Meet the Professor

Welcome to AGER 4560 Minority Aging! I wanted to share a little information about my background. I earned my Interdisciplinary PhD in Geriatrics, Health Services Policy/Administration and Urban Planning at the University of Cincinnati Ohio. My life course has led me as an administrator, practitioner, and academic to engage in a variety of projects involving issues, problems and concerns facing a variety of populations in the US. As an non-profit agency board trainer with United Way of America the 1970s and 80s, I collaboratively created a set of board leadership training manuals for local affiliates and trained over 150 non-profit agency trustees and boards of directors. I have served on and chaired non-profit boards and trustees and consulted for community-based non-profit and quasi-governmental agencies addressing the special needs of disability, hunger, orphans, homeless, migrants, senior citizens, populations with special health and mental health care needs, and populations in need of a medical
home. My research and leadership agendas include working as Principle Investigator and Administrator in the areas of social justice and inequality, state and community collaborations that deal with planning for community health, mental health and human services, infrastructure, capacity building, citizen engagement, integration and access to aging and disability services, childhood immunizations, and community-oriented housing and urban development. I am a certified family and organizational mediator and have mediated numerous cases involving a variety of complex cross-cultural issues affecting minorities. I design dispute resolution systems. But the main thing is that I deeply enjoy integrating years of experience into my academic instruction. This course will provide an introduction to the study of minority elderly in the United States, including their physical and mental health, income security, family relations, and service issues. Course content focuses on African-American, Asian/Pacific Islander, Hispanic and Native American elders.

**My Teaching Philosophy**

I believe that students perform best when they feel valued in the learning environment and when they believe that they are capable contributors. You will find that each of your classmates will bring experiences to our discussion that will expand your views and challenge your ideas about aging in cultural contexts. Please engage in getting to know your fellow classmates and in discovering the expertise that each of you bring to this class. Many of you will take other courses together, and this experience will help you to create a bond with other students that could last beyond your time in this course. Networking is an important part of our educational opportunity. You have much to learn from each other, and this class will help you to do that. I will be actively observant of our discussions each week, and will be available to help you at all times to be successful in this course. My goals are to help every student to develop confidence in his or her abilities and for you to feel that the material that I am presenting elucidates the cultural diversity inherent in the study of aging.

**How the Course is Organized:**

The course contains 10 Units. Each Unit of the course has its Overview which offers clarity to each of the defined goals for the course. Each unit has specific learning Objectives that list what we expect students to achieve. Each unit has Readings that are the course material students are required to complete to stay on track with the learning objectives. And finally, each Unit has Discussions that student must participate in to demonstrate acquisition of learning according to the goals and objectives for the course. Please note there is a Midterm Exam in Unit 6 and a Final Exam in Unit 10.

---

However, the information that is obtained from individuals is collected in a way that will insure and maintain confidentiality and its use must conform to the original purposes intended and made known to the donor of the information when it was collected. Because this project involves individuals divulging personal information during interviews it fits within this category requiring confidentiality and fidelity as to purpose. ADA Policy

The University of North Texas makes reasonable academic accommodation for students with disabilities. Students seeking accommodation must first register with the Office of Disability Accommodation (ODA) to verify their eligibility. If a disability is verified, the ODA will provide you with an accommodation letter to be delivered to faculty to begin a private discussion regarding your specific needs in a course. You may request accommodations at any time, however, ODA notices of accommodation should be provided as early as possible in the semester to avoid any delay in implementation. Note that students must obtain a new letter of accommodation for every semester and must meet with each faculty member prior to implementation in each class. Students are strongly encouraged to deliver letters of accommodation during faculty office hours or by appointment. Faculty members have the authority to ask students to discuss such letters during their designated office hours to protect the privacy of the student. For additional information see the Office of Disability Accommodation website at http://disability.unt.edu/. You may also contact them by phone at 940.565.4323.

To comply with immigration regulations, an F-1 visa holder within the United States may need to engage in an on-campus experiential component for this course. This component (which must be approved in advance by the instructor) can include activities such as taking an on-campus exam, participating in an on-campus lecture or lab activity, or other on-campus experience integral to the completion of this course.

If such an on-campus activity is required, it is the student’s responsibility to do the following:

(1) Submit a written request to the instructor for an on-campus experiential component within one week of the start of the course.

(2) Ensure that the activity on campus takes place and the instructor documents it in writing with a notice sent to the International Student and Scholar Services Office. ISSS has a form available that you may use for this purpose.

Because the decision may have serious immigration consequences, if an F-1 student is unsure about his or her need to participate in an on-campus experiential component for this course, s/he should contact the UNT International Student and Scholar Services Office (telephone 940-565-2195 or email internationaladvising@unt.edu) to get clarification before the one-week deadline.
