LEARNING PHILOSOPHY: Student success is most effective when you take responsibility for your own learning. What you gain from this course is based upon your commitment to mastering the material. *I am committed to helping you learn by assisting you in your personal learning experience.* This involves providing motivation, guidance, as well as opportunities for learning. You will learn by mastering assigned materials, setting high expectations, and emphasizing the relevance of the course material by explicitly linking it to real-world problems and decisions. There will be numerous references to real world problems that will benefit you and facilitate your ability to respond to a changing environment. While many of you know some of what will be offered in this course based on your life and work experience, your responsibility is to integrate your prior knowledge and the knowledge gained from this course to enhance your career opportunities. My role is to provide guidance by furnishing the appropriate information and tools, modeling desired behavior, and giving constructive and timely feedback. I am also prepared and willing to provide student counseling related to your challenges in the course.

ELECTRONIC DEVICES: Use of electronic devices (e.g., cell phones, pagers, etc.) is NOT ACCEPTABLE in this class. If I discover your use of any of these devices in class, I will stop my discussion/lecture and ask you to put your device away. This may prove to be embarrassing; however, consider it a learning lesson. If you are fired from your first job for using electronic devices in a meeting, that would be much worse!
Repeated use of electronic devices will result in me dropping you from the class. EXCEPTION: If you are using a computer, iPad, or similar device to take notes and assist in the learning process that is acceptable and please do not take offense if I confirm that you are using devices for this purpose. However, using these devices to check your e-mail, etc., is not acceptable.
