

BCIS 3630 Hardy
Summer 2023 Tue/Thur 2:00 pm (BLB Rm 225)

Instructor: Professor LeRoy Hardy
Office: BLB 367C → Tu/Th 4-5 or by appointment
Email: LeRoy.Hardy@unt.edu – Email Subject MUST start with 3630.1 –
Phone: 940.369.8569

TEXTBOOK: UNT Bookstore [Amazon or Voertmans if UNT Bookstore is out]

Starting Out with JAVA - CONTROL STRUCTURES THRU OBJECTS

7th Edition, by Tony Gaddis from Pearson **ISBN-13: 978-0134802817** **loose leaf**

Do not get the Mylab edition - it costs more, and we don't use it. The 6th edition also works.

COURSE OBJECTIVES

This course introduces business computer programming and design in a corporate environment. The primary focus is on the information systems function supporting corporate activities. Students will learn business problem solving using JAVA PROGRAMMING in a microcomputer environment and on an IBM System Z Mainframe.

JAVA TOPICS COVERED

JAVA program types, creating an application, syntax, variables, literals and identifiers, methods, expressions, print, println. Primitive data types, arithmetic operators, final, string class, dialog boxes, JOptionPane, scope, scanner class methods, decision structures, if-else, relational operators, nested ifs, logical operators, precedence, switch and the case structure, printf, method, selection, repetition, formatting, loops, while loop, nested loop, methods, passing arguments, local variables, classes, instance fields, constructors, overloading methods and constructors, scope of instance fields, packages, import statements, iteration, instance, string arrays, arrays of objects, arrays, loops, external classes, table/arrays, ArrayList class.

TO SUCCEED IN THIS CLASS

1. Read the book! Exams come from the material covered in the Java book by Gaddis, as does the programming.
2. Take notes! Vocabulary words, Java commands, etc. Use your notes to do the programming. If you must go back to the book, then update your notes.
3. Do the assignments on your own. This helps you understand the concepts. Only discuss concepts with other students and never share code. Use the tutor or me for additional help. Ask questions in class. **Turn in your assignments!**
4. Don't use ChatGPT. It might do the assignment for you, but you will not learn anything.

BCIS 3630 Hardy
Summer 2023 Tue/Thur 2:00 pm (BLB Rm 225)

Academic Integrity Standards and Consequences.

Student Academic Integrity, academic dishonesty occurs when students engage in behaviors including, but not limited to cheating - *[such as copying JAVA CODE from other students' computer programs and turning that code in as their work, or copying JAVA CODE that they find on the internet and turning it in as part of their work]* also a fabrication, facilitating academic dishonesty, forgery, plagiarism, and sabotage. A finding of academic dishonesty will result in academic penalties or sanctions ranging from *negative points on homework assignments OR a semester grade of F in the course OR expulsion from the University.*

Specifically, for BCIS 3630:

- a. I will report **any** cheating on exams to the Dean of Students, and you will receive a zero on the exam. The second instance of cheating on an exam will result in an F.
- b. Even one line of code ***from the internet or another student*** is considered copying.
- c. The first time students turn in copied code, they will receive a grade of -10 on that chapter's entire assignment. **However, I will report you to the Dean of Students on the first occurrence for copying code from a Chegg-like website or another student who used Chegg. You do NOT have permission to send the assignments to a Chegg-like company or pay anyone to write your homework. Doing so will infringe on copyright laws and is considered unethical behavior by UNT. The assignments belong to UNT, not Chegg or YOU. A \$25 million company was handed over to another company because an employee stole the code to start the second company. Most companies do background checks, and it will not look good if you are convicted of copyright infringement or plagiarism in college.**
- d. The second time students turn in copied code, they will receive a grade of -20 on that chapter's entire assignment, and will be reported to the Dean of Students. **At this point, you are in danger of failing the course because you received no credit for two assignments and lost 30 points from what few points you have left. If you use code from a Chegg-like website or have it written for you, you will receive an F for the course at this point.**
- e. A third act of academic dishonesty in BCIS 3630 will result in ***a semester grade of F.***

If students are bright, they will NOT MENTION any java homework assignments in GroupMe. Because I know you will do this despite my instruction, you should keep your discussion to concepts and not specific solutions to a program. Someone might take your code and turn it in as their own, and both students get punished equally. **Do not give another student as much as a single line of code.**

- f. The department has changed the requirements of more advanced BCIS classes to making a B in this class. **You must complete all of your 3630 homework assignments; otherwise, you will not be able to write your Java programs in BCIS 3680, the advanced Java course you must take.** Therefore, I have increased the weight of the homework assignments so that you will not receive a B if you do not do them. **Copying someone else's work and getting negative points will hurt you the most, followed by not turning in your assignments. Turn in what you've completed when it is due. I need to know that you can write a program in a programming class, and I'm trying to keep students from failing BCIS 3680.**
- g. Assignments will be checked for plagiarism using a tool such as TurnItIn or Moss, which has been very effective for us in past semesters.

BCIS 3630 Hardy
Summer 2023 Tue/Thur 2:00 pm (BLB Rm 225)

COVID Policy statement

COVID-19 impact on attendance

While I expect you to attend class as outlined above, all of us must be mindful of the health and safety of everyone in our community, especially given concerns about COVID-19. Don't hesitate to contact me if you cannot attend class because you are ill or unable to participate due to a related issue regarding COVID-19. You must communicate with me before being absent about what prevents you from coming to class so I can decide about accommodating your request to be excused from class.

If you are experiencing cough, shortness of breath or difficulty breathing, fever, or any other possible symptoms of COVID-19 (<https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html>), please seek medical attention from the Student Health and Wellness Center (940-565-2333 or askSHWC@unt.edu) or your health care provider. While attendance is essential to succeeding in this class, your health and others in the community are more important.

All 3630 homework assignments are to be turned in on Canvas. You should zip your .java files into one zip file. Then, submit the zip file and each java file separately to Canvas. The zip file allows me to grade easier, and the individual java files allow me to see the programs on Canvas. I give you one day after class to turn in the assignment so that you can ask questions in class and still have time to make the necessary changes.

NO MAKEUP EXAMS WILL BE GIVEN IN THIS COURSE

The official UNT exceptions apply, but only if you notify me at the BEGINNING of the semester. You must give me signed documentation from the University at the beginning of the semester. If not notified at the beginning of the semester - you will not be allowed a makeup exam.

For everyone else, if you miss an exam, I will give you 75% of the average grade you make on the other two exams.

EXAMPLE: If you make 90% and 80% on the two exams you take, I will give you 75% of the average of the two scores for a grade of 63.75% (this is compared to zero from other professors).

BE SMART AND SHOW UP FOR ALL 3 EXAMS, OR YOU WILL BE PENALIZED

BCIS 3630 Hardy
Summer 2023 Tue/Thur 2:00 pm (BLB Rm 225)

Class Schedule

1	May 23	THIS IS A CRITICAL FULL 2 HOUR LECTURE – DO NOT MISS THIS CLASS Aptitude Test Instructions Lecture: Intro to Mainframe MAINFRAME Prob 1 – [Logging in and editing on Sys Z] Installing TN3270 & FTP for mainframe Sys Z JAVA - Downloading and installing JAVA JDK Setting PATH and CLASSPATH variables for JAVA in WINDOWS INSTALLING JGRASP FOR DEBUGGING JAVA	
2	25	Lecture over MF Prob 2 Lecture over Gaddis Ch 1 - Terminology	MF Prob 1 due 5/25 No credit after Fri 5/26
3	30	Lecture over Gaddis MF Prob 3 Q&A MF Prob 1 & 2 Running JAVA Programs on Sys Z	Ethical Behavior due 5/30
4	June 1	Writing a program in JAVA Aptitude Test – last 70 minutes of class	MF Prob 2 due 6/1 No credit after Fri 6/2
5	6	Lecture over Gaddis Ch 2 – Very Important JAVA Fundamentals & Java 1	MF Prob 3 due 6/6 No credit after Wed 6/7
6	8	Continue – Gaddis Ch 2 Write Java 1A & 1D in class Assign MF Prob 4	
7	13	Lecture over Gaddis Ch 3 Decision Structures & Java 2	JAVA 1 due 6/13 No credit after Wed 6/14
8	15	Continue Gaddis Ch 3 Web Session A & Finish JAVA Two Hints for Gaddis Ch 1, 2, 3 Exam	JAVA 2 due 6/15 No credit after Fri 6/16
9	June 20	EXAM ONE on GADDIS Ch1, Ch2, and Ch3 40 MC/TF Questions worth 5.25 points each = 210 points	
10	22	Lecture over Gaddis Ch 4 Loops (skip files) & Java 3	MF Prob 4 due Sun 6/25
11	27	Continue – Gaddis Ch 4 Lecture over Gaddis Ch 5 Methods & Java 4	
12	29	Continue – Gaddis Ch 5 Q&A Java 4	JAVA 3 due 6/29 No credit after Fri 6/30
13	July 4	Independence Day	
14	July 6	Web Session B & C Hints for Gaddis Ch 4, 5 Exam	JAVA 4 due 7/6 No credit after Fri 7/7
15	July 11	EXAM TWO on GADDIS Ch4 and Ch5 40 MC/TF Questions worth 5.25 points each = 210 points	

BCIS 3630 Hardy
Summer 2023 Tue/Thur 2:00 pm (BLB Rm 225)

16	13	Lecture over Gaddis Ch 6 A First Look at Classes	
17	18	Continue – Gaddis Ch 6 Lecture over Gaddis Ch 7 Arrays and ArrayList	JAVA 5 due 7/18 No credit after Wed 7/19
18	20	Continue – Gaddis Ch 7	
19	25	Web Session D & E Hints for Gaddis Ch 6 & 7 Exam Finish JAVA SIX	JAVA 6 due 7/25 No credit after Wed 7/26 ZXplore Extra Credit due Sun 7/23
20	July 27	EXAM THREE on GADDIS Ch6 and Ch7 40 MC/TF Questions worth 5.25 points each = 210 points	
	28	Take Home Final Due	

HOMEWORK ASSIGNMENTS

Point Distribution for Assignments

MF Prob 1 – Login/Basics	SYS Z	5	Thur 5/25
MF Prob 2 – More Editing	SYS Z	5	Thur 6/01
MF Prob 3 – JAVA/FTP/JCL	SYS Z	10	Tue 6/06
MF Prob 4 – ZXplore Fund 1&2	IBM	10	Sun 6/25
JAVA 1	Gaddis Ch 2	15	Tue 6/13
JAVA 2	Gaddis Ch 3	20	Thur 6/15
JAVA 3	Gaddis Ch 4	30	Thur 6/29
JAVA 4	Gaddis Ch 5	35	Thur 7/06
JAVA 5	Gaddis Ch 6	35	Tue 7/18
JAVA 6	Gaddis Ch 7	25	Tue 7/25
TOTAL		190	

I WILL GRADE MAINFRAME PROBLEMS ONE, TWO, & THREE ON SYSTEM Z. MF 4 will be reported to me by IBM on 6/25

If MF 1, 2, or 3 are completed early, EMAIL Prof Hardy for grading. Email not necessary if completed on time. I will grade all Mainframe assignment on SysZ.

***** EMAIL ALL JAVA PROBLEMS, ONE thru SIX, TO THE 3630 STUDENT GRADER**

THERE IS NO SUCH THING AS LATE WORK IN 3630, SO DO NOT ASK FOR MORE TIME!

BCIS 3630 Hardy
Summer 2023 Tue/Thur 2:00 pm (BLB Rm 225)

You are required to complete all of your 3630 homework assignments; otherwise, you will not be able to write your JAVA programs in BCIS 3680, the advanced JAVA course you are required to take. Copying someone else's work and getting negative points will hurt you the most, followed by not turning in anything. Turn in what you've completed by the due date. **I need to know you can write a program in a programming class, and I'm trying to keep students from failing BCIS 3680**

After completing the four mainframe assignments at the beginning of the semester, you may want to earn EXTRA CREDIT by working on IBM's ZXplore by completing the Fundamentals (5), Concepts (2), and Advanced (5) Challenges. It will be a max of 50 bonus points. You can receive partial credit, but for me to post grades, there is a hard cutoff of midnight on Sun, 7/23, when IBM reports your progress. Note that people who complete all three levels get the attention of IBM companies and often get an offer for a mainframe job.

POINTS

APTITUDE TEST	60 points	(6.71%)
EXAM ONE	210 points	(23.33%)
EXAM TWO	210 points	(23.33%)
EXAM THREE	210 points	(23.33%)
PARTICIPATION	20 points	(2.20%)
<u>HOMEWORK</u>	<u>190 points</u>	<u>(21.10%)</u>
TOTAL	900 points	(100.0%)

810 TO 900 POINTS = A (90 – 100%)

720 TO 809 POINTS = B (80 – 89%)

540 TO 719 POINTS = C (60 – 79%)

450 TO 539 POINTS = D (50 – 59%)

0 TO 449 POINTS = F (0 – 49%)

June 20 EXAM ONE on GADDIS Ch1, Ch 2, and Ch 3

July 11 EXAM TWO on GADDIS Ch 4 and Ch 5

July 27 EXAM THREE on GADDIS Ch 6 and Ch 7

NO MAKEUP EXAMS WILL BE GIVEN IN THIS COURSE

The official UNT exceptions apply but ONLY IF YOU NOTIFY ME AT THE SEMESTER'S BEGINNING. You must give me signed documentation from the University at the beginning of the semester. There will be no allowance if you do not notify me at the beginning of the semester. All exams are in-class, so you MUST be present for the exam. Online exams are not an option.

For the rest of the class, if you miss an exam, I will give you a grade of 75% of the average grade you make on the other two exams.

BCIS 3630 Hardy
Summer 2023 Tue/Thur 2:00 pm (BLB Rm 225)

EXAMPLE: If you make 80% and 90% on the two exams you take, I will give you 75% of the average grade of 85% for a grade of 63.75% on the exam you missed (compared to zero from other professors).

BE SMART AND SHOW UP FOR ALL 3 EXAMS, OR YOU'LL BE PENALIZED.

Exam Rules:

1. If you wear a hat, you must turn the bill to the back, so I can see your eyes.
2. You must put your phone on silent with vibrate off, then the phone must be placed upside down on the desk. If I see you use another phone, you will receive a zero on the exam, which will be reported as a breach of academic integrity and reported to the Dean of Students.
3. You may use a pencil and scratch paper, but the paper must be blank.
4. All electronic devices must be turned off and hidden from sight except for #2 above.
5. For Canvas exams, you will use the Respondus Lockdown Browser, and you must check in with me before you leave the classroom, so I know you finished the exam.
6. Exams will begin promptly when class starts and ends 55 minutes later, so if you're late, you have less time to complete the exam. If you arrive after others have left, you will not be allowed to take the exam (some students finish in 15 minutes).
7. Any cheating on exams will result in a zero on the exam and you will be reported to the Dean of Students for Academic Dishonesty.

OFFICIAL UNT REQUIRED SYLLABUS STATEMENTS

RCOB Statement on Academic Honesty

The G. Brint Ryan College of Business takes academic honesty seriously. Ethics and integrity are important business values, essential to building trust and adhering to professional and legal standards. Academic dishonesty destroys trust, damages the reputation and the value of the degree, and is unacceptable.

According to UNT Policy 06.003, Student Academic Integrity, academic dishonesty occurs when students engage in behaviors including, but not limited to cheating, fabrication, facilitating academic dishonesty, forgery, plagiarism, and sabotage. A finding of academic dishonesty may result in various academic penalties or sanctions, from admonition (a warning) to expulsion from the University.

Some of the most common academic integrity violations include plagiarism or cheating, such as unauthorized assistance on examinations, homework, research papers, or case analyses. Your work must be entirely your own. When working on assignments, you should not discuss your work with others unless approved by the course instructor. Group assignments should only be discussed with members assigned to your group, and all group members may be held accountable in some way for known academic integrity violations in a group assignment.

Another example of academic dishonesty relates to improper attribution. When preparing your assignments, you must cite all outside sources as requested by your instructor. Copying or using material from any source prepared or previously submitted by others, at UNT or other institutions, or downloaded from the Internet, is plagiarism. Unless directed otherwise in an assignment, large-scale "cutting and pasting" from other sources, even if properly footnoted, is inappropriate. You should synthesize this material in your own words and provide a footnote.

Your instructor will specify what materials if any, may be used on the tests and exams. Using materials other than those permitted, talking with other individuals during the exam, individuals exchanging information about an exam when one has taken the exam, and the other has not, or copying or using material from another individual's exam is academic dishonesty and will result in a meeting to discuss academic integrity violations and potentially issue sanctions mentioned above, and may result in ineligibility for academic scholarships. Online assistance, such as sites commonly used for finding homework solutions, group chat, cell phones, smartwatches, and similar tools during exams, is not allowed for any reason unless specifically permitted. No portion of an exam may be copied or photographed without permission.

BCIS 3630 Hardy Summer 2023 Tue/Thur 2:00 pm (BLB Rm 225)

Students are expected to conduct themselves in a manner consistent with the University's status as an institution of higher education. A student is responsible for responding to a request to discuss suspected academic dishonesty when issued by an instructor or other University official. If a student fails to respond after a proper attempt at notification has been made, the University may take appropriate academic actions without the student's participation.

ADA Accommodation Statement. UNT makes reasonable academic accommodations for students with disabilities. Students seeking accommodation must register with the Office of Disability Accommodation (ODA) to verify their eligibility. If a disability is confirmed, the ODA will provide a student with an accommodation letter to be delivered to the faculty to begin a private discussion regarding one's specific course needs. Students may request accommodations at any time; however, ODA notices of accommodation should be provided as early as possible in the semester to avoid any delay in implementation. Students **must obtain a new letter of accommodation for every semester** and meet with each faculty member before implementation in each class.

Emergency Evacuation Procedures for Business Leadership Building:

- **Severe Weather** In the event of severe weather, all building occupants should immediately seek shelter in the designated shelter-in-place area in the building. If unable to safely move to the designated shelter-in-place area, seek shelter in a windowless interior room or hallway on the lowest floor of the building. All building occupants should take refuge in rooms 055, 077, and 090 and the restrooms on the basement level. In rooms 170, 155, and the bathrooms on the first floor.
- **Bomb Threat/Fire** In the event of a bomb threat or fire, all building occupants should immediately evacuate the building using the nearest exit. Once outside, proceed to the designated assembly area. If unable to safely move to the designated assembly area, contact one or more members of your department or unit to let them know you are safe and inform them of your whereabouts. Persons with mobility impairments who cannot safely exit the building should move to a designated refuge area and await assistance from emergency responders. All building occupants should immediately evacuate and proceed to the south side of Crumley Hall in the grassy area west of parking lot 24.

Acceptable Student Behavior. Student behavior that interferes with an instructor's ability to conduct a class or other students' learning opportunity is unacceptable and disruptive and will not be tolerated in any instructional forum at UNT. **Students engaging in inappropriate behavior will be directed to leave the classroom.** The instructor may also refer the student to the Dean of Students to consider whether the student's conduct violated the Code of Student Conduct. The University's expectations for student conduct apply to all instructional forums, including University and electronic classrooms, labs, discussion groups, field trips, etc.

BCIS 3630 Hardy
Summer 2023 Tue/Thur 2:00 pm (BLB Rm 225)

Welcome to BCIS 3630 JAVA programming
Logic Aptitude Test

I hope that every student is successful in this course. If you are a bright student with strong analytical skills, attempt all the JAVA homework assignments, and do not copy anything from the internet or another student, you should make an A or B.

However, there are some things that I must discuss first. In Fall 2020, approximately 33% of the students who started the semester did not complete this course successfully. The three primary reasons for this happening are:

1. Some students enrolling in BCIS 3630 do not have the quantitative, analytical, and logical skills necessary to succeed in a programming course.
2. There were 38 zeros on the first two straightforward JAVA homework assignments.
3. There were 29 instances of admitted cheating on the first 2 JAVA homework assignments.

The Dean of the College of Business and the Chair of the ITDS Department are very upset about this poor level of performance and want us to implement measures to stop it.

1. I am addressing cheating by giving -10 points for the first assignment. Cheating on the second assignment will result in a grade of -20, and you will be reported to the Dean of Students. If a student is caught a third time, they will receive an F in the course. Exception: If you use a Chegg.com-like service, ChatGPT, or pay someone to write your programs for you, I will immediately report you to the Dean of Students.
2. I am addressing not turning in the assignments in two ways. First, the ITDS department has adopted a rule that you must make a B in BCIS 3630 to take other BCIS courses. Second, I am increasing the weight of the homework to 21% of your grade so that if you don't do any assignments, you cannot get a B, even if you get 100% on all exams (which is highly unlikely).
3. I am addressing the preparedness issue by giving a LOGIC APTITUDE TEST during the third class in BCIS 3630.

Any student who does poorly on that test will be encouraged to drop 3630 and seriously ask themselves if they want to be an ITDS major, which involves a significant amount of computer programming.

To help a student prepare for the LOGIC APTITUDE TEST, I am giving each student a STUDY GUIDE to work thru before the first day of class. This STUDY GUIDE contains 21 pages of textual material and a 40-question sample test to take at your leisure after you have studied the STUDY GUIDE. Therefore, I suggest that you start working thru the STUDY GUIDE right away.

4. Whenever you complete the sample test, email me [LeRoy.Hardy@unt.edu], and I will send you the answer key to grade your sample test.

If you do well, you will be ready for the actual LOGIC APTITUDE TEST in the 3rd class.

However, you have two options if you do poorly on the sample test. The 1st is to reread the study guide closely and take the sample test again and again until you do well on it. Your 2nd choice is to drop BCIS 3630 and look for another major that better suits your talents.

If you do poorly on the sample test, you are almost sure to do worse on the actual LOGIC

BCIS 3630 Hardy
Summer 2023 Tue/Thur 2:00 pm (BLB Rm 225)

APTITUDE TEST taken after the semester starts. Also, the grade you earn on the LOGIC APTITUDE TEST, which you will take during the 3rd class period, will count as 60 points of your semester grade in BCIS 3630, so please take it very seriously.

5. The companies that hire our ITDS majors demand that they are technically competent and have good grades, and ITDS decided that this is the best way to accomplish that requirement.

The UNT Accounting Department implemented a similar 'preparedness test' to get into intermediate accounting several years ago, cutting their drop rate drastically. Accounting is stringent in that if you do not do well on the 'preparedness test,' you cannot even register for the intermediate accounting course.
