ARRANGING II (VOCAL)

Description & Objectives of the Course

This class is an introduction to the art of vocal arranging. Analysis of vocal arrangements by arrangers past and present, drills for writing techniques and tools, and two larger writing projects will be the means through which learning will take place. All work must be completed using computer notation, preferably Finale (although Sibelius may be used, just won't be discussed in class). All assignments will be uploaded on Canvas, and it is each student's responsibility to be up-to-date on any changes, announcements, additional assignments, etc., online. The final writing project will be performed and recorded by the students on their own, outside of class.

By the end of this semester, you will be able to:

- Write "stock" voicing like four-way close, drop 2, spread, drop 2 & 4, and maintain a consistent musical dialect within your charts
- Use reharmonization and approach techniques to create more interesting harmonic language
- Recognize characteristics and traits of well-written vocal and vocal/instrumental arrangements
- Learn how to roadmap and be able to write under a strict time deadline with externally imposed limitations and constraints
- Understand the basics of how to make a demo recording of your work
- Understand the basics of publishing and copyright where it concerns arranging, and have the tools to begin self-publishing through the ArrangeMe platform (Sheet Music Plus)

Course Attendance, Grading & Policies

- Due to the compressed nature of the class, absences are not advised. Any absence must be cleared in advance to be considered excused, and unexcused absences will cause a drop of 5 points off the final grade, with each subsequent absence causing a drop of 10 points off the final grade. If there is a medical emergency, the student and instructor will work out a modified due date for the assignment(s) missed ASAP. In the event that you miss class, it is your responsibility to obtain any information missed in class by arranging to have the class video recorded and watching/listening to it on your own time; the instructor and teaching assistant will not conduct a private session to re-teach the material.
- The final semester grade will be calculated as follows:
 1. Class/lab attendance and class participation – 10%
 2. Assignment grades – 60%
 3. Final project – 30% [Score (7%) + MIDI demo (8%) + Parts (10%) + Final recording (5%)]
- Homework, in-class performances or projects that are submitted late will be subject to the following grade reduction:
 - 1 – 2 days late = 10% reduction
 - 3 – 6 days late = 20% reduction
 - 7 – 13 days late = 50% reduction
 - 14+ days late = no credit
- Please silence your cell phone prior to entering the classroom space and put it in an inaccessible place to avoid causing distraction to yourself or anyone else.
- Laptops may be used for note-taking and recording, but no other activities. Students found to be doing so will earn a failing grade for class participation for that day.
- **IMPORTANT NOTE:** Although this syllabus is a guide to our plan for this class, the final word on scheduled assignments, due dates and specific content for each assignment will be on **Canvas**, NOT this syllabus, due to adjustments that will invariably need to be made to accommodate the pace and level of this specific class. It is each student's responsibility to consult the online course to verify each assignment's content and due date.

If you do well in this class, you too can be successful vocal arrangers, like these people!
