ART 2020

DIGITAL TOOLS & TECHNOLOGIES
FOR CREATIVE PRACTICE

Spring 2023
Meredith Cawley
meredith.cawley@unt.edu

Office Hours: M/W 2:30-3:00 in room 326 in person or through zoom.
(Zoom Meeting ID: 290 447 5535 (Please make an appointment through Canvas Inbox Messages.)

Course Meeting Days/Time:
Section 001   Mon/Wed 8:00-10:50am   Room 244
Section 004   Tues/Thur 2:00pm-4:50pm Room 338

Welcome to UNT
As a member of the UNT community, I have made a commitment to be part of an institution that respects and values the identities of the students and employees with whom I interact. UNT does not tolerate identity-based discrimination, harassment, and retaliation. According to the University Policy Office (2021), “UNT prohibits discrimination and harassment because of race, color, national origin, religion, sex, sexual orientation, gender identity, gender expression, age, disability, genetic information, veteran status, or any other characteristic protected under applicable federal or state law in its application and admission processes; educational programs and activities; employment policies, procedures, and processes; and university facilities. The University takes active measures to prevent such conduct and investigates and takes remedial action when appropriate.” To read the UNT’s full policy of Prohibition of Discrimination, and Harassment, and Retaliation at this link: https://policy.unt.edu/policy/16-004

Course Description:
ART 2020 Digital Tools and Technologies for Creative Practice, 3 (0,6): Introductory course exposing students to the language and application of digital media and resources for art and design practice. Introduces students to digital art-making and communication for art environments, social media, interactive media, and 2D/3D digital fabrication technology through the use of digital tools, including Adobe Creative Cloud applications, iMovie, and
open-source software. Students achieve competency in basic contributions to digital image culture through the use of various technology both in application and process.

**Course Prerequisite(s):** Two of the following: ART 1600, ART 1700, Art 1800, Art 1900

**Course Structure**
This course is taught in-person or a face-to-face learning method. ART 2020 Digital Tools and Technologies for Creative Practice is 3 (0,6). Therefore, there is no lecture. This course emphasizes hand-on learning activities and demonstrations. Teaching and learning activities and assignments are designed to help students learn how to use digital tools as well as technologies to create digital arts and have a deeper understanding of creative practice through making. Full attendance and participation in class activities are vital. Students are expected to attend and participate in course activities at least 80%. Students are also required to spend 1-2 hours to prepare for class activities and complete assignments.

**Course Goals**
- Students who complete this course successfully will be able to:
  - Demonstrate basic knowledge of visual arts, design, and culture using Adobe Creative Cloud applications and other digital tools.
  - Demonstrate knowledge of image-making and digital fabrication using open-source/web-based platforms.
  - Develop a wider understanding of the use of digital fabrication within art and design practice.
  - Produce images and objects for art-making, Digital Tools Showcase, social media and for the creative economy.
  - Discuss the history of computing and its applications by artists and designers.
  - Work both individually and collaboratively to produce works and projects that ask critical questions about the role of technology within art and design.
  - Research and present upon readings based on digital visual culture and creative communities.

**Required Texts**

   Link: [https://www.amazon.com/Show-Your-Work-Austin-Kleon/dp/076117897X/ref=sr_1_1?dchild=1&keywords=show+your+work&qid=1610258354&s=books&sr=1-1](https://www.amazon.com/Show-Your-Work-Austin-Kleon/dp/076117897X/ref=sr_1_1?dchild=1&keywords=show+your+work&qid=1610258354&s=books&sr=1-1)

2. Adobe Creative Cloud Tutorials: All Your Tools, creative cloud for new users.
3. 2021: An introduction to techniques, practices, and tools in the Fabrication Labs

http://www.youtube.com/watch?v=f-NjiZIUts

4. Other PDF readings will be posted to canvas as needed.

**Materials and Equipment**

*Students are required to use tools and technologies in the CVAD computer labs and Fabrication labs.*

- **Computer**
  Mac computers are available in the classroom and computer labs.

- **An External hard drive 1TB for Mac computer and Personal Computer (PC) because** students will also use a computer in the CVAD Fabrication Labs.

- **A Wacom Tablet**
  Students can check out equipment such as a Wacom Tablet from the College of Visual Art and Design Service Desk: https://itservices.cvad.unt.edu

- **A Digital Camera**
  Students can check out equipment such as a digital camera from the College of Visual Art and Design Service Desk: https://itservices.cvad.unt.edu

- **Software**

- **Materials needed to complete individual projects (i.e., photos, 2D art to scan).**

- **Selected UNT Online Library Texts**

- **$50 toward fabrication costs**

- **Software** Adobe Creative Cloud applications: 1) Photoshop. 2) Illustrator, 3) InDesign, 4) After Effect, and 5) Media Encoder.

Note: According to the CVAD announcement in January 2022, Adobe Creative Cloud is available to students to purchase at a heavily discounted price. The price of a student subscription through our program is $50 (+$5.55 processing fee). The subscriptions will be valid for the full 2021-2022 Academic Year, through August 31st. On or before August 1st, they will have the option to renew their subscription for the same price for the 2022-2023 Academic year. Further details and the option to purchase a subscription is available here: http://www.unt.edu/adobe. This offer is only available to students.
A subscription to Adobe Creative Cloud allows for on and off-campus use of all of the applications: on UNT or personally-owned laptops, as well as on the remote lab computers.

If a student is currently paying for a subscription through Adobe ($239-$359 per year) but would like to take advantage of the lower cost of a subscription through this program: they are eligible to cancel an existing subscription without an early termination fee or further obligation once they have purchased a subscription through our program. They must contact Adobe Customer Care within fourteen days of purchasing this subscription to inform Adobe of their wish to opt-out of an existing subscription in order to have the early termination fees waived. Adobe will not provide a refund, however – only the months left on the current subscription will be cancelled. We are not able to process the opt-outs on their behalf. The subscription they would be opting out of is an agreement between the student and Adobe. The subscription through our program would be a new subscription, not an extension of the current subscription.

Adobe Customer Care can be reached by phone at 1-800-833-6687, you may also visit their support website and talk to someone via chat. Please contact the representatives at untadobe@unt.edu if you have any further questions.

**IMPORTANT**: Occasionally, the artwork or other materials you view in class may contain nudity or violence. These are included for educational purposes are an important part of the larger concepts communicated in this course. Content in the arts can sometimes include works, situations, actions, and language that can be personally challenging or offensive to some students on the grounds, for example, of sexual explicitness, violence, or blasphemy. As the College of Visual Arts and Design is devoted to the principle of freedom of expression, artistic and otherwise, and it is not the college’s practice to censor these works or ideas on any of these grounds. Students who might feel unduly distressed or made uncomfortable by such expressions should withdraw at the start of the term and seek another course.

**Course Structure**

As a studio-based course, students will be expected to prepare for assignments and work during class time. Class time will be split between lectures, workshops and independent studio time. The class will include critiques, technical demonstrations, and class discussions in preparation and at the completion of course projects. This course will use readings and video tutorials to introduce technical concepts in digital imaging processes and may feature out-of-class trips or guest lecturers by visiting artists where students can witness the impact of computer-generated images and objects within creative
communities. **Because our course has students with a diverse body of knowledge and skill-level in the art, design, and media, students should expect to revisit course readings and video tutorials both during in-class studio time as well as outside of our class time.** All projects are designed to be implemented in different ways so if a student feels more advanced the student can pursue a project that is a little more ambitious while also considering the time-commitment that will be required to complete the project. Some class sessions will be dedicated to independent studio time for the completion of class projects and/or critique as directed by the instructor. Students should expect to use the **Student Computer Lab** in ART 375 (3rd floor-North Pavilion) for the completion of projects outside of independent studio time in class.

**Assignment Breakdown**

**Major Course Assignments** *(order of Major Assignments susceptible to change)*

1. **3-D Tinkercad Wearable Object**
   Objective: Work individually using 3D printing processes to develop a wearable extension to one’s own body. Students must have one element of their design to be 3-D Printed. Students will be able to manipulate this object in any way they like but it must be wearable and have a purpose.

   Students will submit their **prototype presentations**, and discuss their intentions with the work they produced in a Slides/PowerPoint PDF document which will be submitted via canvas.

2. **Repeated Pattern**
   Students will design a repeat pattern in Photoshop that is then printed onto fabric or paper. This pattern will be made in Photoshop and digitally sent to www.Spoonflower.com, an online custom fabric and wallpaper printing company. Please note there will be an added course cost to order your fabric or paper.

3. **2D Laser Cut artwork**
   Design a line drawing in Illustrator that can be etched and cut out of two materials combined to create an artwork of your choice. Think of how it will be displayed: will it hang on the wall, be put on a pedestal, suspended by fishing line. There are lots of possibilities. This is a very open ended assignment and your idea must be approved by your instructor ahead of time.

   There are limited materials available-clear acrylic, colored acrylic, thin wood. These materials are a first come first serve basis. All other materials will be up to the student to provide.

4. **“Paper” Doll**
Using materials and Adobe applications of the students choice they will create a unique “paper” doll based on the research done at UNT Special Collections. This doll will represent a modern myth of the students' creation. Students will be inspired by paper but the doll and its accessories may be made out of any material: acrylic, wood, paper, magnets, vinyl etc.

5. **Wix Website**
   For this Assignment you will create a Website on Wix. Your website can either be a portfolio for this class, art portfolio, or small business website. Use this time and energy the way it best works for you. Requirements: Use logo and color schemes from previous assignment, page for products or images, page for information about the artist or company, and contains lots of images.

6. **After Effects Assignment**
   3 small assignments in After Effects that add up to a major grade

For this semester you are expected to have a budget of $50 for the semester which will be divided amongst your various assignments. Some of which will be test prints. Be prepared to make more than one test print.

The following is an itemized suggested budget for the semester.

**Photoshop**

<table>
<thead>

**Digital Fabrication**
3D Tinkercad Art  Major Assignment  $0.00
Laser Print    Major Assignment  Cost Varies

**Portfolio**
Logo            Mini Assignment  $0.00
Business Card   Mini Assignment  $0.00
Wix Website     Major Assignment  $0.00

### Studio Coursework
Your major assignments will be where you apply some of the concepts you learn about from the readings, activities, warm ups, and mini assignments. While you will receive parameters for each of your major assignments, you will have significant leeway in how you choose to respond to them. As such, a portion of your grade for each of these assignments will depend on your choice of appropriately challenging subject matter. The remainder of your grade will depend on how well you meet the technical and conceptual challenges you have set out for yourself. You are not expected to be an expert in this class, but you are expected to grow your technical and conceptual abilities over the course of the semester.

### Studio Participation
Your studio participation is an extremely important component of the class and a significant part of your overall grade. Your instructor will give you a participation grades based on your completion of the following expectations: Coming to class meetings on time and with your supplies, being prepared to discuss materials from your online coursework, completing other occasional homework, and actively participating in class discussions, group activities and critique.

### Class Participation
As a student in this course, you agree to participate actively as a civil, respectful, and supportive member of an inclusive learning environment for all. Students are encouraged to take risks. Risks such as emailing an image of a bear cub to your instructor in an email labeled “bear cub” and not disclosing this to others. We encourage students to speak to faculty or to an advisor about any concerns they may have about classroom participation and classroom dynamics. As an active member of this classroom, you will be evaluated based on your attendance, participation in workshops and discussions, and feedback during critiques.

### Class Attendance
Class attendance is a requirement and use of the full class period is expected. You will be allowed three sick, personal, physical or mental health days without grading consequences. It is up to your discretion how you use these three days. Being late to class three times or leaving class early three times will count as an absence. 15 minutes late to the start of class will constitute a tardy. Leaving class before being dismissed by your Professor will constitute an early departure. A 4th absence will result in the lowering of your final grade by one letter grade. Absences, tardiness and/or early departures beyond this could result in course failure. If a serious medical or personal situation occurs affecting attendance, please discuss it with your professor.

A student who misses classes or other required activities, including examinations, for the observance of a religious holy day should inform the instructor as far in advance of the absence as possible, so that arrangements can be made to complete an assignment within a reasonable time after the absence.

**COVID-19 Impact on Attendance**
While attendance is expected as outlined above, it is important for all of us to be mindful of the health and safety of everyone in our community, especially given concerns about COVID-19. Please contact your instructor if you are unable to attend class because you are ill, or unable to attend class due to COVID-19 including symptoms, potential exposure, pending or positive test results, or if you have been given specific instructions to isolate or quarantine from a health care provider or a local authority. It is important that you communicate with your instructor prior to being absent so they may make a decision about accommodating your request to be excused from class.

If you are experiencing any symptoms of COVID-19 please seek medical attention from the Student Health and Wellness Center (940-565-2333 or askSHWC@unt.edu) or your health care provider PRIOR to coming to campus. UNT also requires you to contact the UNT COVID Hotline at 844-366-5892 or COVID@unt.edu for guidance on actions to take due to symptoms, pending or positive test results, or potential exposure. While attendance is an important part of succeeding in this class, your own health, and those of others in the community, is more important.

**Late Work**
For your warmup assignments, there will be no late work accepted. Because you turn them in so frequently, missing one will not have an enormous impact on your grade, but it is important to be in the habit of completing them on time.

For your studio assignments, any late work will be subject to a 10% (one letter grade) deduction per day it is late. This may be waived by your instructor in the case of extreme unforeseen circumstances, but it is your responsibility to communicate with them as soon as possible if something like this occurs.

**Extra Credit**
There is no guaranteed extra credit in this class.
Course Grading
You are not expected to be an expert in this class, but you are expected to grow your technical and conceptual abilities over the course of the semester. For each assignment, a portion of your grade will depend on your choice of appropriately challenging subject matter. The remainder of your grade will depend on how well you meet the technical and conceptual challenges you have set out for yourself. Prior to each critique, you will be given a rubric that details how your instructor will be grading the project.

The following shows how your final grade will be weighted:

50% Major Assignments
25% Mini Assignments
25% Participation/ Warm ups/Class Attendance

GRADING
A = Excellent (100-90%)
B = Above Average (89-80%)
C = Average (79-70%)
D = Inferior (69-60%) [passing but not necessarily satisfying degree requirements]
F = Failure (59% or below)

Student’s performance is evaluated based on their visual, written and oral demonstration of the practices and concepts acquired during this course. Your participation in class critiques will also affect your project grade. Late work will be graded down one letter grade per class period. Work later than one week will not be accepted and will receive the grade of F.

Course-Specific Support or Supplementary Instruction
There are a number of resources available to you for free at the University, this includes the UNT Writing Lab, the UNT Factory, free tutors at the Learning Center, academic coaching, and more. For a complete list visit: https://www.unt.edu/features/newstudents/

For this class, here is a list of resources that will help you succeed:

-LYNDA.com:
  - Photoshop CC 2017 Essential Training: The Basics Photoshop
  - CC Introduction to Photo Compositing
  - The Art of Photoshop Compositing
  - Illustrator CC 2017 Essential Training
  - After Effects CC 2017 Essential Training: Motion Graphics
  - Premiere Pro CC 2017 Essential Training: The Basics
  - Processing: VIDEO TUTORIALS https://processing.org/tutorials/

List of on campus sites of digital fabrication
- Fab Lab (located in CVAD building)
- The Spark Learning Center (located in Willis Library)
- CVAD Student Computer Lab

**Plagiarism**
Plagiarism is the unauthorized use or close imitation of someone else’s original work or ideas and it will not be tolerated. Effort should be made to change images made by others so that they will not be construed as “borrowed” or “stolen.” Work that is plagiarized will not be accepted and will result in a failing course grade and/or expulsion from the University. Additionally, if you submit work in this class that was completing in or for another class, this will be considered plagiarism. No double dipping! The issue of plagiarism becomes murky regarding digital media. There may be instances where we will be sampling and/or mining content from the web. You will know when this is acceptable, and if you have a question or are unsure -- just ask for feedback from your professor!

**American Disability Act**
The College of Visual Arts and Design is committed to full academic access for all qualified students, including those with disabilities. In keeping with this commitment and to facilitate equality of educational access, faculty members in the College will make reasonable accommodations for qualified students with a disability, such as appropriate adjustments to the classroom environment and the teaching, testing, or learning methodologies when doing so does not fundamentally alter the course. If you have a disability, it is your responsibility to obtain verifying information from the Office of Disability Accommodation (ODA) and to inform me of your need for an accommodation. Requests for accommodation must be given to me no later than the first week of classes for students registered with the ODA as of the beginning of the current semester. If you register with the ODA after the first week of classes, your accommodation requests will be considered after this deadline.

Grades assigned before an accommodation is provided will not be changed. Information about how to obtain academic accommodations can be found in UNT Policy 18.1.14, at www.unt.edu/oda, and by visiting the ODA in Room 321 of the University Union. You also may call the ODA at 940.565.4323.

**Course Risk Factor**
According to University Policy, this course is classified as a category two course. Students enrolled in this course will not be exposed to any significant hazards and are not likely to suffer any bodily injury. Students will be informed of any potential health hazards or potential bodily injury connected with the use of any materials and/or processes and will be instructed how to proceed without danger to themselves or others

**Disclaimer**
The instructor reserves the right to make modifications to the course schedule, assignments, and information throughout the semester.

Note: I reserve the right to change the course schedule, assigned readings, and assignments at will where deemed necessary.

SCHEDULE
(subject to change)
WEEK 1
1. Hello, appellations and pronouns, syllabus, Artful Thinking, intro into 3-D wearable assignment.
2. Art and Tech, Intro to Tinkercad.

WEEK 2
1. Labor Day (No Class)
2. Artful Thinking, Work in Tinkercad on 3-D Wearable

WEEK 3
*Tour of Fab Lab*
1. Artful Thinking, Workday on wearable, form printing groups of 2 and 3.
2. Art and Tech, Workday, schedule printing with groups

Hmwrk
Prototype Presentations due on Sunday at 11:59
Bring an image of yourself to class that you feel best represents you.

WEEK 4
1. Artful Thinking, 5 min prototype presentation, intro into Raster and Vector, Photoshop Self Portrait postcard assignment.
2. Artful Thinking, Art and Tech, 5 min prototype presentation,

Hmwrk
Self Portrait Postcards due to Canvas Sunday 11:59
Check out a wacom tablet or bring your own tablet or ipad to the next class.

WEEK 5
1. Artful Thinking, Art and Tech, Illustrator Self Portrait postcard assignment.

Hmwrk
3 sketches, research and materials list for Laser Printing Assignment due next class
Printed postcards due next class meeting.

WEEK 6
1. Artful Thinking, Postcard Feedback, Work Day FabLab Laser Printing Assignment
2. Art and Tech, Work Day FabLab Laser Printing Assignment

WEEK 7
1. Artful Thinking, Work Day FabLab Laser Printing Assignment
2. Art and Tech, Crit for Laser Printing Assignment

WEEK 8
1. Artful Thinking, Intro into repeated pattern
2. Art and Tech, work day on repeated pattern

WEEK 9
1. Artful Thinking, last in class workday on repeated pattern, feedback, order fabric
2. Art and Tech, Intro to Paper Dolls, (Possible visit to Special Collections)

Hmwrk
Order fabric from spoonflower
3 sketches or ideas for Paper Doll

WEEK 10
1. Artful Thinking, workday on Paper Doll
2. Art and Tech, workday on Paper Doll

Hmwrk
Print Paper doll in color on cardstock for next class for mid critique

WEEK 11
1. Artful Thinking, Mid-critique, last in class workday on Paper Doll
2. Art and Tech, Introduction to Tri Fold Pamphlet and billboard assignment

Hmwrk
Find 3 local businesses or nonprofits to design an informational pamphlet and billboard for.

WEEK 12
1. Artful Thinking, pick groups, workday
2. Art and Tech, workday

Hmwk
Printed Tri-fold pamphlet and billboard due next class

WEEK 13
1. Artful Thinking, Crit Trifold and billboard, Introduction to Portfolio Assignment: logo, business card, website.
2. Art and Tech, workday on logo, business card, website

WEEK 14
1. Artful Thinking, After Effects with logo Demo, workday on logo, business card, website
2. Art and Tech, workday on logo w/after effects, business card, website

**WEEK 15 December**
1. Crit 3-D Wearable & Printed Patterns
2. Crit Laser Printed Art, Crit Paper Dolls

**Week 16**
EXAM WEEK: Finish critiques if needed, Portfolio Assignment all late work due this week.
