

MRTS 2210: Introduction to Media Arts Production

Instructor Contact Information

MRTS 2210 is taught by three instructors. Each instructor teaches one production area.

Film Instructor

Instructor: Javier Carmona

Office Hours: RTFP 228 | Tuesdays | 12-1:30 pm & by Appt.

Email: Javier.Carmona@unt.edu

Audio Instructor

Instructor: LaDaniel Maxwell

Office Hours: Mondays and Tuesdays by appointment

Email: ladaniel.maxwell@unt.edu

Multi-Camera Studio Instructor

Instructor: Brenda Jaskulske

Office: RTFP 229

Phone: 940-565-2537

Office Hours: Virtual by appointment

Email: Brenda.jaskulske@unt.edu

Course Description

MRTS 2210 provides an introduction to fundamental media production techniques. Students explore audio production, multi-camera television studio production, and single-camera film-style production through instruction, demonstrations, production exercises, and hands-on experience.

Course Structure

This course is taught face-to-face with some online components.

During the semester, your class section will rotate through three production areas:

1. Film Production
2. Audio Production
3. Multi-Camera Studio Production

We will follow the published course schedule unless unforeseen circumstances require a change. Students will be notified of schedule changes through Canvas.

Prerequisites and Restrictions

Students must meet the following requirements:

- MRTS or CBCM major status
- Successful completion of MRTS 1330 and MRTS 2010
- Minimum 2.75 GPA

Course Learning Objectives

By the end of MRTS 2210, students should be able to demonstrate foundational knowledge and production skills in each of the three production areas.

Film Production

By the end of the film production section, students should be able to:

1. Demonstrate an understanding of fundamental filmmaking concepts and practices.
2. Apply principles of composition and visual storytelling to create purposeful image sequences.
3. Produce an original narrative film using digital cinema tools and production techniques.

Audio Production

By the end of the audio production section, students should be able to:

1. Identify and explain fundamental audio production theory, terminology, practices, and concepts.
2. Demonstrate appropriate use of location and studio recording equipment and editing software.
3. Plan, record, edit, and produce a quality audio project.

Multi-Camera Studio Production

By the end of the multi-camera studio production section, students should be able to:

1. Properly operate studio equipment while serving in a variety of production crew positions.
2. Identify and apply fundamental studio production concepts, terminology, procedures, and communication signals.
3. Direct a successful multi-camera studio production.

Required Materials and Technology

Required Worktext

MRTS 2210 *Introduction to Media Arts Production Worktexts*, available online.

Additional equipment requirements will be provided in the Canvas module for each production section.

Required Technology

Students need access to:

- A computer capable of running Respondus LockDown Browser
- Reliable internet access
- Computer speakers or headphones
- Computer microphone
- Webcam
- Required course plug-ins
- Microsoft Office Suite

Chromebooks do not support Respondus LockDown Browser and therefore do not meet the computer requirements for this course.

Refer to the Canvas Technical Requirements information provided in Canvas for additional technology requirements.

Major Projects

Each production section includes a major hands-on project. Complete project instructions, requirements, and grading criteria will be provided by the appropriate instructor and in Canvas.

Film Project

Working with a partner, students will shoot and edit a two- to three-minute observational or experimental film.

The project must incorporate at least five composition principles covered in class. Individual shots will be evaluated for:

- Focus
- Stability and purposeful camera movement
- Framing
- Exposure
- Lighting

The completed edit should communicate a clear feeling, impression, or perspective about a specific place.

There is no required audio component. Students may use natural sound, music, or sound effects when appropriate to support the purpose of the project.

Audio Project

Students will develop and produce a brief narrative audio project using studio and location sound equipment.

Detailed requirements will be provided during the Audio Production section and in Canvas.

Multi-Camera Studio Project

Working in production teams, students will develop and produce a short live program using multiple cameras and studio production equipment.

Detailed requirements will be provided during the Multi-Camera Studio Production section and in Canvas.

Grading

MRTS 2210 is worth **1,000 total points**.

- Film Production Section: 300 points
- Audio Production Section: 300 points
- Multi-Camera Studio Production Section: 300 points
- Comprehensive Final Exam: 100 points
- **Total: 1,000 points**

Grades are determined by the total number of points earned during the semester. Students should use their total points, rather than percentages displayed in Canvas.

Grade Scale

- A: 900–1,000 points
- B: 800–899 points
- C: 700–799 points
- D: 650–699 points
- F: 0–649 points

Artificial Intelligence Use

Unless an instructor specifically authorizes artificial intelligence use for an assignment, all submitted work must be created and completed by the student.

Students may not have another person, company, service, or artificial intelligence system complete any portion of an assignment on their behalf.

This includes the unauthorized use of generative artificial intelligence tools, including ChatGPT and similar systems.

If an instructor authorizes artificial intelligence for a particular activity or assignment, students must follow the instructions and limitations provided for that as

Attendance

Regular and on-time attendance is expected.

MRTS 2210 is a hands-on production course. Much of the learning occurs through demonstrations, production exercises, teamwork, and equipment practice that cannot easily be re

If an urgent situation prevents you from attending class, contact your instructor. Examples may include a medical emergency, death in the family, active milit

Being late to a class is recorded as an absence.

Documentation for a verified absence or tardy must be provided within two business days of returning to school.

Attendance Bonus and Penalties

Attendance affects your final course point total as follows:

- Perfect on-time attendance with no unexcused absences: 50 bonus points
- One unexcused absence: No attendance bonus
- Two unexcused absences: 50-point deduction from the final course point total
- Three unexcused absences: 100-point deduction from the final course point total
- More than three unexcused absences: Additional penalties may apply

Students with more than three unexcused absences may be subject to course consequences consistent with university policy.

Assignment Policies

Assignment due dates are provided in the course schedule and the appropriate Canvas modules.

Unless otherwise specified, written assignments must be submitted as Microsoft Word files.

Students are responsible for submitting assignments by the published deadlines.

Late Work

Late work is not accepted unless:

- The student has a verified absence or other qualifying circumstance, or
- An approved accommodation applies.

Documentation for a verified absence must be provided within two business days of returning to school.

Technology Problems

Do not wait until the deadline to submit an assignment or complete an online assessment.

Personal computer problems generally do not constitute a reason for accepting late work.

If an unexpected UNT system or Canvas outage prevents students from completing a time-sensitive assessment, the instructor will provide an appropriate extension or accommodation based on the circumstances.

If you experience a university technology problem:

1. Notify your instructor as soon as possible.
2. Contact the UNT Student Help Desk.
3. Obtain and retain your Help Desk ticket number.

Examination Policy

Each production section includes an in-person section exam.

Arrive on time for all examinations. If you arrive after another student has completed and submitted the examination, you may not be permitted to begin the e

A comprehensive final exam covering material from all three production sections will be administered online.

Make-up examinations are available only for students with a verified qualifying absence. Documentation must be provided within two business days of returning to

Students experiencing a significant circumstance that affects their ability to participate in their courses should contact the Dean of Students for assistance.

Class Participation

Active participation is an important part of MRTS 2210.

Students are expected to participate in:

- Lectures
- Discussions

- [Instructor demonstrations](#)
- Hands-on [exercises](#)
- [Individual production activities](#)
- [Group production activities](#)
- [Course projects](#)

Students are expected to communicate professionally and respectfully when working with instructors, classmates, equipment, and production facilities.

Electronic Devices During Class

[Computers, tablets, phones, and other electronic devices](#) may not be used during class unless:

- The instructor directs students to use the device for a class activity, or
- [The device is required as part of an approved accommodation.](#)

Students should speak privately with their instructor if an approved accommodation affects the use of an electronic device during class.

How to Be Successful in MRTS 2210

[To be successful](#) in this course:

1. Attend every class and arrive on time.
2. [Check Canvas regularly](#) for announcements, assignments, and schedule updates.
3. Enable Canvas notifications using an email account you check regularly.
4. [Consider installing the Canvas Student app](#) on your mobile device.
5. Review the appropriate Canvas module before coming to class.
6. [Begin assignments early.](#)
7. Submit assignments before the deadline rather than waiting until the last minute.
8. [Participate actively in demonstrations, exercises, and production activities.](#)
9. Ask questions when you are unsure about equipment, procedures, assignments, or course expectations.

[MRTS 2210 is designed to help you learn media production by doing it.](#) Take advantage of opportunities to practice with the equipment, participate in produc
