NEW COVID-19 MEASURES
Due to concerns over the COVID-19 Delta variant, the university is moving forward with new safety measures knowing there are limitations because of current state mandates.

- **Face Coverings**: President Smatresk is requesting that all students, faculty and staff comply with a new mandate from the city of Denton to wear a face covering indoors. per CDC guidance for our region. All faculty and staff are permitted to make decisions about the use of personal protective measures, as long as those decisions are not imposed on others.

- **Vaccinations**: If you are not vaccinated, you are urged to get vaccinated as soon as possible to protect yourself, your friends and family, and our campus. Vaccines reduce the chance of experiencing severe impacts and minimize transmission. Learn how you can receive one of the approved COVID-19 vaccinations and participate in the UNT Vaccine Incentive Program.

- **Disciplinary Actions for Non-Compliance** Students who fail to comply with the mandatory COVID-19 testing and reporting requirements will go through the Student Conduct Process. This may result in being considered a student not in good standing. A status of "not in good standing" means a student is not fully eligible to participate in university activities and privileges or faces possible separation (i.e. suspension or expulsion) from the university. Please email Student.Affairs@unt.edu with any additional questions.

Case Investigation, Quarantine and Contact Tracing Information
- Students, faculty, and staff will continue to be required to report symptoms and exposure to COVID@unt.edu, quarantine, as necessary, and cooperate with the UNT COVID-19 Contract Tracing Team. In the latest testing guidelines from the CDC Friday, people who do not have symptoms of COVID-19 should still be tested if they have been in close contact with someone who is infected. UNT’s Student Health and Wellness Center offers testing to faculty, staff and students who have been identified by UNT’s Contact Tracing team as a close contact of a UNT positive COVID-19 case. Close contact is defined as being within 6 feet of a COVID-19 patient for at least 15 minutes. Email COVID@unt.edu for guidance regarding symptoms, testing and what to do following potential exposure.
RECENT, ONGOING, AND FUTURE EVENTS: The U.S. continues to feel the impacts of COVID-19 including untold loses and fueling anti-Asian racism, xenophobic violence, discrimination, hostility, and intolerance. Concurrently, society is also reckoning with the painful consequences of long-endured violence against the Black community while also continuing to unravel the genocide of Indigenous Peoples and children within schools. These events have caused, and continue to cause shock, fear, stress, trauma, and pain for many members of our community, and will continue to impact each of us in various ways throughout this term. Under these circumstances (and the innumerable others we might endure as humans), it is completely normal to feel overwhelmed or anxious, and to have difficulty concentrating. I have designed this course with these challenges in mind and am committed to continuing to work with all of you to create a positive and supportive learning environment throughout the term. If your health, well-being, or schoolwork are being impacted, I encourage you to reach out and make use of the resources UNT provides, which I have included in this syllabus.

UNT provides extensive academic supports for students, and these supports are there to let students achieve the academic success they are truly capable of. Most students access them at some point in pursuit of their degree.

Additional Important COVID-19 Information

- Please utilize the free COVID testing available in the Union and the Student Health and Wellness Center if you are symptomatic or believe you may have COVID.
- COVID@unt.edu is monitoring campus COVID cases and answering COVID-related questions.
- The COVID team will continue to track positive cases and report the return to class date to faculty; however, there are changes to the contact tracing process for spring.
- Isolation and quarantine requirements align with new CDC guidelines:
  - COVID-positive individuals isolate for 5 days from the onset of symptoms followed by 5 days of mask-wearing (there are exceptions based on symptoms).
  - The fully vaccinated are still not required to quarantine if exposed and asymptomatic.
  - The non-vaccinated must quarantine for 5 days if exposed.
- Because of the short quarantine period, contact tracers will not identify and communicate with close contacts. For this reason, seating charts and attendance records will not be needed for spring.
- If a student notified the COVID team that they have been exposed to COVID, information will be provided to the student to help identify if they need to quarantine and determine a return date. In these cases, the student is responsible for informing faculty of their absence and determining make-up work.
- Higher absenteeism is expected for spring semester.
  - If staff must be absent due to COVID, caring for a family member with COVID or caring for a child whose school has closed, discuss options remote work or leave with your supervisor.
  - If faculty must be absent due to COVID, caring for a family member with COVID or caring for a child whose school has closed, discuss options for continuity of instruction with your department chair to make a recommendation to dean. The dean will review and make a final decision.
  - If there is significant class absenteeism due to COVID, discuss absenteeism rate and options for continuity of instruction with your department chair. The chair will make a recommendation to the dean. The dean will review and make a final decision.
- Academic Affairs will have increased flexibility for the next two weeks.
  - Deans and vice provosts have increased flexibility to ensure that a mix of virtual and in-person services are available and will be communicating with supervisors regarding workplace assignments for the next two weeks.
  - Faculty office hours may be conducted virtually if preferred, for the next two weeks.
  - Faculty related service assignments may be conducted virtually, as appropriate, for the next two weeks.

Descriptions of Assignments

**TExES Art Content Practice Exam:** Complete the practice test in the 178-practice manual. Exam must be completed by specified date. Once scores are received, students must write, in paragraph form, a one to two-page study/improvement plan, denoting strengths and weaknesses and how/what (websites, books, practice test, ect) you will study to improve score. Alternatively, you can complete the study plan on page 77 of the 178-preparation manual and upload. The practice test manual is located in the modules of the Canvas Course Shell.

**Contemporary Art Lesson Plan & Curriculum Slam Presentation:**
You will use the College of Education (COE) lesson plan format (the template is located in the Canvas course shell) to create an art lesson plan related to contemporary art processes and artists. You will present this lesson during the last class. You will share your lesson plan and teaching demonstration. Sharing your curricular ideas with the class we are calling a curriculum slam. The Curriculum Slam is another name for sharing your lesson and practice teaching with the class. The presentations will be F2F and virtual (Guidelines/rubrics will be posed in the Canvas Course Shell).

In case of a remote pivot, you will virtually submit presentations as prerecorded digital stories (narrated power point/movie/video) of your innovative elementary, middle school or high school lesson plans. Videotaped teacher art demonstration required. Post Completed presentation to discussion board. To reiterate, the curriculum slam presentation is a narrated power point with an embedded video. You are demonstrating how to teach a particular media. Video should also teach relevant artistic vocabulary and demonstrate a particular technique. Use a tripod, the video can focus on just your hand (aerial view) or you can feature yourself in the video.
7 Readings and Reading Responses
Readings will consist of chapters from required texts and PDFs. Students are expected to critically read, take notes and compose a well-developed reading response discussion board post, consisting of three salient takeaways and three questions/wonderings. Minimum word count required.

Mini-Art History Presentation:
The purpose of this assignment is four-fold: (a) TExES test prep (Domain II), (b) a presentation you could use to teach students in the future, (c) a project you could assign to your future students, and (d) enhancing your cultural competency in teaching art. Create a 6 slide, mini-presentation as a narrated Power Point covering one traditional, non-western cultural art practice. Run your choice by the professor. Specificity is key to this undertaking. Get to know the cultural tradition, which specific groups; embrace (d) the tradition and why it is classified as art. Then research the cultural, geographic, and historical contexts of the traditional cultural art practice. Choose exemplar pieces to share and explain any stylistic features and technical components within your slides. Include list of sources within power point. Integrating primary sources (for example, video of process in context) through embedded videos adds a compelling element to your presentation. We will hold a peer review during class time.

VTS Presentation: Chose a narrative artwork (connected to your second lesson plan-from the Engage or Explore phases of the 5E Model). In small groups lead a 10-minute Visual Thinking Strategies (VTS) session. Rubric/Guidelines will be located in Canvas Course Shell.
