

**Course** BCIS 4660.001 & BCIS 5610  
**Course Title** Data Warehousing  
**Professor** Kashif Saeed  
**Term** Summer 2020 5w2  
**Meetings** MW 12:00pm – 3:50pm; Remote via Zoom

---

### Professor's Contact Information

**Office Phone** (940) 565-4769  
**Other Phone**  
**Office Location** BLB 312E  
**Email Address** Kashif.saeed@unt.edu  
**Office Hours** Mondays 4pm-6pm (additional help outside of the office hours available by appointment only)  
**TA Information** TBD  
TA Office hours: Will be posted on Canvas

### General Course Information

<b>Pre-requisites, Co-requisites, &amp; other restrictions</b>	BCIS 3610 and ACCT 2010 & 2020 with grades of C or better; DSCI 3710 or 3870; 2.7 GPA. Grades of C or better in each previously taken BCIS and DSCI course, or consent of department.  BCIS 5610 has no pre-requisites.  <b>This class requires a Windows laptop for hands-on and assignments. Mac users must install a Windows VM.</b>
<b>Course Description</b>	The course covers traditional (non-SAP) data warehousing concepts. We cover Data Modeling (ER and Ralph Kimball Dimensional Modeling) and Business Intelligence in this class. ETL is not covered in detail in this course, however, the instructor will share important details and an optional assignment on ETL.  The course will be divided into 4 major parts: <ol style="list-style-type: none"><li>1. Database fundamentals and ER Modeling</li><li>2. Designing a Data Warehouse using Ralph Kimball methodology</li><li>3. Using a Data Warehouse (examples from Accounting, Finance, HR, and Sales will be covered)</li><li>4. Using a Business Intelligence tool on top of a data warehouse</li></ol>
<b>Key to Success in this course</b>	<ul style="list-style-type: none"><li>• Attend classes and pay attention in the class</li><li>• Take notes – the entire exam will be from topics and discussions covered in the class</li><li>• Good understanding of the assignments – there can be questions in the exams from the assignments</li><li>• If you have doubts, ask questions</li></ul>
<b>Optional Texts &amp; Materials</b>	The books listed below are for <u>reference only</u> . The course is topic based and does not cover a book chapter by chapter. Instructor will provide handouts for each lecture – exams will be from instructor handouts and

	<p>assignments.</p> <ol style="list-style-type: none"> <li>1. Database Refresher and ER Modeling: Database Concepts by David M. Kroenke &amp; David Auer</li> <li>2. Dimensional Modeling: Data warehouse Lifecycle Toolkit by Ralph Kimball</li> <li>3. Data Warehouse Design Solutions by Michael Venerable, Christopher Adamson</li> </ol>
<b>Software Used</b>	<ol style="list-style-type: none"> <li>1. MySQL and MySQL Workbench Download Link will be provided on eLearning</li> <li>2. Microsoft Access Need to be purchased. University has discounted price.</li> <li>3. A Business Intelligence tool of instructor choice Download Link: Will be posted on eLearning</li> <li>4. <b>Lockdown browser</b> <a href="https://clear.unt.edu/supported-technologies/respondus-lockdown-browser">https://clear.unt.edu/supported-technologies/respondus-lockdown-browser</a></li> </ol> <p>Windows laptop required for the software to function. Mac users need to install a Windows VM. The instructor will provide install instructions for the software, however, it is the responsibility of the student to install the software and work with the TA to resolve any issues with software installation.</p>

### Assignments & Academic Calendar

Lecture	Date	Topics to be covered	Description/Tasks	Assignments
1	July 6	<b>Part 1: Database Fundamentals &amp; ER Modeling</b> <ul style="list-style-type: none"> <li>• Introductions and course details</li> <li>• Syllabus overview and expectations</li> <li>• The enterprise data situation</li> <li>• Database refresher concepts</li> </ul>	<b>Tasks:</b> Install MySQL Workbench or MS Access  * Install media and Instructions will be shared.  <b>Install Lockdown browser and check your webcam. You must have a working webcam for the exams.</b>	
2	July 8	<ul style="list-style-type: none"> <li>• Database refresher concepts - continued</li> <li>• ER Modeling and database design</li> <li>• Classroom Examples and Hands-on</li> <li>• Wrap-up ER modeling</li> <li>• Assignment 1 discussion</li> </ul>	The purpose of this class is to refresh database concepts so that those with no database background can catch up with the rest of the class. Students will learn ER modeling and how ER models are translated into physical database design.	<b>Assignment 1 posted</b> Creating an ER model and implementing it in MySQL or MS Access Due date: 07/15/2020 11:00pm

		Book: Database Concepts by Kroenke and Auer		
3	July 13	<b>Part 2: Dimensional Modeling</b> <ul style="list-style-type: none"> <li>• Case for Dimensional Modeling</li> <li>• ER vs. Dimensional Modeling</li> <li>• Dimension and Fact tables</li> <li>• 4 Step Design process</li> <li>• Classroom Hands-on – Design your first Fact table</li> <li>• Conformed dimensions</li> </ul> <b>Exam 1 – 60 points</b> Syllabus: Lecture 1 and 2 (part 1 of the class) Question type(s): MCQs, Multiple Answer, and True/False	Exam will be conducted in the second half of the class via Canvas. Please ensure that you have Lockdown browser installed and your webcam is working before the exam.  *Any attempt of academic dishonesty will result in a zero in the exam. Please read <a href="#">UNT academic integrity policy</a> .	
4	July 15	<ul style="list-style-type: none"> <li>• Time Dimension</li> <li>• Null handling</li> <li>• Classroom Hands-on: Design your Time and Conformed Dimensions.</li> <li>• Role Playing Dimensions</li> </ul>		Assignment 1 is due
5	July 20	<ul style="list-style-type: none"> <li>• Role Playing Dimensions</li> <li>• Classroom Hands-on</li> <li>• Design a multi-star schema Dimensional Model.</li> <li>• Fact less facts</li> <li>• Classroom Hands-on – design a fact less fact table</li> <li>• Using a data warehouse – HR and other examples</li> <li>• Exam 2 discussion</li> </ul>		<b>Assignment 2 is posted</b> Creating a Dimensional Model and implementing it in MySQL or MS Access Due date: 07/27/2020 11:00pm
6	July 22	<b>Part 3: Using a Business Intelligence tool</b> <ul style="list-style-type: none"> <li>• Introduction to Business Intelligence</li> <li>• How BI tools work with Data Warehouses</li> <li>• Semantic layer</li> <li>• BI Architecture</li> </ul> <b>Exam 2 (70 points)</b> Syllabus: Dimensional Modeling (part 2 of the class) Question type(s): MCQs, Multiple Answer, and True/False	Exam will be conducted in the second half of the class via Canvas. Please ensure that you have Lockdown browser installed and your webcam is working before the exam.  *Any attempt of academic dishonesty will result in a zero in the exam. Please read <a href="#">UNT academic integrity policy</a> .	
7	July 27	<ul style="list-style-type: none"> <li>• Introduction to QlikView</li> <li>• Hands-on activities using QlikView</li> </ul>		Assignment 2 is due

		<ul style="list-style-type: none"> <li>• QlikView Scripting</li> <li>• QlikView hands-on activities</li> </ul>		
8	July 29	<ul style="list-style-type: none"> <li>• Synthetic Keys</li> <li>• Circular Reference</li> <li>• Advanced topics</li> <li>• QlikView Hands-on</li> <li>• QlikView front-end development</li> </ul>		<b>Assignment 3 is posted</b> Creating a dashboard using QlikView Due date: 08/04/2020 11:00pm
9	Aug 3	<ul style="list-style-type: none"> <li>• QlikView server management</li> <li>• QlikView wrap-up</li> <li>• QlikView advanced topics (if time permits)</li> <li>• Introduction to Tableau</li> <li>• Exam 3 review</li> </ul>		
10	Aug 5	<b>Exam 3 (70 points)</b> Syllabus: BI Architecture, QlikView, Tableau (part 3 of the class) Question type(s): MCQs, Multiple Answer, and True/False		

### Course Policies

<b>Grading</b>	<b>Grading Criteria</b>  A: Above 90% cumulative total OR top 30% rank based on total enrolled (after last date to drop) B: Above 80% cumulative total OR Next 40% rank based on total enrolled (after last date to drop) C: Above 70% cumulative total OR Next 20% rank based on total enrolled (after last date to drop) D and F: Below 60% cumulative total OR bottom 10% rank based on total enrolled (after last date to drop)  <b>Grading Points Distribution (300 total)</b> Assignments – 75 points (3 assignments @ 25 points each)  Exam 1 – 60 points Exam 2 – 70 points Exam 3 – 70 points  Class activates for a total of 25 points
<b>Academic Integrity</b>	According to the UNT's <a href="#">academic integrity policy 06.003</a> , “Academic Misconduct” means the intentional or unintentional action by a student to engage in behavior in the academic setting including, but not limited to: cheating, fabrication, facilitating academic misconduct, forgery, plagiarism, and sabotage. Any act of academic misconduct will not be tolerated and will result in a zero in the exam or assignment. A second act of academic misconduct will result in an ‘F’ in the class.
<b>Make-up Exams</b>	There will be no make-up exams. However, I will work with you if you have a date conflict and would like to change the date of your exam.

<b>Extra Credit</b>	None
<b>Late Work</b>	Penalty on late assignments will be listed on the Assignment itself.
<b>Software Installation</b>	It is your responsibility to install the software. The instructor and the teaching assistant are available to help, however, you MUST NOT assume that the instructor and/or teaching assistant will install the software for you.
<b>Assignments</b>	It is your responsibility to complete the assignments with or without the teaching assistant help. Remember that the teaching assistant is NOT responsible to solve your assignments for you – he/she can only guide you and provide high-level support to get past the obstacle that you may be experiencing.
<b>Classroom Citizenship</b>	<p>Your behavior interferes with my ability to teach and student's ability to learn; unacceptable behavior will not be tolerated in my class. Students engaging in disruptive behavior will be asked to leave the classroom and will be referred to the center of student rights and responsibilities.</p> <p>Chatting, giggling, laughing, use of cell phone or other hand-held devices, texting, using a laptop while the instructor is teaching, making noises, etc. are examples of disruptive behavior.</p> <p><b>Penalty for Disruptive Behavior:</b></p> <ul style="list-style-type: none"> <li>You will lose 20 Grade Points per offense of disruptive behavior for the first two offenses. The instructor will note down your name and will deduct the points at the end of the semester.</li> <li>After two offenses of disruptive behavior, you will lose 50 points per offense.</li> <li>These points will be deducted from your Exam and Assignment total.</li> </ul> <p>In addition, the instructor reserves the right to move you to a different seat during exams if the instructor believes that you are involved in cheating, plagiarism, or disrupting others.</p>
<b>Exam Reviews</b>	<p>Exam Reviews DONOT mean that I will provide highlighted text the exam will be from or provide sample question for the exam. Exam Reviews mean that you will have class time to clear any doubts you may have from the previous classes; it is my responsibility to ensure that I explain to clear your doubts, but it is your responsibility to come prepared to the exam review class to ask questions.</p> <p>If you have not attended classes prior to the exam review, do not assume that I can cover the material from all previous classes in the exam review class.</p>
<b>Class Attendance</b>	Strongly recommended – missed quizzes cannot be made up.
<b>UNT Policies</b>	<p><b><u>Academic Integrity Standards and Sanctions for Violation.</u></b> According to UNT Policy 18.1.16, Student Academic Integrity, academic dishonesty occurs when students engage in behaviors including, but not limited to cheating, fabrication, facilitating academic dishonesty, forgery, plagiarism, and sabotage. A finding of academic dishonesty may result in a range of academic penalties or sanctions ranging from admonition to expulsion from the University. [Insert specific sanction or academic penalty for specific academic integrity violation].</p> <p><b><u>ADA Statement.</u></b> UNT makes reasonable academic accommodation for students with disabilities. Students seeking accommodation must first register with the Office of Disability Accommodation (ODA) to verify their eligibility. If a disability is verified, the ODA will provide a student with an accommodation letter to be delivered to faculty to begin a private discussion regarding one's specific course needs. Students may request accommodations at any time, however, ODA notices of accommodation should be provided as early as possible in the semester to avoid any delay in implementation. Note that students must obtain a new letter of accommodation for every semester and must meet with each faculty member prior to implementation in each class. For additional information see the ODA website at <a href="http://disability.unt.edu">disability.unt.edu</a></p> <p><b><u>Emergency Evacuation Procedures for Business Leadership Building:</u></b></p>

	<p><b>Severe Weather:</b> In the event of severe weather, all building occupants should immediately seek shelter in the designated shelter-in-place area in the building. If unable to safely move to the designated shelter-in-place area, seek shelter in a windowless interior room or hallway on the lowest floor of the building. All building occupants should take shelter in rooms 055, 077, 090, and the restrooms on the basement level. In rooms 170, 155, and the restrooms on the first floor.</p> <p><b>Bomb Threat/Fire:</b> In the event of a bomb threat or fire in the building, all building occupants should immediately evacuate the building using the nearest exit. Once outside, proceed to the designated assembly area. If unable to safely move to the designated assembly area, contact one or more members of your department or unit to let them know you are safe and inform them of your whereabouts. Persons with mobility impairments who are unable to safely exit the building should move to a designated area of refuge and await assistance from emergency responders. All building occupants should immediately evacuate the building and proceed to the south side of Crumley Hall in the grassy area, west of parking lot 24.</p> <p><b>Acceptable Student Behavior.</b> Student behavior that interferes with an instructor's ability to conduct a class or other students' opportunity to learn is unacceptable and disruptive and will not be tolerated in any instructional forum at UNT. Students engaging in unacceptable behavior will be directed to leave the classroom and the instructor may refer the student to the Dean of Students to consider whether the student's conduct violated the Code of Student Conduct. The University's expectations for student conduct apply to all instructional forums, including University and electronic classroom, labs, discussion groups, field trips, etc. The Code of Student Conduct can be found at <a href="http://deanofstudents.unt.edu/conduct">deanofstudents.unt.edu/conduct</a>.</p> <p><b>Student Perceptions of Teaching.</b> Student feedback is important and an essential part of participation in this course. The student evaluation of instruction is a requirement for all organized classes at UNT. The survey will be made available during weeks 13 and 14 of the long semesters to provide students with an opportunity to evaluate how this course is taught. Students will receive an email from "UNT SPOT Course Evaluations via IASystem Notification" (<a href="mailto:no-reply@iasystem.org">no-reply@iasystem.org</a>) with the survey link. Students should look for the email in their UNT email inbox. Simply click on the link and complete the survey. Once students complete the survey they will receive a confirmation email that the survey has been submitted. For additional information, please visit the spot website at <a href="http://www.spot.unt.edu">www.spot.unt.edu</a> or email <a href="mailto:spot@unt.edu">spot@unt.edu</a>.</p>

## ETHICAL ACADEMIC BEHAVIOR IN ITDS CLASSES

The UNT College of Business and the ITDS Department expect their students to behave at all times in an ethical manner. There are at least two reasons for this. First, ethical behavior affirms the personal value

and worth of the individual. Second, professionals in all fields (but particularly in information systems, accounting, and HR) frequently handle confidential information on behalf of their employers and clients. Thus employers of UNT College of Business graduates expect ethical conduct from their employees because that behavior is crucial to the success of the organization. Academic dishonesty is a major violation of ethical behavior.

Students are expected to read (<https://policy.unt.edu/policy/06-003>) UNT's Student Standards of Academic Integrity which defines academic dishonesty and sets out the consequences for unethical academic behavior. Cheating and plagiarism are the most common types of academic dishonesty.

The UNT's Student Standards of Academic Integrity policy defines cheating as: *The use of unauthorized assistance in an academic exercise, including but not limited to:*

1. *Use of any unauthorized assistance to take exams, tests, quizzes or other assessments;*
2. *Dependence upon the aid of sources beyond those authorized by the instructor in writing papers, preparing reports, solving problems or carrying out other assignments;*
3. *Acquisition, without permission, of tests, notes or other academic materials belonging to a faculty or staff member of the University;*
4. *Dual submission of a paper or project, or re-submission of a paper or project to a different class without express permission from the instructor;*
5. *Any other act designed to give a student an unfair advantage on an academic assignment.*

The university's policy defines plagiarism as the *"Use of another's thoughts or words without proper attribution in any academic exercise, regardless of the student's intent, including but not limited to:*

1. *The knowing or negligent use by paraphrase or direct quotation of the published or unpublished work of another person without full and clear acknowledgement or citation.*
2. *The knowing or negligent unacknowledged use of materials prepared by another person or by an agency engaged in selling term papers or other academic materials.*

Examples of academic dishonesty in an ITDS class include: copying answers from another person's paper; using notes during an exam; copying computer code from another person's work; having someone else complete your assignments or take tests on your behalf; stealing code printouts, software, or exams; recycling assignments submitted by others in prior or current semesters as your own; and copying the words or ideas of others from books, articles, reports, presentations, etc. for use as your own thoughts without proper attribution (i.e., plagiarism). It does not matter whether you received permission from the owner of the copied work; claiming the material as your own is still academic dishonesty.

The ITDS Department believes it is very important to protect honest students from unfair competition with anyone trying to gain an advantage through academic dishonesty. Academic dishonesty is not tolerated in ITDS classes, and those who engage in such behavior are subject to sanctions as outlined in the UNT's policy and/or the course syllabus. You are strongly encouraged to read the policy carefully so that you are aware of what constitutes academic dishonesty and the consequences of this unethical behavior.

By signing below, I acknowledge my responsibility to read the UNT academic dishonesty policy and the Student Standards of Academic Integrity (<https://policy.unt.edu/policy/06-003>); and attest that I have read and understand the statements in this document and agree to behave ethically in this class.

<p style="text-align: center;"><b>UNIVERSITY OF NORTH TEXAS</b> <b>Authorization to Release Assignments to Plagiarism Detection Service</b></p>
---

Written assignments in this course will be provided to an internet-based plagiarism detection service that is not affiliated with the University of North Texas. If you sign the form, your assignments may be submitted to the service with your name or student identification number (but only if you put this number on your assignment which you should never do in this course). **If you do not sign this form, you must sign the bottom section acknowledging that it is your responsibility to make sure your name and other identifying information only appear on the coversheet of your assignments – Your cover sheet will not be included when the rest of your assignment is submitted to the service.** This authorization is only to allow the instructor to manage more efficiently the course and will expire upon the issuance of a final grade. Please sign and date the authorization form. Return the form to the instructor upon completion. You are not required to sign this authorization and you will not be penalized if you do not sign the form; however, if you do not wish to sign it you are required to complete the section at the bottom of the form.

I, \_\_\_\_\_ [Print Name of Student],

hereby voluntarily authorize the instructor in BCIS 4690 to disclose assignments that contain my name and/or student identification number (if for some reason I chose to include on my assignments) to an internet-based plagiarism detection service. (There is no reason you would ever put your student identification number in any assignment for this course.)

**This authorization will remain in effect from the date it assigned until a grade is assigned in this course and does not apply to any other course in which I am enrolled at the University of North Texas.**

**UNT College of Business Student Ethics Statement**

As a student of the UNT College of Business, I will abide by all applicable policies of the University of North Texas, including the Student Standards of Academic Integrity, the Code of Student Conduct and Discipline and the Computer Use Policy. I understand that I am responsible reviewing the policies as provided by link below before participating in this course. I understand that I may be sanctioned for violations of any of these policies in accordance with procedures as defined in each policy.

I will not engage in any acts of academic dishonesty as defined in the Student Standards of Academic Integrity, including but not limited to using another's thoughts or words without proper attribution (plagiarism) or using works in violation of copyright laws. I agree that all assignments I submit to the instructor and all tests I take shall be performed solely by me, except where my instructor requires participation in a group project in which case I will abide by the specific directives of the instructor regarding group participation.

While engaged in on-line coursework, I will respect the privacy of other students taking online courses and the integrity of the computer systems and other users' data. I will comply with the copyright protection of licensed computer software. I will not intentionally obstruct, disrupt, or interfere with the teaching and learning that occurs on the website dedicated to this course through computer "hacking" or in any other manner.

I will not use the university information technology system in any manner that violates the UNT nondiscrimination and anti-sexual harassment policies. Further, I will not use the university information technology system to engage in verbal abuse, make threats, intimidate, harass, coerce, stalk or in any other manner which threatens or endangers the health, safety or welfare of any person. Speech protected by the First Amendment of the U.S. Constitution is not a violation of this provision, though fighting words and statements that reasonably threaten or endanger the health and safety of any person are not protected speech.
