Required text: *Law and Economics*, Robert Cooter, Thomas Ulen, 6th ed., Addison Wesley, 2012

Course objectives: Law and economics is a young and emerging field in economics. In addition, it is used as a major theoretical model at major law schools. This is an excellent course for any student considering enrolling in law school or any economics student interested in the economic analysis of the law. The purpose of this course is to demonstrate how to apply economic analysis (marginal analysis, opportunity cost, game theory, the importance of incentives, etc.) to legal and political issues.

This course will primarily focus on topics in “private” law rather than “public” law. Private law covers the areas of property, contracts, and torts (accidental harm). Some concepts of public law, such as criminal law and regulation, are also examined.

Prerequisites: The only required class is Economics 1100: Principles of Microeconomics. If you have taken intermediate micro (Econ 3550 or Econ 5030) you will have an easier time grasping some of the applications. However, the necessary theory will be covered in class. If you sense that you are experiencing difficulty please contact me immediately. I usually can assist you in covering any deficiencies.

Grades: Your grade will be determined as follows:

Exam 1	25.00% of your overall grade
Exam 2	25.00% of your overall grade
Final Exam (comprehensive)	33.33% of your overall grade
Homeworks & pop quizzes	16.67% of your overall grade

The grading scale is:

A: 90-100% B: 80-89% C: 70-79% D: 60-69% F: below 60%.

I will use Blackboard Learn to email you. I will also post your scores from homeworks, quizzes, tests and papers on Blackboard Learn. Familiarize yourself with Learn. Be sure to check emails from me a few times each week.

Attendance Policy

Attendance at **every** class meeting is essential to understanding the material. Unless you are an exceptional gifted student, your grade will be positively related to the number of times you attend class. To encourage your attendance, I will give pop quizzes. These pop quizzes will determine if

you know the general topics that will be lectured on that day. A few pop quizzes will be dropped. If you miss a quiz you will receive a zero and most likely it will be dropped unless you miss a significantly large number. It is to your advantage to take all of the quizzes so that you will be able to drop your lowest scores.

Also, please note that in accordance with university policy I will give students a WF for non-attendance starting on Oct. 7, 2017. This applies only to students who have missed 50% or more of the scheduled classes.

If a student misses an exam without a university excuse, the student will receive a grade of zero. To the extent possible, please inform me in advance if you must miss an exam.

Cell Phone & laptop use policy

Cell phones are not allowed to be used in class. Put your cellphone in your backpack or bag. You will receive one warning for using your cell phone in class. If you use your cell phone for a second time in class, I will withdraw you from the class. You may use your laptop in class only for course related work. You will receive one warning for using your laptop for non course-related work. If you use your laptop for non course-related work for a second time in class, I will withdraw you from the class.
