approximately three chapters each, plus a comprehensive final exam. There is also a required corequisite course (UGMT 1300) that meets for two hours per week.

Learning Objectives

By the end of the course, students will be able to:

- Describe the process of conducting a statistical study
- Determine whether a study is observational or experimental and identify appropriate use cases
- Understand confounding
- Recognize different types of data such as qualitative, quantitative, discrete, continuous, and correctly identify the level of measurement
- Understand the pros and cons of different sampling methods
- Explain sources of bias
- Summarize and present data accurately using tables, graphs, and charts
- Calculate appropriate measures of center and dispersion
- Describe distribution shapes
- Standardize data using z-scores
- Recognize linear relationships between two variables
- Make accurate predictions using linear regression
- Calculate the probability of simple and compound events
- Understand disjoint and independent events
- Construct and interpret contingency tables
- Understand discrete and continuous random variables
- Identify the parameters of binomial random variables and compute probabilities, expected value, and standard deviation
- Compute probabilities using uniform and normal random variables
- Understand sampling distributions and the Central Limit Theorem
- Construct confidence intervals for population means and proportions
- Test hypotheses involving population means and proportions
- Distinguish between Type I and Type II errors

Required Materials

This course has digital components. To fully participate in this class, students will need internet access to reference content on the [Canvas Learning Management System](https://clear.unt.edu/supported-technologies/canvas/requirements) (<https://clear.unt.edu/supported-technologies/canvas/requirements>). Students will also need:

- [Knewton Alta - 1 Term Access ELECTRONIC PRODUCT by Knewton](#). Instead of a traditional textbook, the course material is contained in adaptive online assignments. Students must create a

Knewton account as soon as possible in order to complete the first homework assignment. *Students will need to finalize their purchase before the end of the 14-day courtesy access period.*

- [Microsoft Office 365](https://it.unt.edu/installoffice365) (<https://it.unt.edu/installoffice365>)
- A laptop or mobile device (such as a tablet or smartphone) that is compatible with iClicker
- Fill-in-the-blank notes (available on Canvas)

I also recommend that you bring a scientific or graphing calculator to both lecture and lab. *You may use Desmos and Microsoft Excel, but not smartphones, during exams.* If circumstances change, you will be informed of other technical needs to access course content. Information on how to be successful in a digital learning environment can be found at [Learn Anywhere](https://online.unt.edu/learn) (<https://online.unt.edu/learn>).

How to Succeed in this Course

At the beginning of the semester:

- Read this syllabus in detail 😊
- Familiarize yourself with the Canvas course
- Activate Knewton Alta by clicking on the first homework assignment
- Create an iClicker account with your UNT email

Before each class:

- Print/download the fill-in-the blank notes
- Prepare to take notes on the material discussed in class

During class:

- Arrive on time, and remain until the end of the class session
- Log into iClicker and keep it ready for activities
- Take notes on the material discussed in class
 - Highlight concepts that you think are important or don't understand
 - Write down questions that you would like to ask
 - Add comments to clarify possible misunderstandings

After class:

- Complete the iClicker exit poll
- Ask me any remaining questions you might have
- Review your notes, filling any gaps based on what you remember from lecture
- Start working on the appropriate Knewton Alta assignments

UNT strives to offer you a high-quality education and a supportive environment, so you learn and grow. As a faculty member, I am committed to helping you be successful as a student. To learn more about campus resources and information on how you can be successful at UNT, go to unt.edu/success and explore unt.edu/wellness. To get all your enrollment and student financial-related questions answered, go to scrappysays.unt.edu.

There are many academic resources available to help you succeed in this course:

- MATH 1680 Online Helpdesk (Schedule will be posted on Canvas.)
- [Math Lab](https://cos.unt.edu/math/undergraduate/math-lab.html) (https://cos.unt.edu/math/undergraduate/math-lab.html)
 - Get help with homework in a quiet environment.
- [UNT Learning Center](https://learningcenter.unt.edu/) (https://learningcenter.unt.edu/)
 - [Tutoring](https://learningcenter.unt.edu/tutoring) (https://learningcenter.unt.edu/tutoring)
 - Request free one-on-one tutoring.
- [Navigate's Study Buddy](https://navigate.unt.edu) (https://navigate.unt.edu)
 - Study with a classmate.
- [Early Math Support Lab](https://math.unt.edu/undergraduate/ems-lab.html) (https://math.unt.edu/undergraduate/ems-lab.html)
 - Get help with homework assignments from experienced faculty
 - Sage 120A, Monday through Thursday

ADA Accommodation Statement

The University of North Texas makes reasonable academic accommodation for students with disabilities. Students seeking reasonable accommodation must first register with the [Office of Disability Access](https://studentaffairs.unt.edu/office-disability-access) (ODA) to verify their eligibility. If a disability is verified, the ODA will provide you with a reasonable accommodation letter to be delivered to faculty to begin a private discussion regarding your specific needs in a course. You may request reasonable accommodations at any time; however, ODA notices of reasonable accommodation should be provided as early as possible in the semester to avoid any delay in implementation. Note that students must obtain a new letter of reasonable accommodation for every semester and must meet with each faculty member prior to implementation in each class. Students are strongly encouraged to deliver letters of reasonable accommodation during faculty office hours or by appointment. Faculty members have the authority to ask students to discuss such letters during their designated office hours to protect the privacy of the student. For additional information, refer to the [Office of Disability Access](https://studentaffairs.unt.edu/office-disability-access) website (https://studentaffairs.unt.edu/office-disability-access). You may also contact ODA by phone at (940) 565-4323.

Creating an Inclusive Learning Environment

I value the many perspectives students bring to our campus. Please work with me to create a classroom culture of open communication, mutual respect, and belonging. All discussions should be respectful and civil. Although disagreements and debates are encouraged, personal attacks are unacceptable. Together, we can ensure a safe and welcoming classroom for all. If you ever feel like this is not the case, please stop by my office and let me know. We are all learning together.

Course Schedule

Date		TR	Lab
8/17/2026	Mon		Lab 1-Census & Helicopter Experiment
8/18/2026	Tue	Syllabus, 1.1, 1.2	
8/19/2026	Wed		
8/20/2026	Thu	1.3-1.4, 1.5	
8/21/2026	Fri		
8/22/2026	Sat		
8/23/2026	Sun	HW 1.1-1.5	

8/24/2026	Mon		Lab 2-Designing a Statistical Study
8/25/2026	Tue	2.1, 2.2, 2.3	
8/26/2026	Wed		
8/27/2026	Thu	2.5, 2.6	
8/28/2026	Fri		
8/29/2026	Sat		
8/30/2026	Sun	HW 2.1-2.3, 2.5-2.6	
8/31/2026	Mon		Lab 3-Graphic Displays of Data
9/1/2026	Tue	3.1, 3.2	
9/2/2026	Wed		
9/3/2026	Thu	3.3, 3.4	
9/4/2026	Fri		
9/5/2026	Sat		
9/6/2026	Sun	HW 3.1-3.3	
9/7/2026	Mon	Labor day	Labor day
9/8/2026	Tue	3.5, 3.8, 3.10	
9/9/2026	Wed		
9/10/2026	Thu	4.1, 4.2	
9/11/2026	Fri		
9/12/2026	Sat		
9/13/2026	Sun	HW 3.4-3.5, 3.8, 3.10	
9/14/2026	Mon		Lab 4-Measures of Center and Position
9/15/2026	Tue	4.3, 4.5	
9/16/2026	Wed		
9/17/2026	Thu	Exam 1 Review	
9/18/2026	Fri		
9/19/2026	Sat		
9/20/2026	Sun		
9/21/2026	Mon		Lab 5-Measures of Dispersion
9/22/2026	Tue	Exam 1	
9/23/2026	Wed		
9/24/2026	Thu	4.7, 5.1	
9/25/2026	Fri		
9/26/2026	Sat		
9/27/2026	Sun	HW 4.1-4.3, 4.5, 4.7	
9/28/2026	Mon		Lab 6-Correlation and Regression
9/29/2026	Tue	5.2, 5.3	
9/30/2026	Wed		
10/1/2026	Thu	5.5	
10/2/2026	Fri		

10/3/2026	Sat		
10/4/2026	Sun	HW 5.1-5.3, 5.5	
10/5/2026	Mon		Lab 7-Probability
10/6/2026	Tue	5.6, 6.1	
10/7/2026	Wed		
10/8/2026	Thu	6.1, 6.2	
10/9/2026	Fri		
10/10/2026	Sat		
10/11/2026	Sun	HW 5.6, 6.1-6.2	
10/12/2026	Mon		Lab 8-Contingency Tables
10/13/2026	Tue	6.6, 7.1	
10/14/2026	Wed		
10/15/2026	Thu	8.1, 8.2	
10/16/2026	Fri		
10/17/2026	Sat		
10/18/2026	Sun	HW 6.6, 7.1, 8.1	
10/19/2026	Mon		Lab 9-Discrete Random Variables
10/20/2026	Tue	8.2, 8.4	
10/21/2026	Wed		
10/22/2026	Thu	Exam 2 Review	
10/23/2026	Fri		
10/24/2026	Sat		
10/25/2026	Sun	HW 8.2, 8.4	
10/26/2026	Mon		Lab 10-Binomial Distribution
10/27/2026	Tue	Exam 2	
10/28/2026	Wed		
10/29/2026	Thu	9.3, 9.4	
10/30/2026	Fri		
10/31/2026	Sat		
11/1/2026	Sun	HW 9.3	
11/2/2026	Mon		Lab 11-Normal Distribution
11/3/2026	Tue	9.4, 10.2	
11/4/2026	Wed		
11/5/2026	Thu	10.2, 10.3	
11/6/2026	Fri		
11/7/2026	Sat		
11/8/2026	Sun	HW 9.4, 10.2-10.3	
11/9/2026	Mon		Lab 12-Sampling Distributions
11/10/2026	Tue	10.4, 10.8	
11/11/2026	Wed		

11/12/2026	Thu	11.1, 11.2	
11/13/2026	Fri		
11/14/2026	Sat		
11/15/2026	Sun	HW 10.4, 10.8, 11.1	
11/16/2026	Mon		Lab 13-Confidence Intervals
11/17/2026	Tue	Exam 3 Review	
11/18/2026	Wed		
11/19/2026	Thu	Exam 3	
11/20/2026	Fri		
11/21/2026	Sat		
11/22/2026	Sun		
11/23/2026	Mon	Thanksgiving Break	Thanksgiving Break
11/24/2026	Tue	Thanksgiving Break	Thanksgiving Break
11/25/2026	Wed	Thanksgiving Break	Thanksgiving Break
11/26/2026	Thu	Thanksgiving Break	Thanksgiving Break
11/27/2026	Fri	Thanksgiving Break	Thanksgiving Break
11/28/2026	Sat		
11/29/2026	Sun	HW 11.2	
11/30/2026	Mon		Final Review
12/1/2026	Tue	11.3	
12/2/2026	Wed	HW 11.3	
12/3/2026	Thu	Final Review	
12/4/2026	Fri		
12/5/2026	Sat		
12/6/2026	Sun		
12/7/2026	Mon		
12/8/2026	Tue	Final Exam (1-3 pm)	
12/9/2026	Wed		
12/10/2026	Thu		

The above schedule is subject to change. Students will be notified by Eagle Alert if there is a campus closure that impacts a class.

Final Exam

A mandatory and comprehensive final exam will be given on **December 8th @ 1:00-3:00 pm** in the **normal classroom, Wooten 222**

Course Topics

CHAPTER 1 Data Collection

1.1 Evidence, Claims, and Study Types

1.2	Variables and Measures of Data
1.3	Sampling Methods
1.4	Sampling Methods
1.5	Sampling Errors, Bias, and Misleading Statistics
CHAPTER 2 Graphic Displays of Data	
2.1	Organizing Qualitative (Categorical) Data
2.2	Frequency Tables for Quantitative (Numerical) Data
2.3	Histograms
2.5	Histograms and Frequency Tables with Excel
2.5	Line Graphs, Dot Plots, and Stem-and-Leaf Plots
CHAPTER 3 Measures of Center and Dispersion	
3.1	Measures of Central Tendency
3.2	Which Measure of Central Tendency Should I Use?
3.3	Quartiles and Box Plots
3.4	Standard Deviation
3.5	The Empirical Rule
3.8	Measures of Central Tendency with Excel
3.10	Measures of Spread with Excel
CHAPTER 4 Correlation and Regression	
4.1	Scatter Plots and Correlation
4.2	Linear Regression Equations
4.3	Least Squares and Outliers
4.5	Coefficient of Determination
4.7	Performing Linear Regressions with Excel
CHAPTER 5 Probability	
5.1	Probability Terminology and Notation
5.2	Basic Probability
5.3	Independent and Mutually Exclusive Events
5.5	Addition and Multiplication Rule
5.6	Contingency Tables
CHAPTER 6 Discrete Random Variables	
6.1	Introduction to Discrete Probability Distributions
6.2	The Binomial Distribution
6.6	Discrete Random Variables with Excel
CHAPTER 7-8 Continuous Random Variables	
7.1	The Uniform Distribution
8.1	The Normal Distribution-Parameters
8.2	The Normal Distribution-Probability
8.4	The Normal Distribution with Excel
CHAPTER 9 Central limit Theorem	
9.3	Central Limit Theorem for Means
9.4	Central Limit Theorem for Proportions
CHAPTER 10 Confidence Intervals	
10.2	Confidence Interval for a Mean-Population Standard Deviation Known

- 10.3 Confidence Interval for a Mean-Population Standard Deviation Unknown
- 10.4 Confidence Interval for a Population Proportion
- 10.8 Confidence Intervals with Excel

CHAPTER 11 Hypothesis Testing for One Population

- 11.1 Introduction to Hypothesis Testing
- 11.2 Hypothesis Test for Mean-Population Standard Deviation Known
- 11.3 Hypothesis Test for Mean-Population Standard Deviation Known (P-value)
- 11.4 Hypothesis Test for Mean-Population Standard Deviation Unknown
- 11.6 Hypothesis Test for Proportion

Assessing Your Work

Assignment	Percentage
Homework	15%
Lab Projects @ 1%	13%
Exams @ 15%	45%
Final Exam	17%
iClicker Engagement	5%
Soft Skills and Participation	5%
Review Center (Extra Credit)	4% bonus
Total	104%

Grading Policy

- A = 89.5 – 100%
- B = 79.5 – 89.4%
- C = 69.5 – 79.4%
- D = 59.5 – 69.4%
- F = 0 – 59.4%

Grades are based on mastery of the content. As a rule, I do not grade on a “curve” because that is a comparison of your outcomes to others. I do, however, encourage you to find opportunities to learn with and through others. Please take advantage of the academic resources listed above if you find yourself struggling.

Academic Integrity Standards and Consequences

According to UNT Policy 06.003, [Student Academic Integrity](https://policy.unt.edu/policy/06-003) (<https://policy.unt.edu/policy/06-003>), academic dishonesty occurs when students engage in behaviors including, but not limited to cheating, fabrication, facilitating academic dishonesty, forgery, plagiarism, and sabotage. A finding of academic dishonesty may result in a range of academic penalties or sanctions ranging from admonition to expulsion from the University.

Unauthorized Aids During Examinations and Assessments

Students may use only those materials and resources that are expressly authorized by the instructor for a particular examination or assessment. Touching, holding, or accessing any unauthorized aid during the examination period constitutes a violation of the Student Code of Conduct, regardless of whether the aid is used.

Any item that may be considered an unauthorized aid must be kept out of view and in a closed container (e.g. zipped backpack, buttoned purse, etc.) during the entirety of the examination or assessment.

Unless specifically authorized in writing by the instructor, prohibited aids include, but are not limited to:

- Mobile phones and smartphones
- Smartwatches and fitness trackers with communication, recording, or internet capabilities
- Tablets, laptops, and other computing devices
- Earbuds, headphones, and other audio devices
- Smart glasses, cameras, recording devices, and wearable technology
- Artificial intelligence (AI) tools, chatbots, and other generative AI technologies
- Notes, textbooks, study guides, formula sheets, or reference materials
- Any other device, material, or resource not expressly permitted by the instructor

Students are responsible for clarifying any questions about permitted materials before the examination begins.

Attendance and Participation

Students are required to take exams in the Sage Hall Computer-Based Testing Center (SAGE 331).

Students are expected to attend class regularly and engage with the material. Research has shown that students who attend class are more likely to be successful. If you miss class, you will be responsible for obtaining a copy of the notes and any other information discussed from a classmate. If you expect to miss one week or more due to circumstances beyond your control, please notify me and your lab instructor in advance so that we can help you attain the course learning objectives. You may also provide documentation verifying the reason for your absence to the [Dean of Students](https://studentaffairs.unt.edu/dean-of-students) (<https://studentaffairs.unt.edu/dean-of-students>) and ask them to advocate on your behalf.

Engagement

Your engagement grade will be based on your participation in the classroom iClicker polls. If at the end of the semester you have participated in at least 70% of the activities, you will receive all 5 points toward your final grade. If your participation is below 70%, you will receive a 0 in this category. Note that this will not automatically calculate in Canvas's total grade properly, so in the gradebook you can put 100 or 0 as your score to see how that would affect your grade.

Homework Policy

Students may complete homework assignments up to 7 days after the due date. Assignments completed during this 7-day grace period will incur a 20% penalty. I will also drop the **two** lowest homework scores before computing your average at the end of the semester, with an opportunity to earn more during the semester.

UGMT 1300 labs

This class has an attached UGMT 1300 section, meeting once a week for 2 hours. Here, in a smaller setting, you will do guided lab projects, learn and discuss "soft skills" for succeeding in a college math class, and do assignments intended to help with the Math 1680 lecture with the help of your lab's teaching assistant. The lab projects are 13% of your Math 1680 grade, and the rest of the assignments are another 5% of your MATH 1680 grade. Please make sure to attend these sessions regularly.

Exam Policy

Students may use a scientific or graphing calculator, the online graphing calculator Desmos, and Microsoft Excel during exams. I will also provide a formula sheet. *No other notes or assistance are permitted. In particular, the use of smartphones and searching the internet are prohibited during exams!*

You may request to take an exam early. Please submit your request at least one week prior to the date you would like to take the exam.

Your score on the final exam will replace your lowest exam score if the final exam score is higher (unless you receive a zero on an exam for academic dishonesty).

Syllabus Change Policy

Any changes to the syllabus will be announced in class and/or posted on Canvas.

Emergency Notification & Procedures

UNT uses a system called [Eagle Alert](#) to quickly notify students with critical information in the event of an emergency (i.e., severe weather, campus closing, and health and public safety emergencies like chemical spills, fires, or violence). In the event of a university closure, please refer to the UNT Learning Management System (LMS) for contingency plans for covering course materials.
