Art Direction

Overview:
This course familiarizes students with the standards, practice, and creative process of advertising art direction. We will discuss the role of the art director in the work environment in both large and small size agencies. We will develop campaigns for both large and small target audiences and advertisers. Those who complete this course will understand how to approach, construct and critique advertising campaigns through strategic thinking, crafting appropriate aesthetics, integrating meaningful copy, along objective analysis. Students are challenged to identify the unique offerings benefiting consumers (or business customers) by supporting the client’s business objectives. This class will be demanding of every student’s time and concentration.

Course Goals and Content:
Every client is different despite the sameness of a shared category, service type, or product offered. The Art Director’s task is to find and communicate the client’s competitive advantage through a differentiating benefit that connects them with consumers, business customers, or other end-user markets. This course challenges students to generate fresh, unique, and appropriate ideas distilled from creative briefs, strategy statements, communications objectives, or other forms of discovery.

Student Learning Objectives:
• Sensitize students to the creative team’s role in the creative processes necessary to develop successful advertising campaigns in an ad agency or small design studio.
• Build upon available research and critical thinking related to art direction.
• Review methodologies for developing appropriate creative strategies, identifying the target audience, conducting market research, and creative problem-solving.
• Teach students how to formulate a written brief that a creative team can follow as they develop the various concepts and concept applications necessary to communicate the creative strategy.
• Help students build a thorough understanding of the qualitative differences between pioneering, competitive, and retentive advertising campaigns.
• Provide students the awareness of additional resources to seek employment as a professional Art Director.

Course Structure
This class will be highly demanding in mental focus and commitment, involving many hours of homework. You may expect 80–90% of class time to be spent in critique and discussion of work completed outside of class. The remaining time will consist of in-class work, lectures, or demonstrations.

Scholastic Dishonesty
UNT does not tolerate Scholastic dishonesty. Academic dishonesty could result in expulsion from the University.

Scholastic Dishonesty includes, but is not limited to, the submission of someone else’s materials as one’s work. Academic dishonesty may involve one or more of the following acts: cheating, plagiarism, or collusion. Plagiarism is the use of an author’s words or ideas as if they were one’s own without giving credit to the source, including, but not limited to, failure to acknowledge a direct quotation or artwork of others. Cite your references.

Art/design plagiarism is the act of reproducing the work of another artist/designer and claiming it as your original work of art. This includes the use of Artificial Intelligence generated imagery and text. If there is an academic reason for generating AI imagery or narrative for any reason discuss this with your professor for approval before using AI output in your projects.

Collusion is intentionally aiding or attempting to assist another in the act of academic dishonesty. This includes but is not limited to providing a paper or project to another student, providing an inappropriate level of assistance, communicating answers to a classmate during an examination, removing tests or answer sheets from a test site, and allowing a classmate to copy answers.

According to UNT Policy 18.1.16, Student Academic Integrity, academic dishonesty occurs when students engage in behaviors including, but not limited to cheating, fabrication, facilitating academic dishonesty, forgery, plagiarism, concealing sources, and sabotage. A finding of academic dishonesty may result in a range of academic penalties or sanctions ranging from admonition to expulsion from the University. Students caught cheating or plagiarizing in the Communication Design program will receive a “0” for that particular assignment or exam. Additionally, the incident will be reported to the Dean of Students, who may impose further penalties.

Participation and Attendance will represent 10% of the final grade.

Making deadlines is part of becoming a design professional. Work turned in late will be lowered by one letter grade. Work turned in one week beyond the deadline will not be excepted and will receive a failing grade. All graded assignments will equal 90% of the final grade.

All creative briefs for each project must be approved prior to creative work to begin.

Project 1 - Headline Dominate Print Campaign for Small Client - 30% of Grade
Begin Feb 18th and Due Week 6 - Feb 20th

This first assignment will be a type-driven ad campaign relying on the headline and existing logo to drive the main benefit to customers. It will help you identify the user category, demographic, psychographic profiles, experiences, and geographic considerations for brand difference and awareness. This research should give creative insight into what opportunities there could be to communicate the key benefit of this business. Examples More shown in class.

Deliver 3 high-level aesthetic print ads conceptually informed by a well-written creative brief. The brief should identify a point-of-differentiation about the product and clearly demonstrate that point in a well-informed solution. The results should be highly visual solutions and photo or illustrative dominant with corresponding creative headlines that support each concept. Examples More shown in class.
