Course Syllabus

Disaster Response and Recovery

Fall 2023

EADP 3045.001
Tuesday 2:00-4:50 p.m.
CH 240

Instructor: Dr. Gary Webb
Room 302 Chilton Hall
Office Hours: Tuesday 12:00-1:30pm, Wednesday 4:00-5:30pm, or by appointment (in-person or via Zoom Meeting ID 911 911 9322)
Telephone: 940-369-5815
E-mail: gary.webb@unt.edu

Course Overview
Disasters are a pervasive aspect of modern living. In recent years, disasters seem to be increasing in number; worsening in terms of financial, physical, and social impacts; and growing in complexity. Despite their best efforts to mitigate against or try to prevent disasters from happening, human societies must always maintain and constantly improve their capacities to respond to and recover from large-scale events.

Course Objectives
The primary objectives of this course are to improve students’ knowledge of the response and recovery phases of a disaster, familiarize them with the typical problems and challenges that arise during these phases, and suggest strategies for more effectively responding to and recovering from future disasters. Course material will facilitate the development of those skills by:

1. Identifying the diverse and complex range of hazards confronting human societies today and in the future.
2. Discussing the challenges involved in warning populations of impending threats, promoting appropriate protective actions, mobilizing necessary resources, and coordinating overall response operations.
3. Defining the recovery process, identifying factors that promote or impede community recovery from a disaster, and examining the issue of social vulnerability and its impact on recovery outcomes.
4. Exposing students to principles of effective emergency management derived from both empirical research and lessons learned from previous disasters.

Course Readings
Required Text:

Course Requirements
Student grades for this course will be based on each student’s performance on three (3) major exams and one (1) in-class presentation.

Exams
There will be three required 90 minute exams in this course, each of which will test students’ knowledge of material covered in the relevant section. For example, the first exam (tentatively scheduled for Tuesday, September 19) will consist of all material from class discussions and required readings up to that point; the second exam (tentatively scheduled for Tuesday, October 17) will consist of material from class discussions and
required readings covered after the first exam; and the third exam (scheduled for Tuesday, December 12) will consist of all material from class discussions and required readings that are covered after the second exam (i.e., the final exam is not “comprehensive” in nature).

Each exam will contain 35 multiple choice questions, 1 short list question, and 1 essay question. The relative weight of each type of question for each exam is as follows:

<table>
<thead>
<tr>
<th>Type of Question</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>35 multiple choice</td>
<td>70 points</td>
</tr>
<tr>
<td>1 short list question</td>
<td>5 points</td>
</tr>
<tr>
<td>1 essay question</td>
<td>25 points</td>
</tr>
<tr>
<td>Total</td>
<td>100 points x 3 exams = 300 points</td>
</tr>
</tbody>
</table>

**In-Class Presentation**
Each student is required to prepare and deliver a 5 minute PowerPoint presentation in class on November 14 that briefly describes a recent disaster and either (a) identifies the top 3 challenges encountered during the response and/or recovery phase(s) or (b) identifies the top 3 lessons learned (or unlearned) from the event. Student presentations are valued at 50 points and will be evaluated in terms of organization, clarity of presentation, and insightfulness and originality.

**Course Grades**
To summarize, course requirements and their relative weight for grading purposes are as follows:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exam 1</td>
<td>100</td>
</tr>
<tr>
<td>Exam 2</td>
<td>100</td>
</tr>
<tr>
<td>Exam 3</td>
<td>100</td>
</tr>
<tr>
<td>In-Class Presentation</td>
<td>50</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td>350</td>
</tr>
</tbody>
</table>

Student grades will be calculated on the following scale:

<table>
<thead>
<tr>
<th>Points earned</th>
<th>Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>315-350</td>
<td>A</td>
</tr>
<tr>
<td>280-314</td>
<td>B</td>
</tr>
<tr>
<td>245-279</td>
<td>C</td>
</tr>
<tr>
<td>210-244</td>
<td>D</td>
</tr>
<tr>
<td>0-209</td>
<td>F</td>
</tr>
</tbody>
</table>

**Late Assignments**
In-class presentations will not be accepted after the due date.

**Missed Exams**
Only in extenuating circumstances, such as family crisis, illness or injury sufficient to require medical care (which can be documented), participation in a university sponsored event which requires the student’s absence from campus on the day of the exam, and similar reasons beyond the student’s control, will make-up provisions apply. Advise the instructor in advance of absences due to such matters. If a make-up examination is allowed, an alternative exam (both in terms of substance and format) will be administered on the last day of finals week, Friday, December 15 at 8:00 a.m. No student can make up more than one exam. In the event that a student misses more than one exam, a grade of zero will be assigned for the second missed exam. If a student is granted a make-up exam and misses the scheduled make-up exam, a grade of zero will be assigned for the missed exam.
**Tentative Course Outline***

**Week 1 August 22**
*Topics*
Introductions and Course Overview
*Readings:* None

**Week 2 August 29**
*Topics*
Guiding Assumptions
The Science of Disasters
Types of Disasters and Their Impacts
Future Disasters and Response Challenges
*Readings:* McEntire Chapter 1

**Week 3 September 5**
*Topics*
Human Response to Disaster
Disaster Myths: Their Sources and Consequences
*Readings:* McEntire Chapter 3

**Week 4 September 12**
*Topics*
Disaster Warnings
The Warning Process
Characteristics of Effective Warnings
*Readings:* McEntire Chapter 5

***Exam 1***

**Week 5 September 19**

**Week 6 September 26**
*Topics*
Response Demands, Activities, and Roles and Responsibilities
EOC Design and Function
*Readings:* McEntire Chapters 2, 6, and 7

**Week 7 October 3**
*Topics*
National Response Framework
National Incident Management System
Incident Command System
*Readings:* McEntire Chapter 4

**Week 8 October 10**
*Topics*
Competing Models of Emergency Management and the Importance of Flexibility
*Readings:* McEntire Chapters 11 and 13

***Exam 2***
Week 10 October 24
Topics
Disaster Recovery
Dimensions and Stages of Recovery
Factors Affecting Recovery
Readings: McEntire Chapter 8

Week 11 October 31
Topics
Social Vulnerability to Disaster and Its Sources
Readings: McEntire Chapter 9

Week 12 November 7
Topics
Holistic Disaster Recovery
Recovery Plans
Mitigation Challenges and Opportunities
Readings: McEntire Chapter 10

Week 13 November 14
***In-Class Presentations***

Week 14 November 21
***No Class Thanksgiving Break***

Week 15 November 28
Topics
Lessons Learned and Unlearned
Impediments to organizational learning
Readings: McEntire Chapter 12.

Week 16 December 5
Topics
Disaster Response and Recovery: A Glimpse into the Future
Conclusions and Course Wrap-up
Readings: McEntire Chapter 12.

Week 17 December 12
***Exam 3***

* It is important to note that this course outline is tentative and may be changed by the instructor. In the event changes to the outline are made, students will be notified in class. It is important, therefore, that students attend class to learn about important changes.
RELEVANT POLICIES TO THIS COURSE

ATTENDANCE AND PARTICIPATION
Research has shown that students who attend class are more likely to be successful. Because we only meet once a week, every class meeting is essential to your success. You should attend every class unless you have a university excused absence such as active military service, a religious holy day, or an official university function as stated in the Student Attendance and Authorized Absences Policy (PDF) (https://policy.unt.edu/policy/06-039). If you have an emergency or run into challenges that require you to miss a class, please inform the instructor beforehand, if possible. While an occasional absence is understandable and likely will not adversely impact a student’s overall performance in the class, multiple absences are likely to negatively impact student performance.

CHEATING AND PLAGIARISM
Academic integrity emanates from a culture that embraces the core values of trust and honesty necessary for full learning to occur. As a student-centered public research university, the University of North Texas promotes the integrity of the learning process by establishing and enforcing academic standards. Academic dishonesty breaches the mutual trust necessary in an academic environment and undermines all scholarship. UNT Policy 06.003 defines cheating as “the use of unauthorized assistance in an academic exercise” and plagiarism as the “use of another’s thoughts or words without proper attribution in any academic exercise, regardless of the student’s intent.” Cases of academic dishonesty will be handled in accordance with UNT Policy 06.003 Student Standards of Academic Integrity and in accordance with the process outlined by the Office of Academic Integrity (http://facultysuccess.unt.edu/academic-integrity).

DISABILITY ACCOMMODATION
The University of North Texas makes reasonable academic accommodation for students with disabilities. Students seeking reasonable accommodation must first register with the Office of Disability Accommodation (ODA) to verify their eligibility. If a disability is verified, the ODA will provide you with a reasonable accommodation letter to be delivered to faculty to begin a private discussion regarding your specific needs in a course. You may request reasonable accommodations at any time, however, ODA notices of reasonable accommodation should be provided as early as possible in the semester to avoid any delay in implementation. Note that students must obtain a new letter of reasonable accommodation for every semester and must meet with each faculty member prior to implementation in each class. Students are strongly encouraged to deliver letters of reasonable accommodation during faculty office hours or by appointment. Faculty members have the authority to ask students to discuss such letters during their designated office hours to protect the privacy of the student. For additional information see the Office of Disability Accommodation website at http://www.unt.edu/oda. You may also contact them by phone at 940.565.4323.

ACCEPTABLE STUDENT BEHAVIOR
Student behavior that interferes with an instructor’s ability to conduct a class or other students' opportunity to learn is unacceptable and disruptive and will not be tolerated in any instructional forum at UNT. Students engaging in unacceptable behavior will be directed to leave the classroom and the instructor may refer the student to the Dean of Students to consider whether the student's conduct violated the Code of Student Conduct. The university's expectations for student conduct apply to all instructional forums, including university and electronic classroom, labs, discussion groups, field trips, etc. The Code of Student Conduct can be found at Student Conduct and Community Standards | Division of Student Affairs (unt.edu).

PORTABLE ELECTRONIC DEVICES IN THE CLASSROOM
When used appropriately, certain technologies, such as laptop computers, tablets, and smartphones, can enhance the university classroom experience. They also increasingly play a role in promoting campus safety by allowing students to receive severe weather alerts and other important risk information. However, when used inappropriately those same technologies can become a distraction to the individual user, other students, and the
instructor. Thus, while students may use portable electronic devices for taking class notes, searching the web for class-related content and resources, and receiving risk warnings and alerts, they may not be used for conducting personal communications (e.g., texting and e-mailing), accessing social media, or any other non-academic purposes. In the event that a student’s use of portable electronic devices causes a distraction, he or she will first be asked to refrain from such use, and, if the problem persists, will be asked to leave the classroom.
