Spring 2021

Recitation Information

Recitation Instructor: Xuan Nguyen
Recitation Section: MATH 1710.123
Associated with: MATH 1710.120
Times: Tuesday/Thursday 5:30 – 6:20 PM via Zoom

Instructor Contact

Office Location: GAB 401

Office Hours: by appointment

Email: xuannguyen2@my.unt.edu

Communication Expectations: When sending an email, include course name, number and section, along with your full name in the subject header. A response will be sent in a timely manner but may occasionally take up to two (2) business days.

Course Description

Limits and continuity, derivatives, and integrals; differentiation and integration of polynomial, rational, trigonometric, and algebraic functions; applications, including slope, velocity, extrema, area, volume, and work.

Course Structure

Each week you will attend recitation twice. The course has 15 weeks of content, with a new module opened each week. You will also have two assignments each week from recitation: a worksheet assigned on Thursday and due Friday night, and a quiz which will be administered and due on Tuesday.

Activities and Assessment

Recitation assignments comprise 10% of your course graded. Recitation worksheets and quizzes are equally weighted. Because late work is not accepted for any reason whatsoever, at the end of the term, two (2) lowest worksheet grades and two (2) lowest quiz grades will be dropped.

Attendance Policy	Class attendance is mandatory. Students are responsible for all information given in class, regardless of his/her attendance.
Classroom Expectations	Students are expected to behave appropriately while in the classroom. Please refer to the Code of Student Conduct for more information, https://deanofstudents.unt.edu/conduct/academic-rights . Note that cell phone use is considered a distraction in the classroom and will not be tolerated.
Syllabus Change	This syllabus is subject to change as the instructor deems necessary. Any/all changes will be announced during regular class time. It is the responsibility of the student to attend each scheduled class to be informed of these changes.
Student Responsibility	You are responsible for meeting all university deadlines, such as: registration, fee payment, drop deadlines, etc. Refer to the printed Schedule of Classes and/or University Catalog for policies and dates.
ADA Policy	UNT makes reasonable academic accommodation for students with disabilities. Students seeking accommodation must first register with the Office of Disability Accommodation (ODA) to verify their eligibility. If a disability is verified, the ODA will provide a student with an accommodation letter to be delivered to faculty to begin a private discussion regarding one's specific course needs. Students may request accommodations at any time; however, ODA notices of accommodation should be provided as early as possible in the semester to avoid any delay in implementation. Note that students must obtain a new letter of accommodation for every semester and must meet with each faculty member prior to implementation in each class. For additional information see the ODA website at disability.unt.edu . You may also contact the ODA by phone at (940)565-4323.
Student Perceptions of Teaching (SPOT)	Student feedback is important and an essential part of participation in this course. The student evaluation of instruction is a requirement for all organized classes at UNT. The survey will be made available during weeks 13, 14 and 15 of the long semesters to provide students with an opportunity to evaluate how this course is taught. Students will receive an email from "UNT SPOT Course Evaluations via IASystem Notification" (no-reply@iasystem.org) with the survey link. Students should look for the email in their UNT email inbox. Simply click on the link and complete the survey. Once students complete the survey they will receive a confirmation email that the survey has been submitted. For additional information, please visit the SPOT website at http://spot.unt.edu/ or email spot@unt.edu .
