

## **MRTS 5660: INDUSTRY TOPICS: CONTEMPORARY TV**

University of North Texas

Spring 2022

Professor: Dr. Jennifer Porst  
Class: M 2P – 4:50P

Email: jennifer.porst@unt.edu  
Office Hours: 5-6P and by appointment

### **Graduate Student Addendum**

This class “meets with” MRTS 4450, an advanced undergraduate class dedicated to the same topic. Graduate students in this class are expected to complete the same course requirements as are students in 4450, with the following exceptions:

1. In addition to the regularly assigned homework, graduate students will read scholarly book chapters and journal articles selected by the graduate students.
2. Use Perusall to co-read and annotate the additional grad readings. Engage in a virtual conversation about the reading via those annotations. This work will be evaluated based on the quality of the annotations and follow up in-person discussions.
3. Additional grad only meetings to discuss readings and final projects immediately following our class meetings: 1/24, 1/31, 3/7, 4/18, and 5/2.
4. Complete a 10-12 page final project that focuses on a topic of the student’s choosing.
