**PREREQUISITE**
Successful completion of PDS I and current placement in a field site for student teaching.

**COURSE DESCRIPTION**
Inquiry into Classroom Practice is a required component of the PDS II experience and is taken concurrently with student teaching. The purpose of this course is to provide Interns with the opportunity to synthesize their student teaching experience through inquiry into their own teaching. Through the seminar, interns will strengthen the ability to be a reflective practitioner of: content and curriculum knowledge, pedagogy and assessment knowledge, equity for all learners, encouragement of diversity, professional communication, and engaged professional learning as outlined in the conceptual framework.

**COMMUNICATION**
Communication with the instructor is critical for success in this course, especially as you navigate through your Teacher Research Project (TRP). Please contact me via UNT Email (jeannette.ginther@unt.edu) or via Canvas Inbox message. Please consider that messages sent on weekends and/or after 4:00pm on weekdays may not receive a reply until the next weekday.

**GOALS**
1. Develop a research mindset that supports critical inquiry.
2. Support Interns as they inquire into their own teaching in order to bolster their reflective practices and enhance professional growth.
3. Enhance on-going collegial interactions that model professional learning communities.
4. Promote passion for teaching and learning through an engaging classroom.
5. Gain in-depth experience with identifying and responding to student strengths and needs.

**OUTCOMES**
As 21st Century Teachers the Interns will be able to:
1. Develop curriculum that demonstrates strong content knowledge and skills as a decision maker who knows how to adjust the environment, content, materials, and activities in order to address the needs of all students.
2. Exhibit appropriate communication in a variety of settings to a wide array of audiences --- students, peers, mentors, administrators, parents, and other community members.
3. Demonstrate and model the ability to problem solve through classroom research.
4. Establish reflective practices that support lifelong learning.
ASSIGNMENTS

Online Learning Experiences and Participation – 20%
You will be asked to share and provide feedback to your classmates both in-person and online. Your attendance in-person and your online activity are an important factor in your learning this semester. Being a contributing member of the class is important to the rest of us, as well as your grade. Your ability to reflect on your own/your classmates’ experiences will greatly impact your ability to grow as a teacher.

Teacher Research Project – 50%
You will receive specific instructions to complete this project. Some general expectations include:

- **Contextual Factors** --- All sections of the chart need to have information. There should be no blank spaces. After the chart is completed, you should give a brief description of each individual student. Once you have completed the students, you should include a paragraph that provides a summary of your thoughts on the influence of the Contextual Factors on planning and implementing instruction.

- **Learning Goals** --- Your goals are built on the TEKS Standards. They should be developed according to the Mager’s format.

- **Assessment Plan** --- Be sure to use a variety of assessments. Think about the ways that different assessments address the different needs of the students. Keep your Contextual Factors in mind. “Observe” is not an assessment. If you are going to observe, then you will need to be specific about the criteria that you are looking for – create a checklist of some kind. You need to include examples of your assessments.

- **Design for Instruction** --- This section should begin with the scores from the pre-test. The scores should inform your knowledge of the strengths and needs of the students. The pre-test is not a day of instruction in the unit. When you respond to the questions in this section, remember that you need to use the scores to help you provide the support for the claims that you are making about the students’ abilities. Use the data to help you support your statements. Your unit of instruction needs to include 4 lesson plans. This means 4 separate plans --- not one plan over 4 days. Some lessons may last more than one day --- but you still need 4 separate plans.

- **Instructional Decision Making** --- Be thorough with your explanation about changes that you made. Use your lesson plan reflections to help provide a thorough explanation of the changes. Read your work carefully to ensure that you are answering the question.

- **Analysis of Student Learning** --- Remember that this section starts by graphing your results from assessments. Use the Excel graphmaker to track the grades and be sure that you do the graphs for all of the assessments and for the subgroups. You need to include examples of the students’ assessments. When you address the students who did not attain mastery, be sure to be specific about the type of intervention that is provided. It is more than Reteach. Be specific discussing why you think that the assessments are valid.

- **Reflection** --- For each of these questions, you need to be specific. Tell what you learned and how you knew you learned it. With regard to how you will develop as a teacher, remember that you should identify organizations, professional development, materials that you can use. What actions can you take? How can you continue to improve your teaching skills?

Planning for Success – 30%
The goal of this assignment is to present yourself to a variety of audiences. In this assignment you will develop a resume and letter of introduction for future employers, introduction to your future students, your beliefs, principles, and practices about teaching and learning, your classroom expectations for your students, and sample lessons. Create a website to share with your future employee, colleagues, parents, and students. Think about the various audiences with whom you will communicate – parents, students, administrators, community leaders, etc. So your format should appeal to a wide range of audiences and clearly demonstrate who you are as an educator.

## ATTENDANCE

Students are expected to attend 6 in-person class meetings and to abide by the attendance policy established for the course which allows one (1) absence from an in-person meeting. It is important that you communicate with the professor prior to being absent, so you and the professor can mitigate the impact of the absence on your attainment of course learning goals. Please inform the professor if you are unable to attend class meetings because you are ill, in mindfulness of the health and safety of everyone in our community. If you are experiencing any symptoms of COVID-19 ([https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html](https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html)) please seek medical attention from the Student Health and Wellness Center (940-565-2333 or askSHWC@unt.edu) or your health care provider PRIOR to coming to campus. UNT also requires you to contact the UNT COVID Team at COVID@unt.edu for guidance on actions to take due to symptoms, pending or positive test results, or potential exposure.
EDUCATOR STANDARDS ADDRESSED IN THIS COURSE
The UNT Educator Preparation Program curriculum includes alignment to standards identified by the Texas State Board of Educator Certification (SBEC) for beginning educators. These standards are addressed throughout your preparation and assessed through the TExES Certification exams required for your teaching certificate. Additionally, the Commissioner of TEA has adopted these rules pertaining to Texas teaching standards:

Texas Teaching Standards
Standards required for all Texas beginning teachers fall into the following 6 broad categories:
- Standard 1--Instructional Planning and Delivery
- Standard 2--Knowledge of Students and Student Learning
- Standard 3--Content Knowledge and Expertise
- Standard 4--Learning Environment
- Standard 5--Data-Driven Practice
- Standard 6--Professional Practices and Responsibilities

UNT TEACHER EDUCATION PROGRAM
COMMITMENTS

While teaching has always been a relational and intellectual endeavor, we acknowledge that teaching is also both an ethical and a political act. We recognize that many of the practices and traditions in schools today perpetuate long-seated historical and social oppressions. These social inequities are structural and socially constructed along dimensions of intersecting identities, including, but not limited to, race, color, ethnicity, national origin and identity, dis/ability, gender identity and expression, sex, sexual orientation, religion, immigration status, language, social class, age, and genetic orientation.

It is through our radical imaginations that we can create spaces for critical inquiry and engagement in schools at multiple levels: intellectual, ethical, physical, social, emotional, ecological, and aesthetic. We envision classrooms to be inclusive places that serve as complex and just ecosystems that allow for multiple identities, modes of expression, and ways of engagement to thrive together. We do this because we are committed to dismantling oppression. Teachers play an important role in this movement. Our teacher education program supports the development of core values related to:

- **Identity.** Preparing teachers who have agency and critically reflect on their lived experiences and identities as a way of informing their professional knowledge and humanizing pedagogies.
- **Inquiry.** Preparing teachers who value and inquire into the complex identities, as well as intellectual and transformational capacities, of children and youth.
- **Activism.** Preparing teachers who create curriculum that responds to children’s and youth’s inquiries and identities, as well as the sociopolitical and socioeconomic conditions of the world outside of schools—in neighborhoods, communities, and society-at-large.
- **Community.** Preparing teachers who recognize and honor the unique sociocultural experiences and communities of children and youth with whom they work.

We commit to teaching and teacher preparation that takes a transformative stance toward school change. We believe—acting in solidarity with teachers, children, youth, school leaders, and communities—we can radically reimagine and reconstruct schools and, thus, our society.

**Ethical Behavior and Code of Ethics:** The Teacher Education & Administration Department expects that its students will abide by the Code of Ethics and Standard Practices for Texas Educators (Chapter 247 of the Texas Administrative Code www.sbec.state.tx.us) and as outlined in Domain IV: Fulfilling Professional Roles and Responsibilities of the Pedagogy and Professional Responsibilities (PPR) Texas Examination of Educator Standards (TExES); and as also addressed in codes of ethics adopted by professionals in the education field such as the National Education Association (NEA) and the American Federation of Teachers (AFT).

**Submitting Work:** All assignments are submitted to Canvas. Assignments posted after the deadline will be considered late and points will be deducted from the final grade. The amount of points may vary depending on the assignment. Late exam submissions will lose one point per minute late. Late assignments may lose up to 10 points per day. Remember that lateness with assignments impacts your participation.

**Grading and Grade Reporting:** Grading rubrics for all assignments can be found on the course Canvas website with the assignment. Students are encouraged to review the grading rubrics to guide them in successfully completing all assignments.
Writing Policy: Teachers are judged on the accuracy of everything they write, whether it is a letter to parents or an email to a principal or a worksheet for students. Your written products – including, but not limited to, papers, lesson plans, and emails – should include appropriate and accurate spelling, grammar, punctuation, syntax, format, and English usage. You should expect that all assignments will be evaluated on these writing skills, in addition to any other expectations of a particular assignment.

Written Assignments: All assignments within this course will utilize APA (6th Ed.) formatting guidelines.

DEPARTMENT OF TEACHER EDUCATION AND ADMINISTRATION:
PREPARING TOMORROW’S EDUCATORS AND SCHOLARS

The Department of Teacher Education and Administration seeks to improve educational practice through the generation of knowledge and to prepare education professionals who serve all students in an effective, inclusive and equitable manner. Its focus is on the preparation of highly competent educators, researchers and administrators who employ current theory and research as they fill these important roles.

Mission
The Department of Teacher Education and Administration integrates theory, research, and practice to generate knowledge and to develop educational leaders who advance the potential of all learners.

Vision
We aspire to be internationally recognized for developing visionary educators who provide leadership, promote social justice, and effectively educate all learners.

UNT’S COURSE POLICIES
Face Coverings
UNT encourages everyone to wear a face covering when indoors, regardless of vaccination status, to protect yourself and others from COVID infection, as recommended by current CDC guidelines. Face covering guidelines could change based on community health conditions.
**Attendance.** Students are expected to attend class meetings regularly and to abide by the attendance policy established for the course. It is important that you communicate with the professor and the instructional team prior to being absent, so you, the professor, and the instructional team can discuss and mitigate the impact of the absence on your attainment of course learning goals. Please inform the professor and instructional team if you are unable to attend class meetings because you are ill, in mindfulness of the health and safety of everyone in our community. If you are experiencing any symptoms of COVID-19 ([https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html](https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html)) please seek medical attention from the Student Health and Wellness Center (940-565-2333 or askSHWC@unt.edu) or your health care provider PRIOR to coming to campus. UNT also requires you to contact the UNT COVID Team at COVID@unt.edu for guidance on actions to take due to symptoms, pending or positive test results, or potential exposure.

**Course Materials for Remote Instruction.** Remote instruction may be necessary if community health conditions change or you need to self-isolate or quarantine due to COVID-19. Students will need access to a [webcam and microphone – faculty member to include what other basic equipment is needed] to participate in fully remote portions of the class. Additional required classroom materials for remote learning include: [list specific software, supplies, equipment or system requirements needed for the course]. Information on how to be successful in a remote learning environment can be found at [https://online.unt.edu/learn](https://online.unt.edu/learn)

**UNT’S STANDARD SYLLABUS STATEMENTS**

**Academic Integrity Standards and Consequences.** According to UNT Policy 06.003, Student Academic Integrity, academic dishonesty occurs when students engage in behaviors including, but not limited to cheating, fabrication, facilitating academic dishonesty, forgery, plagiarism, and sabotage. A finding of academic dishonesty may result in a range of academic penalties or sanctions ranging from admonition to expulsion from the University.

**ADA Accommodation Statement.** UNT makes reasonable academic accommodation for students with disabilities. Students seeking accommodation must first register with the Office of Disability Accommodation (ODA) to verify their eligibility. If a disability is verified, the ODA will provide a student with an accommodation letter to be delivered to faculty to begin a private discussion regarding one’s specific course needs. Students may request accommodations at any time, however, ODA notices of accommodation should be provided as early as possible in the semester to avoid any delay in implementation. Note that students must obtain a new letter of accommodation for every semester and must meet with each faculty member prior to implementation in each class. For additional information see the ODA website at disability.unt.edu.

**Course Safety Procedures (for Laboratory Courses).** Students enrolled in [insert class name] are required to use proper safety procedures and guidelines as outlined in UNT Policy 06.038 Safety in Instructional Activities. While working in laboratory sessions, students are expected and required to identify and use proper safety guidelines in all activities requiring lifting, climbing, walking on slippery surfaces, using equipment and tools, handling chemical solutions and hot and cold products. Students should be aware that the UNT is not liable for injuries incurred while students are participating in class activities. All students are encouraged to secure adequate insurance coverage in the event of accidental injury. Students who do not have insurance coverage should consider obtaining Student Health Insurance. Brochures for student insurance are available in the UNT Student Health and Wellness Center. Students who are injured during class activities may seek medical attention at the Student Health and Wellness Center at rates that are reduced compared to other medical facilities. If students have an insurance plan other than Student Health Insurance at UNT, they should be sure that the plan covers treatment...
at this facility. If students choose not to go to the UNT Student Health and Wellness Center, they may be transported to an emergency room at a local hospital. Students are responsible for expenses incurred there.

**Emergency Notification & Procedures.** UNT uses a system called Eagle Alert to quickly notify students with critical information in the event of an emergency (i.e., severe weather, campus closing, and health and public safety emergencies like chemical spills, fires, or violence). In the event of a university closure, please refer to Blackboard for contingency plans for covering course.

---

**DEPARTMENT SYLLABUS STATEMENTS**

**Foliotek ePortfolio** (where applicable). Foliotek is a software data management system (DMS) used in the assessment of your knowledge, skills, and dispositions relevant to program standards and objectives. You will be required to use your Foliotek account for the duration of your enrollment in the College of Education in order to upload required applications, course assignments, and other electronic evidences/evaluations as required. This course may require assignment(s) to be uploaded and graded in Foliotek. The College of Education will track your progress in your program through this data to verify that you have successfully met the competencies required in your program of study. All students must register in the program portfolio that aligns with their degree plan. Registration codes and tutorials can be found on this site: [https://coe.unt.edu/educator-preparation-office/foliotek](https://coe.unt.edu/educator-preparation-office/foliotek)

**Student Evaluation Administration Dates.** Student feedback is important and an essential part of participation in this course. The student evaluation of instruction is a requirement for all organized classes at UNT. The survey will be made available during weeks 13, 14 and 15 of the long semesters to provide students with an opportunity to evaluate how this course is taught. Students will receive an email from "UNT SPOT Course Evaluations via iASystem Notification" ([no-reply@iasystem.org](mailto:no-reply@iasystem.org)) with the survey link. Students should look for the email in their UNT email inbox. Simply click on the link and complete the survey. Once students complete the survey, they will receive a confirmation email that the survey has been submitted. For additional information, please visit the SPOT website at [www.spot.unt.edu](http://www.spot.unt.edu) or email [spot@unt.edu](mailto:spot@unt.edu).

**Sexual Assault Prevention.** UNT is committed to providing a safe learning environment free of all forms of sexual misconduct. Federal laws and UNT policies prohibit discrimination on the basis of sex as well as sexual misconduct. If you or someone you know is experiencing sexual harassment, relationship violence, stalking and/or sexual assault, there are campus resources available to provide support and assistance. The Survivor Advocates can be reached at SurvivorAdvocate@unt.edu or by calling the Dean of Students Office at 940-565-2648.

---

**TEACHER EDUCATION & ADMINISTRATION DEPARTMENTAL POLICY STATEMENTS**

**Disabilities Accommodation:** “The University of North Texas complies with Section 504 of the 1973 Rehabilitation Act and with the Americans with Disabilities Act of 1990. The University of North Texas provides academic adjustments and auxiliary aids to individuals with disabilities, as defined under the law. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring accommodation, please see the instructor and/or contact the Office of Disability Accommodation at 940-565-4323 during the first week of class.”
**Observation of Religious Holidays:** If you plan to observe a religious holy day that coincides with a class day, please notify your instructor as soon as possible.

**Academic Integrity:** Students are encouraged to become familiar with UNT’s policy on Student Standards of Academic Integrity: [http://policy.unt.edu/sites/default/files/untpolicy/pdf/7-Student_Affairs-Academic_Integrity.pdf](http://policy.unt.edu/sites/default/files/untpolicy/pdf/7-Student_Affairs-Academic_Integrity.pdf) Academic dishonesty, in the form of plagiarism, cheating, or fabrication, will not be tolerated in this class. Any act of academic dishonesty will be reported, and a penalty determined, which may be probation, suspension, or expulsion from the university.

**Acceptable Student Behavior:** Student behavior that interferes with an instructor’s ability to conduct a class or other students’ opportunity to learn is unacceptable and disruptive and will not be tolerated in any instructional forum at UNT. Students engaging in unacceptable behavior will be directed to leave the classroom and the instructor may refer the student to the Dean of Students to consider whether the student's conduct violated the Code of Student Conduct. The university's expectations for student conduct apply to all instructional forums, including university and electronic classroom, labs, discussion groups, field trips, etc. The Code of Student Conduct can be found at [https://deanofstudents.unt.edu/conduct](https://deanofstudents.unt.edu/conduct)

**Attendance:** See the instructor’s attendance policy.

**Eagle Connect:** All official correspondence between UNT and students is conducted via Eagle Connect and it is the student's responsibility to read their Eagle Connect Email regularly.

**Cell Phones and Laptop:** Students should turn off cell phones when they are in class unless the phones are being used for learning activities associated with the course. During Face-to-face classes laptops may be used for notetaking and class participation. Being on email/twitter/facebook/internet during class is unacceptable.

**SPOT:** The SPOT is expected for all organized classes at UNT. This brief online survey will be made available to you at the end of the semester, providing you a chance to comment on how this class is taught. I am very interested in the feedback I get from students, as I work to continually improve my teaching. I consider the SPOT to be an important part of your participation in this class.

**Collection of Student Work:** In order to monitor students’ achievement, improve instructional programs, and publish research findings, the Department of Teacher Education and Administration collects anonymous student work samples, student demographic information, test scores, and GPAs to be analyzed by internal and external reviewers.

**TK20:** Some undergraduate and graduate education courses require assignments that must be uploaded and assessed in the UNT TK20 Assessment System. This requires a one-time purchase of TK20, and student subscriptions are effective for seven years from the date of purchase. Please go to the following link for directions on how to purchase TK20: [http://www.coe.unt.edu/tk20-campus-tools](http://www.coe.unt.edu/tk20-campus-tools) Announcements regarding TK20 will also be posted on this website.

**Comprehensive Arts Program Policy.** The Elementary Education program area supports a comprehensive arts program to assist preservice and inservice teachers to design and implement curricular and instructional activities which infuse all areas of the arts (visual, music, theater, and movement) throughout the elementary and middle school curriculum.
Technology Integration Policy. The Elementary, Secondary, and Curriculum & Instruction program areas support technology integration to assist preservice and inservice teachers to design and implement curricular and instruction activities which infuse technology throughout the K-12 curriculum.

TExES Test Preparation. To meet state requirements for providing 6 hours of test preparation for teacher certification candidates, the UNT TExES Advising Office (TAO) administers the College of Education TExES Practice Exams. Students who want to take a practice exam should contact the TAO (Matthews Hall 103). Students may take up to two exams per session that relate to their teaching track/field at UNT. Students should also plan accordingly, as they are required to stay for the entire testing period. Current students must meet the following criteria in order to sit for the TExES practice exams: Students must (1) be admitted to Teacher Education, (2) have a certification plan on file with the COE Student Advising Office, and (3) be enrolled in coursework for the current semester. For TExES practice exam information and registration, go to: http://www.coe.unt.edu/texes-advising-office/texes-exams If you need special testing accommodations, please contact the TAO at 940-369-8601 or e-mail the TAO at coe-tao@unt.edu. The TAO website is www.coe.unt.edu/texes. Additional test preparation materials (i.e. Study Guides for the TExES) are available at www.texas.ets.org

“Ready to Test” Criteria for Teacher Certification Candidates. Teacher certification candidates should take the TExES exams relating to their respective certification tracks/teaching fields during their early-field-experience semester (i.e. the long semester or summer session immediately prior to student teaching).

Six Student Success Messages. The Department of Teacher Education & Administration supports the six student success messages on how to succeed at UNT: (1) Show up; (2) Find support; (3) Take control; (4) Be prepared; (5) Get involved; and (6) Be persistent. Students are encouraged to access the following website: https://success.unt.edu. The site contains multiple student resource links and short videos with student messages.
Objectives Written According to Mager’s Format

Mager’s behavioral objectives have three parts:

1. An observable behavior
2. The conditions under which the behavior will occur
3. Criteria for acceptable performance

Examples of objectives written according to Mager’s format are listed in the following table:

<table>
<thead>
<tr>
<th>Objective</th>
<th>Condition</th>
<th>Performance</th>
<th>Criteria</th>
</tr>
</thead>
<tbody>
<tr>
<td>Given a list of sentences, the student will identify the adjective in each sentence.</td>
<td>Given a list of sentences</td>
<td>Identify</td>
<td>Each</td>
</tr>
<tr>
<td>Given 10 problems involving subtraction with regrouping, the student will correctly solve 7.</td>
<td>Given 10 problems</td>
<td>Solve</td>
<td>7 of 10</td>
</tr>
<tr>
<td>Given a ruler and compass, the student will construct the bisector of an angle to within 1°</td>
<td>Given a ruler and a compass</td>
<td>Construct</td>
<td>Within 1°</td>
</tr>
</tbody>
</table>
ENGAGE

Pique students’ interest and get them personally involved in the lesson while pre-assessing prior understanding. Students are introduced to the instructional task during the ENGAGE stage. They make connections between past and present learning experiences and think about what they’ll learn during the upcoming activities. Energy4me activities are designed to ENGAGE students. Through activities and experiments, the lesson plans stimulate students’ curiosity and encourage them to ask their own questions. These should be active not passive (students watching a video).

EXPLORATION

Get students involved in the topic so they can develop their own understanding. EXPLORATION experiences provide students activities that help them identify and improve upon current concepts (i.e., misconceptions), processes and skills. Learners have hands-on fun in lab activities that help them use prior knowledge to generate new ideas, explore questions and possibilities, and design and conduct a preliminary investigation. The teacher acts as a facilitator, providing materials and guiding the students’ focus.

EXPLAIN

Provide students with an opportunity to communicate what they have learned and figure out what it means. During the EXPLAIN stage, students begin to communicate what they have learned by demonstrating their conceptual understanding, process skills or behaviors. Students share ideas with each other and with their teacher, who provides an explanation of the curriculum that is meant to guide them toward a deeper understanding. These segments introduce vocabulary in context and correct or redirect misconceptions.

ELABORATION

Allow students to use their new knowledge and continue to develop a deeper and broader understanding. During the ELABORATION stage, students expand on the concepts they have learned, make connections to other related concepts and apply their understandings to the world around them through additional activities. Teachers challenge and extend students’ conceptual understanding and skills.

EVALUATE*

Assess how much learning has taken place. The EVALUATION phase helps students and teachers assess how much learning and understanding has taken place. It allows teachers to evaluate student progress toward achieving the educational objectives.

*Like checking for understanding, assessment can occur at any point during the instructional process but evaluation means that you are making a point to document student learning. We cannot just say observe --- what will you be observing and how will you document this learning?
### UNT Lesson Plan Template (5 E)

<table>
<thead>
<tr>
<th>Pre-service Teacher:</th>
<th>Grade(s):</th>
<th>School/Mentor Teacher (if applicable):</th>
</tr>
</thead>
<tbody>
<tr>
<td>Subject area(s):</td>
<td>Unit Topic/Theme:</td>
<td>Lesson Title:</td>
</tr>
<tr>
<td>Relevant TEKS:</td>
<td>Relevant ELPS:</td>
<td>Relevant TX CCRS:</td>
</tr>
</tbody>
</table>

### Lesson Objective(s)/Performance Outcomes

**Assessment (Description/Criteria)**

**Materials and Resources**

**Management of the Instructional Environment**

**Technology Integration**

**Diversity and Equity (Accommodations, Modifications, Adaptations)**

**Activities/Procedures (5E)** Each of these items should be specific for the lesson. Consider it a script for what you will say and do during the lesson. *Remember that checking for understanding happens throughout the lesson.

- **Engage (must be active)**
- **Explore**
- **Explain**
- **Elaborate**
- **Evaluate**

**Reflections and Documentation/Evidence of Lesson Effectiveness**

Be sure that this is specific.
What happened during the lesson? (Brief summary --- help the reader know how you were able to follow your lesson plan.)

What parts of the lesson led to engagement and student learning?

In thinking about your first two responses --- So What does it mean about your planning? So What does it mean about student learning? So What does it mean about your learning to teach?

Now What did you learn from teaching this lesson that can apply to other lessons? How will you apply what you learned from teaching this lesson to your teaching of future lessons?
Madeleine Hunter Lesson Plan Guidelines

Objectives
Before the lesson is prepared, the teacher should have a clear idea of what the teaching objectives are. What, specifically, should the student be able to do, understand, care about as a result of the teaching. Bloom’s Taxonomy of Educational Objectives which is shown below, gives an idea of the terms used in an instructional objective. See Robert Mager [library catalog] on behavioral objectives if writing specificity is required.

Standards
The teacher needs to know what standards of performance are to be expected and when pupils will be held accountable for what is expected. The pupils should be informed about the standards of performance. Standards: an explanation of the type of lesson to be presented, procedures to be followed, and behavioral expectations related to it, what the students are expected to do, what knowledge or skills are to be demonstrated and in what manner.

Anticipatory Set
Anticipatory set or Set Induction: sometimes called a "hook" to grab the student's attention: actions and statements by the teacher to relate the experiences of the students to the objectives of the lesson. To put students into a receptive frame of mind.

- to focus student attention on the lesson.
- to create an organizing framework for the ideas, principles, or information that is to follow (c.f., the teaching strategy called "advance organizers").
- to extend the understanding and the application of abstract ideas through the use of example or analogy...used any time a different activity or new concept is to be introduced.

Teaching: Input and Modeling
The teacher provides the information needed for students to gain the knowledge or skill through lecture, film, tape, video, pictures, etc.

Once the material has been presented, the teacher models what needs to be done. For example, if you are conducting an experiment --- do it, If you are learning how to write a narrative, write a narrative and talk aloud as you write.

Teaching: Checking for Understanding
Determination of whether students have "got it" before proceeding. It is essential that students practice doing it right so the teacher must know that students understand before proceeding to practice. If there is any doubt that the class has not understood, the concept/skill should be retaught before practice begins.

Questioning strategies: asking questions that go beyond mere recall to probe for the higher levels of understanding...to ensure memory network binding and transfer. Bloom's Taxonomy of Educational Objectives provides a structure for questioning that is hierarchical and cumulative. It provides guidance to the teacher in structuring questions at the level of proximal development, i.e., a level at which the pupil is prepared to cope. Questions progress from the lowest to the highest of the six levels of the cognitive domain of the Taxonomy of Educational Objectives: knowledge, comprehension, application, analysis, synthesis, and evaluation.
This is ongoing and throughout the lesson. You do not spend long periods of time on this but rather, you work through the lesson and observe, notice, and question throughout.

**Guided Practice**

An opportunity to do an example of the information **WITH** the students. **THIS IS NOT STAND AND WATCH THE STUDENTS DO IT.**

**During the lesson --- you do this with the students.**

If you are working on Narrative writing, write a narrative together. If you are learning double digit multiplication, do several problems with the students’ assistance.

**Closure**

Those actions or statements by a teacher that are designed to bring a lesson presentation to an appropriate conclusion. Used to help students bring things together in their own minds, to make sense out of what has just been taught. "Any questions? No. OK, let's move on" is not closure. Closure is used:

- to cue students to the fact that they have arrived at an important point in the lesson or the end of a lesson,
- to help organize student learning,
- to help form a coherent picture, to consolidate, eliminate confusion and frustration, etc.,
- to reinforce the major points to be learned...to help establish the network of thought relationships that provide a number of possibilities for cues for retrieval. Closure is the act of reviewing and clarifying the key points of a lesson, tying them together into a coherent whole, and ensuring their utility in application by securing them in the student's conceptual network.

**Independent Practice – On Your Own**

Once pupils have mastered the content or skill, it is time to provide for reinforcement practice. It is provided on a repeating schedule so that the learning is not forgotten. It may be home work or group or individual work in class. It can be utilized as an element in a subsequent project.

- Input/Modeling
- Guided Practice
- Independent Practice
- Closure

### Reflections and Documentation/Evidence of Lesson Effectiveness

Be sure that this is specific.
What happened during the lesson? (Brief summary --- help the reader know how you were able to follow your lesson plan.)

What parts of the lesson led to engagement and student learning?

In thinking about your first two responses --- So What does it mean about your planning? So What does it mean about student learning? So What does it mean about your learning to teach?

Now What did you learn from teaching this lesson that can apply to other lessons? How will you apply what you learned from teaching this lesson to your teaching of future lessons?
## UNT Lesson Plan Rubric

<table>
<thead>
<tr>
<th>Criteria</th>
<th>The candidate:</th>
<th>Performance Indicators</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Unacceptable Or Not Included</td>
<td>Emerging</td>
</tr>
<tr>
<td>Identification of relevant TEKS</td>
<td>Does not identify and integrate any relevant TEKS.</td>
<td>Identifies and integrates TEKS, with most being minimally or not relevant to the content/skills taught in the lesson.</td>
</tr>
<tr>
<td>Identification of relevant ELPS</td>
<td>Does not identify and integrate any relevant ELPS.</td>
<td>Identifies and integrates ELPS, with most being minimally or not relevant to the language requirements of the lesson.</td>
</tr>
<tr>
<td>Identification of relevant Texas CCRS</td>
<td>Does not identify and integrate any CCRS.</td>
<td>Identifies and integrates CCRS, with most being minimally or not relevant to the content/skills/dispositions taught in the lesson.</td>
</tr>
<tr>
<td>Statement of lesson objectives in the form of performance-based student outcomes</td>
<td>Does not state lesson objectives in the form of performance-based student outcomes; or states lesson objectives without 3 or more of the following: a) are aligned to the lesson activity and assessment, b) include observable, measurable learner behaviors, c) include performance-level or criteria for success, d) include performance conditions, e) use process words related to Bloom’s Taxonomy in describing student performances, and f) are developmentally appropriate.</td>
<td>States lesson objectives in the form of performance-based student outcomes that are missing two of the following: a) are aligned to the lesson activities and assessments, b) include observable, measurable learner behaviors, c) include performance-level or criteria for success, and d) include performance conditions, e) use process words related to Bloom’s Taxonomy in describing student performances, and f) are developmentally appropriate.</td>
</tr>
<tr>
<td>Assessment Description and Procedures</td>
<td>Some learning objectives are assessed. Student performance outcomes and assessment criteria exist, but the approach taken does not communicate these to students.</td>
<td>Most learning objectives of the lesson are clearly assessed. The teacher clearly communicates the student performance outcome and assessment criteria to the students, but does not provide a rubric or listing of specific criteria.</td>
</tr>
<tr>
<td>Description of Lesson Procedures/Activities</td>
<td>Provides lesson procedures/activities that are missing 3 or more of a, b, c, and d; or does not include procedures/activities at all</td>
<td>Provides lesson procedures/activities that are missing two of the following: a) align with the lesson objectives and assessments, b) use short, declarative statements to describe what the teacher and/or students are doing step-by-step, c) provide pertinent details (e.g., concrete examples, sample guided discussion questions, and other ancillary information).</td>
</tr>
<tr>
<td>Identification and Integration of Relevant Materials and Resources</td>
<td>Does not identify and/or describe preparations for any materials or resources relevant to or necessary for the lesson.</td>
<td>Minimally identifies and describes preparations for some of the materials and resources relevant to or necessary for the lesson.</td>
</tr>
<tr>
<td>---</td>
<td>---</td>
<td>---</td>
</tr>
<tr>
<td>Integration of Technology</td>
<td>Instructional design does not include technology or rationale for the exclusion of technology.</td>
<td>Technology is used without due regard to learning outcomes (i.e. it is just an add-on to fulfill the requirement).</td>
</tr>
<tr>
<td>Diversity and Equity</td>
<td>Does not incorporate accommodation or adaptations</td>
<td>Minimally incorporates accommodation or adaptations</td>
</tr>
<tr>
<td>Plan for Management of the Instructional Environment</td>
<td>to address equity through cultural responsiveness and attention to learners’ race, gender, sexual orientation, language, culture, disability, and/or socio-economic status.</td>
<td>to address equity through cultural responsiveness and attention to learners’ race, gender, sexual orientation, language, culture, disability, and/or socio-economic status.</td>
</tr>
<tr>
<td>---</td>
<td>---</td>
<td>---</td>
</tr>
<tr>
<td>Clarity and Correctness in the Written Communication of Ideas</td>
<td>Does not design an instructional environment/management plan; or designs an instructional environment/management plan that fails to engage, motivate, and inspire learners; or the design/plan includes one or more major violations or 3 or more minor violations of sound organizational and/or safety practices.</td>
<td>Designs an instructional environment and management plan that minimally engages, motivates, and inspires learners and that minimally reflects sound organizational and safety practices without major violations and with no more than 2 minor violations.</td>
</tr>
<tr>
<td></td>
<td>Writes a lesson plan that is totally unclear and/or that contains so many major spelling, grammar and/or punctuation errors that the plan is highly unclear.</td>
<td>Writes a lesson plan that is somewhat unclear and/or has many major spelling, grammar, and/or punctuation errors that</td>
</tr>
<tr>
<td>Reflection on lesson implementation</td>
<td>Not Included</td>
<td>Includes a brief description of lesson, briefly describes student learning, and briefly indicates what was learned about teaching.</td>
</tr>
</tbody>
