

ACCT 2020.300: Accounting Principles II (Managerial Accounting)

Fall 2026

Hybrid Course: Course content is online and asynchronous. Exams are in person and synchronous.

Instructor Information

Name: Hillary Wang (She/Her)

Email: Hillary.Wang@unt.edu*

Office: BLB 379H (in person); <https://unt.zoom.us/my/hillarywang> (Zoom)

Office Hours: In-Person: TuTh 11:00am-12:00pm; appointments highly preferred (see below)

Zoom: By appointment only

Link to Make Appointment: <https://calendly.com/hillarywang/30min>

If available times do not work for your schedule, please email to schedule for other day/time.

***The best way to communicate with me is at my UNT email address from your UNT email address.** Emails from non-UNT emails go to my junk folder and may not be seen in a timely manner. Communicating via email is preferred over communicating via Canvas message. Please always let me know which section you are in when you reach out. I do have many students, and my inbox can become very full at times. If you contact me and do not receive a response within two business days, please feel free to send a follow-up email.

Course Description, Structure, and Objectives

Course Description: ACCT 2020 studies the use of accounting for business decision-making. Topics include: cost identification/assignment, cost behavior analysis, cost-volume-profit relationships, information relevant for decision-making, operational budgeting, performance evaluation, standard costs, and capital investment analysis.

"Accounting is the language of business." The primary objective of the course is for you to become more fluent in this language so that you can operate a business/business segment, make business decisions, and communicate with others in business. Managerial accounting will focus on measuring, recording, and analyzing information to make management decisions. The concepts introduced in this course will show up repeatedly in your future coursework to earn your business degree and more importantly, in your future career. This is a core business course requirement because of its universal application to all business disciplines.

Course Objectives: Upon successful completion of this course, the learner will be able to:

1. Identify product costs and assign them to jobs and products.
2. Describe and quantify cost behaviors, compute cost figures, and analyze cost-volume-profit relationships.
3. Identify and use relevant costs to make management decisions.
4. Construct operational and financial budgets, and utilize performance evaluation tools.
5. Analyze capital budget investments using various methods and the time value of money.

Pre/Post-Requisites: ACCT 2010 with a grade of C or better, ECON 1100, and MATH 1100 or higher (MATH 1180 preferred) are required in order to take this course. In addition, this course, ACCT 2020, with a grade of C or better is required in order to take ACCT 3270. Note: This course may not be taken more than twice at UNT.

Required Materials

- Pearson MyAccountingLab ("MAL"):** Access to our MyAccountingLab ("MAL") course (ISBN: 9780135346822) is required, as we use it to complete homework, quizzes, and exams throughout the semester. **You must access our MAL course through our Canvas course under the second tab, called "Access Pearson."** It will cost \$60 for all students (if you pay directly through Pearson's website). Detailed instructions for getting into our MAL course can be found in the "How to Register for our MAL Course" document in the "Week 1" module in Canvas. **Please do this as soon as possible, as your first assignment will be due the first week of class.**
 - Braun & Tietz, Managerial Accounting 7e, Pearson:** You will automatically have access to our required textbook as an e-book with your Pearson MyAccountingLab access above. A looseleaf print version of the textbook is available, if desired, as an upgrade for \$45 when you go to "Purchase Options" in our MAL course.
- Technology Requirements:** This course has digital components. To fully participate in this class, students will need a computer and internet access to reference content and complete assessments in Canvas and MyAccountingLab. Information on how to be successful in a digital learning environment can be found at the [Learn Anywhere Website](#).
 - Computer:** You need a computer to complete assignments in this course. Your computer and its software (e.g., browsers) must meet the minimum technical requirements for Canvas and MyAccountingLab.
 - Reliable Internet Access (and Backup Plan):** You must have reliable internet access. I recommend having a backup plan (e.g., library, campus building, friend/family member's house, or coffee shop) in case your usual internet access has an outage.
 - Canvas and UNT Email:** We will use Canvas (<https://canvas.unt.edu>) extensively in this course. I will frequently post announcements or send out messages via Canvas and/or to your UNT email addresses. **You are responsible for checking these daily** so that you do not miss any communications. Technical support for UNT is available at [link to UNT IT Help Desk](#).

Assessing Your Work

Your course grade will be weighted and calculated as follows:

Assignment Group	Percentage of Final Grade	Notes
Knowledge Checks	5%	Several knowledge checks for each chapter. Accepted late with 10% penalty <i>per day late</i> .
Homework	15%	10 homework assignments – 1 for each chapter. Accepted late with 10% penalty <i>per day late</i> .
Quizzes	15%	12 quizzes – 10 chapters, syllabus, and final exam review. Lowest two quiz scores will be dropped.
Midterm Exams	40%	3 midterm exams – lowest midterm will be dropped. Highest two midterm scores worth 20% each.
Final Exam	25%	Final Exam is <i>comprehensive</i> and CANNOT be dropped .
Total	100%	

The grading scale is:

A = ≥ 90%. B = 80% - 89.99%. C = 70% - 79.99%. D = 60% - 69.99%. F = < 60%.

Assessment Details and Grading Policies

Knowledge Checks: Knowledge Checks are short quizzes that should be completed after watching a few lecture videos. They are designed to make sure you are absorbing and comprehending the new information presented. Knowledge Checks are open-note; you are encouraged to have your notes, the textbook, and/or the lecture videos open to help you as needed. You will have two attempts on each knowledge check. Knowledge Checks can be submitted late with a 10% penalty per day late – until the evening before the midterm exam covering that chapter (or the last day of regular classes for Ch. 12). Knowledge Checks are worth 5% of your final grade.

Homework: You will have one homework assignment on MyAccountingLab (“MAL”) due for each chapter. Due dates are indicated in the course schedule. MAL will allow you multiple attempts to get each problem right. Homework can be submitted late with a 10% penalty per day late (applied to late questions only) – until the evening before the midterm exam covering that chapter (or the last day of regular classes for Ch. 12). Homework assignments are worth 15% of your final grade.

Quizzes: You will have one quiz on MyAccountingLab (“MAL”) due for each chapter, one syllabus quiz, and one final exam review quiz. Students are permitted to use course resources only (such as chapter notes, exercises, videos, and other resources provided in Canvas) when taking quizzes. Students are not permitted to use internet searches or AI while taking quizzes; this will be considered cheating. Due dates are indicated in the course schedule. Quizzes will not be accepted late, but I will drop your lowest two quiz grades. Quiz results can be reviewed on your own after the due date passes by going to “Results” on the left menu in MAL. Quizzes are worth 15% of your final grade.

Exams: You will have three midterm exams and one comprehensive final exam on the dates indicated in the course schedule. I will drop your lowest midterm exam grade (NOT the final exam), and your other two midterm exams will each be worth 20% of your final grade, for a total of 40% of your final grade. The final exam is worth 25% of your final grade.

- a. All exams will be taken in person on UNT’s Denton campus, on UNT computers in the Sage Hall Testing Center (Room 331). Bring your student picture ID.
- b. The testing center/instructor will supply scratch paper, pencils, and four-function calculators (your own calculator is NOT allowed). You will put your name on your scratch paper and turn it in before you leave.
- c. No books, notes, “cheat sheets,” or other resources may be used during exams.
- d. Cell phones, tablets, headphones, smart watches, smart glasses, or other electronic devices are completely prohibited during exams. The use of AI is completely prohibited for exams.
- e. Having any of the above restricted items at your desk or on your person (including in your pocket) during an exam is grounds for a zero on the exam and/or an academic integrity violation report and penalty.
- f. Exam results can only be reviewed during an in-person appointment with the instructor.

Extra Credit Opportunities: There will be a few extra credit opportunities available throughout the semester, which will be communicated via Canvas. All extra credit opportunities will be given to the entire class and never on an individual student basis.

Late Work Policy: Due dates for assignments, quizzes, and exams will not be extended except in extraordinary circumstances. Technological issues such as computers breaking, internet not working, etc. are not legitimate reasons to re-open or extend assignments for a student. Students are responsible for managing their schedules to complete assignments by the required due dates. Waiting until the last minute to complete an assignment is unwise as technological issues, last-minute personal or work issues, and other disruptions can occur. It is best to have a backup plan in case of computer or internet failure, such as going to a library, using a friend or family member’s laptop, or going to a coffee shop for wifi. Because I understand that life circumstances happen, I drop your two lowest quizzes and accept late work (with a penalty) for knowledge checks and homework assignments.

Note: If you experience issues with Pearson/MyAccountingLab, you must contact Pearson Support to attempt to resolve the problem. I am generally unable to help with these issues, as I do not have any backend access. The contact info for Pearson Support and the info for UNT's IT Helpdesk (for other technological issues) are both available in Canvas.

Final Course Grades: Final course grades are an objective, mathematical calculation based on your performance on the assignments/exams and their weights listed in the syllabus. I am responsible for teaching you in lectures, answering questions, being available/offering support, providing resources, and giving fair assignments/examinations. **YOU** are responsible for your own learning and performance, managing your schedule and putting in time/efforts to meet due dates, getting help when needed, and ultimately for the final course grade you receive. **Beyond the forms of grade help equally offered to all students (e.g., late credit, lowest scores dropped, extra credit opportunities), I will not curve or "bump" grades at the end of the semester. As a policy, I will not respond to student emails asking for grade changes/bumps or additional opportunities.**

Attendance and Participation

Because this is an online course *without* required synchronous meetings, "attending class" means: watching posted lecture/exercise videos, working on class exercises, completing Knowledge Checks, asking any questions you may have, and completing other homework/quiz assignments by certain dates (see schedule).

Because students have different schedules and demands (classes, work, family responsibilities, etc.), each student can determine the best way to complete these tasks within the required timeline. My suggestion is that students make progress on coursework *over multiple days of the week* (e.g., 1-1.5 hours per day on at least 3-4 days per week). Not only does this prevent you from spending too many hours on any one day, but it allows for repetitive exposure and practice, which are greatly beneficial for learning accounting.

Students who do not watch and engage with the posted lecture/exercise videos, do not spend time working on the course over multiple days each week, and/or do not complete assignments independently with legitimate effort (e.g., without using internet search engines or AI to quickly obtain answers without understanding the material) will generally not succeed in this course.

Note: Because our online course gives wide flexibility as to when (and where) lecture videos can be watched and assignments completed, "absences" should be very rare. If you know you will be busy around a certain time (whether that is for work, going out of town, a UNT-sponsored event, a religious observance, or other reason), you should plan ahead to complete assignments by their due dates around that schedule. That being said, if you have extreme personal circumstances or become ill to the extent that you cannot participate even virtually for an extended period of time, please reach out to me.

Communication Guidelines

I truly aim to be available and helpful to all of you. To foster smooth communication, I ask you to read and follow the below guidelines:

1. You need to check your UNT email and Canvas inbox *daily*. I will frequently send out Canvas announcements to the entire class and may contact a student individually either by their UNT email address or Canvas inbox.
2. The best way to communicate with me is at my UNT email address from your UNT email address. Emails from non-UNT emails go to my junk folder and may not be seen in a timely manner. Communicating via email is preferred over communicating via Canvas message.
3. I do have many students, and my inbox can become very full at times. If you contact me and do not receive a response within two business days, please feel free to send a follow-up email.
4. Since email is a common and important form of communication in the professional world, I expect you all to be forming and practicing professional email etiquette. Emails should start with a greeting, state the question/comment clearly and concisely, be respectful and free of spelling/grammatical errors, and end with a salutation including your name/section number. Always be respectful.
5. Make sure you've checked other resources – such as the syllabus, the schedule, Canvas announcements, etc. – before asking me questions that may be addressed in those places (such as grading policies, late policy, due dates, etc.).
6. Unless your question is private/only applicable to you, consider using the Q&A discussion forums I have set up throughout the course. If you have a question about the course schedule, a course policy, a concept or calculation from a lecture or assignment, etc., chances are there are other students who have the same question. The Q&A allows others to benefit from these questions/answers and saves me time answering the same question in multiple emails.

UNT Policies:

Academic Integrity Standards and Consequences

The G. Brint Ryan College of Business takes academic honesty very seriously. Ethics and integrity are important business values, essential to building trust and adhering to both professional and legal standards. Academic dishonesty destroys trust and damages the reputation and the value of the degree. Academic dishonesty is unacceptable in any and all circumstances.

According to UNT Policy 06.003, Student Academic Integrity, academic dishonesty occurs when students engage in behaviors including, but not limited to cheating, fabrication, facilitating academic dishonesty, forgery, plagiarism, and sabotage. A finding of academic dishonesty may result in a range of academic penalties or sanctions ranging from admonition to expulsion from the University.

Some of the most common examples of academic integrity violations include plagiarism or cheating, such as unauthorized assistance on examinations, quizzes, homework, research papers, case analyses, or other assignments. Your work must be entirely your own. When working on assignments, you should not discuss your work with others unless approved by the course instructor. Group assignments should only be discussed with members assigned to your group, and all group members may be held accountable in some way for known academic integrity violations in a group assignment.

Another example of academic dishonesty relates to improper attribution. When preparing your assignments, you must cite all outside sources in the manner requested by your instructor. Copying or using material from any

source prepared by or previously submitted by others, at UNT or other institutions, or downloaded from the Internet, is plagiarism. Unless directed otherwise in an assignment, large scale “cutting and pasting” from other sources, even if properly footnoted, is not appropriate. You should synthesize this material in your own words and provide a footnote.

Please note that any discussion posts/replies in this course should be 100% written by you. Use of AI (artificial intelligence) on these assignments will be considered cheating (and therefore will result in an academic integrity violation report). AI-detection softwares will be used when needed.

Your professor will specify what materials, if any, may be used on the tests and exams. Using materials or devices other than those permitted, talking with other individuals during the exam, exchanging information about an exam when not all students have yet taken the exam, or copying or using material from another individual’s exam is academic dishonesty and will result in a meeting to discuss academic integrity violations and issue sanctions mentioned above, and may result in ineligibility for academic scholarships. The use of online assistance, such as sites commonly used for finding homework solutions, group chat, cell phones, smart watches, and similar tools during exams is not allowed for any reason unless specifically permitted. No portion of an exam may be copied or photographed without permission. Having prohibited materials/devices (i.e., phones, cheat sheets, notes, smart watch, etc.) at your desk or on your person during an exam is not acceptable and is grounds for a zero on the exam.

Students are expected to conduct themselves in a manner consistent with the University's status as an institution of higher education. A student is responsible for responding to a request to discuss suspected academic dishonesty when issued by an instructor or other University official. If a student fails to respond after a proper attempt at notification have been made, the University may take appropriate academic actions in the absence of the student.

Failure to perform within the bounds of accepted ethical standards will result in an academic integrity violation report being filed, is sufficient grounds for your discontinuance in this course with a grade of F, and could lead to expulsion from the University. Failure to abide by the university’s rules regarding academic dishonesty will not be tolerated in this course. University policy regarding this matter is a part of the UNT Code of Student Conduct and Discipline and can be found in the UNT Policy Manual, Vol. III, No. 18.1.11, and in the Student Handbook. ([Link to UNT Academic Integrity Policy](#))

Americans with Disabilities Act (ADA)

The University of Texas and its faculty members make reasonable academic accommodation for students with disabilities. Students seeking accommodation must first register with the Office of Disability Accommodation (ODA) to verify their eligibility. If a disability is verified, the ODA will provide a student with an accommodation letter to be delivered to faculty to begin a private discussion regarding one’s specific course needs. Students may request accommodations at any time, however, ODA notices of accommodation should be provided as early as possible in the semester to avoid any delay in implementation. Note that students must obtain a new letter of accommodation for every semester and must meet with each faculty member prior to implementation in each class. **If you are a student who requires accommodations in compliance with the ADA, please consult with me during the first week of the semester (or as early as possible), so I can assist with providing you with those accommodations. If you require an accessible version of any course material, please message me. I recognize these disclosures are sensitive, and I assure you all communication/information will be kept confidential.** ([Link to ODA Website](#))

Inclusive Learning Environment

I am committed to creating an inclusive learning environment for all students regardless of identity or background. Diverse perspectives are incredibly valuable in the learning process. As members of the UNT community, we must all make the commitment to treat each other with respect and courtesy at all times – whether in-person or online. Student behavior that interferes with my ability to conduct a class or other students' opportunity to learn (including discrimination) is unacceptable and will not be tolerated at UNT. We will observe the core values of the College of Business and [UNT's Code of Student Conduct](#)

Chosen Names/Pronouns

If you have a chosen name that differs from your legal name or prefer a particular set of pronouns, please let me know. I would love to address you in the way that makes you most comfortable. My pronouns are she/her, and I ask to be called Mrs. Wang, Ms. Wang, and/or Professor Wang.

Eagle Connect and My UNT

Students' access point for business and academic services at UNT is located at: www.my.unt.edu. All official communication from the University will be delivered to a student's Eagle Connect account. Please visit the [Eagle Connect Website](#) for more information or to forward UNT e-mails to another email address.

Emergency Notification and Procedures

UNT uses a system called Eagle Alert to quickly notify students with critical information in the event of an emergency (i.e., severe weather, campus closing, and health and public safety emergencies like chemical spills, fires, or violence). In the event of a university closure, please refer to Canvas for contingency plans for covering course materials. The system sends voice messages (and text messages upon permission) to the phones of all active faculty staff, and students. Please make certain to update your phone numbers at www.my.unt.edu.

Excused Absences Based on Religious Beliefs or UNT Sponsored Activities

Because our online course gives wide flexibility as to when (and where) lecture videos can be watched and assignments completed, students should generally plan to do so around any religious observances or UNT sponsored activities. That being said, if you have a concern about meeting a due date for one of these reasons, please notify me in writing within the first two weeks of the semester, and I will aim to work with you.

Cancellation of Classes

Because our online course gives wide flexibility as to when (and where) lecture videos can be watched and assignments completed, weather or other conditions that might cause campus to close may or may not affect this course. I will make sure to communicate with you all any cancellations of classes or other schedule changes.

Course Evaluation

Student feedback is important and an essential part of participation in this course. The Student Perceptions of Teaching Effectiveness (SPOT) is a requirement for all organized classes at UNT. Students will receive an email from "UNT SPOT Course Evaluations via IASystem Notification" to their UNT email with the survey link during the last few weeks of the semester. This short survey will provide students with an opportunity to evaluate how this course is taught. I am very interested in the feedback I get from students, as I work to continually improve my

teaching and the delivery of this course.

Transmission and Recording of Student Images in Electronically-Delivered Courses

On occasion, this course may hold and record Zoom meetings. Students may occasionally appear on video. The lecture recordings will be available to you for study purposes and may also be reused in future course offerings.

Additional Support Services

Student Support Services:

- Registrar (<https://registrar.unt.edu/registration>)
- Financial Aid (<https://financialaid.unt.edu/>)
- Student Legal Services (<https://studentaffairs.unt.edu/student-legal-services>)
- Career Center (<https://studentaffairs.unt.edu/career-center>)
- Multicultural Center (<https://edo.unt.edu/multicultural-center>)
- Counseling and Testing Services (<https://studentaffairs.unt.edu/counseling-and-testing-services>)
- Pride Alliance (<https://edo.unt.edu/pridealliance>)
- UNT Food Pantry (<https://deanofstudents.unt.edu/resources/food-pantry>)

Academic Support Services:

- Academic Resource Center (<https://clear.unt.edu/canvas/student-resources>)
- Academic Success Center (<https://success.unt.edu/asc>)
- UNT Libraries (<https://library.unt.edu/>)
- Writing Lab (<http://writingcenter.unt.edu/>)

Importance of Mental Health

I take mental health extremely seriously and want to help you if this is a concern at any point during the semester. The university provides many resources to help you, and I will always make myself available to talk. Please don't hesitate to reach out if you are struggling. Your health (mental, physical, etc.) should be your top priority. Please see the resources available below, and ask me if you have any questions.

UNT believes it is important to foster an environment that encourages students to maintain a standard of responsibility for self-care which includes the ability to respond adequately to one's emotional, physical, and educational needs.

UNT provides mental health resources to students to help ensure there are numerous outlets to turn to that wholeheartedly care for and are there for students in need, regardless of the issue or its severity. Listed below are several resources on campus that can support your academic success and mental well-being:

1. Student Health and Wellness Center

<https://studentaffairs.unt.edu/student-health-and-wellness-center>

1800 Chestnut St. Denton, TX 76201

940-565-2333

2. Counseling and Testing Services*

<https://studentaffairs.unt.edu/counseling-and-testing-services>

801 N. Texas Blvd, Denton, TX 76210 Suite 140

940-565-2741

3. UNT CARE Team*

<https://studentaffairs.unt.edu/care>

940-565-2648

careteam@unt.edu

4. UNT Psychiatric Services

<https://studentaffairs.unt.edu/student-health-and-wellness-center/services/psychiatry>

940-565-2648

5. Individual Counseling*

<https://studentaffairs.unt.edu/counseling-and-testing-services/services/individual-counseling>

940-369-8773

*Services are free of charge to University Students

If at any time you are feeling alone or in jeopardy of self-harm, reach out to the following:

- UNT Mental Health Emergency Contacts
 - During Office Hours (M-F 8am-5pm) 940-382-7273
 - After Hour Calls 940-565-2741
 - Crisis Text Line Text CONNECT to 741741
 - Live chat <http://www.suicidepreventionlifeline.org>

How to Succeed in this Course

As your professor, I genuinely care about your well-being and your success as a student. To me, academic success means that you are learning valuable knowledge and performing well on assessments. For most students, this doesn't happen without some challenges. If you keep your goals in mind and face challenges head-on, I believe you will be able to succeed. If you are experiencing challenges in this course and aren't sure how to proceed, please reach out to me. That is why I am here! I love connecting with my students and helping them accomplish their goals. I am happy to meet for office hours or other consultations whether you need support for this course specifically or something outside of this course. I may not always have all the answers, but I can be a listening ear, provide resources, give advice, etc.

ACCT 2020 is a challenging course that requires a significant amount of effort and time from the student. Taking it online places more responsibility on the student to create and keep to a schedule that is conducive to learning. There are several actions/habits that students frequently say make a big difference in their success in this course:

- **Schedule:** Early in the semester, create a schedule/routine for when you will work on ACCT 2020. Ideally, this is about 1-1.5 hours per day on at least 3-4 days per week, but even spending 30 minutes one day can help you spread out the work and learn well. If you wait until the due date for each chapter, there will be too much work to complete well/too much material to truly absorb in one day.
- **Lecture Videos:** Watching lecture/exercise videos may be the biggest predictor of success in this course. Students who choose not to watch the lecture/exercise videos will generally struggle to complete assignments and/or resort to using search engines or AI (which is cheating) to complete assignments without understanding the material. This generally leads to extremely poor performance on exams and a failing grade in the course. Prioritize watching the provided videos, and do so when you are able to put away distractions, focus, and write/highlight notes, jot down work, etc. as you watch.
- **Class Exercises:** For class exercise videos, pause the video when I encourage you to do so, and attempt the exercise on your own. This is where students really notice difficult parts of the material, realize common mistakes, find questions they have, and master important details. Simply watching me complete the exercise will not accomplish the same type of learning and practice necessary to perform well in the course.
- **Assignments:** Work on assignments in the order presented in the Canvas module - watching a few lecture videos, then completing a knowledge check, then completing one or two homework questions as suggested, and repeating until finished.
- **Due Dates/Late Work:** At the beginning of the semester, set phone reminders/calendar events for due dates to help you avoid waiting until the last minute or missing a deadline completely. If you don't complete knowledge checks and/or the homework before the due date, complete them as soon as possible, as the penalty is only 10% per day late (meaning you can still earn 90% credit if you turn it in only one day late).
- **Quizzes:** Quizzes are one of the most important and helpful assessments in this course if they are taken with legitimate effort. Leave yourself plenty of time to take quizzes without being rushed, and do not resort to using the internet or AI to search questions/answers (which is cheating). First, try each quiz question without looking at any notes or resources. Then, before moving on to the next question, consult the posted chapter notes (and/or videos, class exercises, etc.) to find the correct answer or calculation process. This will tell you which topics you have mastered and which ones you need to practice further to prepare for the exam. Avoid missing quizzes whenever possible, as quizzes will not be accepted late.
- **Grade:** Be mindful of your grade throughout the semester. The earlier you reach out with concerns, the better chance you have of being able to improve your grade. Check current grades in Canvas and utilize the "what if" function (by typing in realistic possible future scores) to project your potential final course grade.

- **Exam Preparation:** Study for exams over multiple days. If possible, study with a classmate or even a friend/family member who will quiz you and listen to you explain concepts and calculations. Study using multiple of the resources that I suggest (notes, quizzes, study checklists, reviews, etc.). Expect exams to be challenging and include questions you have not seen before!
- **Communication:** Keep up with your UNT email address and Canvas announcements daily. Make sure they come to your phone.
- **Don't Memorize:** Do not attempt to merely "memorize" the material in this course; the goal is to truly learn, which means you understand the concepts and can apply them in different situations with changing circumstances. Put in the work to truly understand, and ask for help if you are having trouble.
- **Start Now:** Start all of these good habits right away! The material in this class builds upon itself, so getting behind early makes it difficult to catch up later. Set yourself up for success right off the bat!
- **Help:** If find yourself struggling, ask for help *immediately*. As mentioned above, this class's material continuously builds upon itself, so not understanding one chapter can quickly snowball into feeling more and more lost. There are lots of ways to receive extra support; the first step is to ask. When you start to feel confused about a topic, try one or several of the following:
 - Re-watch the lecture/exercise videos about the topic in Canvas, paying close attention. I always try to explain confusing topics thoroughly and address common points of confusion.
 - Read the pages in the textbook over the topic you're struggling with. Sometimes seeing something written out causes it to click in our brains. (You all have access to the e-book in MyAccountingLab.)
 - Ask questions in the provided Q&A discussions for each module.
 - Reach out for an office hours appointment.
 - Find a classmate to study with over Zoom. Peer-to-peer learning works wonders!
 - Attend an SI session weekly (in person and Zoom options available; schedule in Canvas) to get more practice/guidance with challenging material in an active, engaging environment.
 - Get free tutoring using the Accounting Tutor Lab Zoom Hours.
 - Utilize the tools available in MyAccountingLab such as the Study Plan, Dynamic Study Modules, and pre-made flashcards.
- **Be Persistent:** If you are struggling with material, if you do poorly on an assignment or exam, if you feel frustrated with the course... don't give up. This class is challenging, but I believe in each student's ability to succeed. Reach out to me and let's work on a plan together to help you do so.

UNT endeavors to offer you a high-quality education and to provide a supportive environment to help you learn and grow. As a faculty member, I am committed to helping you be successful as a student. To learn more about campus resources and information on how you can achieve success, go to <http://success.unt.edu>.

Course Schedule/Requirements

Week	Topic	Due Date* (@ 11:59pm; Except Exams)
1	Course Introduction and Syllabus Quiz	Sunday, August 23
2	Chapter 2: Building Blocks of Managerial Accounting**	Sunday, August 30
3	Chapter 3: Job Costing**	Sunday, September 6
4	Chapter 4: Activity-Based Costing**	Sunday, September 13
5	Midterm Exam #1 (20% of final grade if not lowest)	Friday, September 18 at 2:25pm In Person on UNT's Denton Campus: Sage Hall Room 331
6	Chapter 6: Cost Behavior**	Sunday, September 27
7	Chapter 7: Cost-Volume-Profit Analysis**	Sunday, October 4
8	Chapter 8: Relevant Costs for Short-Term Decisions**	Sunday, October 11
9	Midterm Exam #2 (20% of final grade if not lowest)	Friday, October 16 at 2:25pm In Person on UNT's Denton Campus: Sage Hall Room 331
10	Chapter 9: The Master/Comprehensive Budget**	Sunday, October 25
11	Chapter 10: Performance Evaluation**	Sunday, November 1
	Deadline to Drop Course for a W	Friday, November 6
12	Chapter 11: Standard Costs and Variances**	Sunday, November 8
