

MATH 1710.621
Calculus I (TAMS)

Fall 2022

MWF 11:00–11:50 AM, H 9:30–10:50 AM

Instructor: Dr. Huguette Tran
Pronouns: she/her/hers
Office Hours: M 11:00–11:50 AM
W 11:00–11:50 Am
F 11:00–11:50 Am
Thursday 8:00–9:20 Am
(or by appointment)
Office: GAB 421
Email: huguette.tran@unt.edu

Course Description: Limits and continuity; derivatives and integrals; differentiation and integration of polynomial, rational, trigonometric, and algebraic functions; applications, including slope, velocity, extrema, area, volume and work.

Textbook: *Calculus*, 9th edition, by James Stewart, Daniel K. Clegg, and Saleem Watson, Cengage, 2021. An electronic version of the textbook is included with WebAssign. You should activate your Cengage Unlimited code as soon as possible so that you can start working on the first homework assignment.

Technology: You may use a calculator on homework assignments, but not on quizzes or exams. Some homework questions in WebAssign will require you to scan your handwritten solutions using [Google Drive](#), Microsoft [OneDrive](#), iOS [Notes](#), or other [scanning app](#). I will use the online graphing calculator [Desmos](#) to demonstrate selected topics in class.

Class Recordings: Synchronous (live) sessions in this course may be recorded for students enrolled in this class section to refer to throughout the semester. Class recordings are the intellectual property of the university or instructor and are reserved for use only by students in this class and only for educational purposes. Students may not post or otherwise share the recordings outside the class, or outside the Canvas Learning Management System, in any form. Failing to follow this restriction is a violation of the UNT Code of Student Conduct and could lead to disciplinary action.

Communication: There are several ways to contact me.

1. If you have a question about a specific homework problem, come to my office hours. That means you should not wait until the last minute to do your homework.
2. If you have a general question or concern, please send me a Canvas message or an email with “MATH 1710.621” in the subject line. *To protect your privacy, questions about your academic performance must come from your UNT email account.*

Grading Policy: Your course grade will be computed as follows:

Homework	10%
Quizzes	15%
Exams (3)	50%
Final Exam	25%

How to Study: Mathematics is a skill that requires practice to develop. It is also a language with its own rules and conventions. In order to master the course material, you must exert consistent effort throughout the semester.

- Read the relevant section of the textbook prior to each class period.
- Start working on each homework assignment immediately.
- Come to office hours if you don't understand something we covered in class.

Attendance: Required. More than five unexcused absences may lower your grade. Please notify me in advance if you expect to miss class.

Homework: Homework will be completed using WebAssign.

- Students may work together on homework, but you should make an honest attempt to solve each problem on your own. You should *not* copy the solution to a problem directly from your classmate's paper or the solutions manual.
- When computing your homework average at the end of the semester, I will drop the **two** lowest homework scores so that your grade will not be affected if you get sick, a family emergency arises, etc. You will still be responsible for the material contained in such assignments during quizzes and exams, however.

Quizzes: Quizzes will be given approximately once per week. Quiz problems will be similar to examples in the textbook and/or problems on previous homework assignments. I will drop your **two** lowest quiz scores at the end of the semester.

Exams: If you miss an exam, a score of zero will be recorded and your academic counselor will be notified. Your score on the final exam will replace your lowest exam score if the final exam score is higher, unless you receive a zero on an exam for cheating.

Everything that I say in class is fair game for exam material. Furthermore, I reserve the right to test your ability to solve generalizations of the material covered in class or the textbook. In short, problems on the exams may not look exactly like the examples presented in class or the assigned homework exercises.

Final Exam: A comprehensive final exam will be held on Saturday, 12/10/2022 @ 8:00–10:00 AM.

Students with Disabilities: The University of North Texas makes reasonable academic accommodation for students with disabilities. Students seeking reasonable accommodation must first register with the Office of Disability Access (ODA) to verify their eligibility. If a disability is verified, the ODA will provide you with a reasonable accommodation letter to be delivered to faculty to begin a private discussion regarding your specific needs in a course. You may request reasonable accommodations at any time, however, ODA notices of reasonable accommodation should be provided as early as possible in the semester to avoid any delay in implementation. Note that students must obtain a new letter of reasonable accommodation for every semester and must meet with each faculty member prior to implementation in each class. Students are strongly encouraged to deliver letters of reasonable accommodation during faculty office hours or by appointment. Faculty members have the authority to ask students to discuss such letters during their designated office hours to protect the privacy of the student. For additional information, refer to the Office of Disability Access website at <https://studentaffairs.unt.edu/office-disability-access>. You may also contact ODA by phone at (940) 565-4323.

Academic Dishonesty: Students caught cheating or plagiarizing will be subject to any penalty the instructor deems appropriate, ranging from receiving 0 (zero) points on that particular assignment to course failure. Additionally, the incident will be reported to the Office of Academic Integrity, who may impose further penalty.

According to the UNT catalog, the term “cheating” includes, but is not limited to:

- (a) use of any unauthorized assistance in taking quizzes, tests, or examinations;
- (b) dependence upon the aid of sources beyond those authorized by the instructor in writing papers, preparing reports, solving problems, or carrying out other assignments;
- (c) the acquisition, without permission, of tests or other academic material belonging to a faculty or staff member of the university;
- (d) dual submission of a paper or project, or resubmission of a paper or project to a different class without express permission from the instructor(s); or
- (e) any other act designed to give a student an unfair advantage.

Furthermore, attempts to circumvent LockDown Browser or Monitor (e.g., obstructing your webcam or microphone) during a quiz or exam will automatically be considered cheating.

The term “plagiarism” includes, but is not limited to:

- (a) the knowing or negligent use by paraphrase or direct quotation of the published or unpublished work of another person without full and clear acknowledgment; and
- (b) the knowing or negligent unacknowledged use of materials prepared by another person or agency engaged in the selling of term papers or other academic materials.

Acceptable Student Behavior: Student behavior that interferes with an instructor’s ability to conduct a class or other students’ opportunity to learn is unacceptable and disruptive and will not be tolerated in any instructional forum at UNT. Students engaging in unacceptable behavior will be directed to leave the classroom and the instructor may refer the student to the Dean of Students to consider whether the student’s conduct violated the Code of Student Conduct. The University’s expectations for student conduct apply to all instructional forums, including University and electronic classroom, labs, discussion groups, field trips, etc. Visit UNT’s Code of Student Conduct (<https://deanofstudents.unt.edu/conduct>) to learn more.

Access to Information — Eagle Connect: Your access point for business and academic services at UNT occurs at my.unt.edu. All official communication from the university will be delivered to your Eagle Connect account. For more information, please visit the website that explains Eagle Connect and how to forward your e-mail: eagleconnect.unt.edu.

Emergency Notification & Procedures: UNT uses a system called Eagle Alert to quickly notify students with critical information in the event of an emergency (i.e., severe weather, campus closing, and health and public safety emergencies like chemical spills, fires, or violence). In the event of a university closure, please refer to Canvas for contingency plans for covering course materials.”

Retention of Student Records: Student records pertaining to this course are maintained in a secure location by the instructor of record. All records such as exams, answer sheets (with keys), and written papers submitted during the duration of the course are kept for at least one calendar year after course completion. Course work completed via the Blackboard online system, including grading information and comments, is also stored in a safe electronic environment for one year. You have a right to view your individual record; however, information about your records will not be divulged to other individuals without proper written consent. You are encouraged to review the Public Information Policy and the Family Educational Rights and Privacy Act (FERPA) laws and the university's policy in accordance with those mandates at the following link: essc.unt.edu/registrar/ferpa.html.

Student Evaluation of Instruction: Student feedback is important and an essential part of participation in this course. The student evaluation of instruction is a requirement for all organized classes at UNT. This short survey will be made available at the end of the semester to provide you with an opportunity to evaluate how this course is taught.

Succeed at UNT: UNT endeavors to offer you a high-quality education and to provide a supportive environment to help you learn and grow. As a faculty member, I am committed to helping you be successful as a student. Here's how to succeed at UNT: Show Up. Find support. Get advised. Be prepared. Get involved. Stay focused.
