Who are the artists you looked at as reference for your project?

What are the outside of the arts elements existing in your work socio-politics, sciences, technology?
How much do you think you have met your own expectations?

Do you think your work conveys the general ideas you focused on for the audience?

What were your feelings, inner thoughts, struggles, concerns, joys and subconscious urges while doing this project? Be honest what comes from one’s heart finds its way into another heart.

Students may request accommodations at any time, however, ODA notices of accommodation should be provided as early as possible in the semester to avoid any delay in implementation. Note that students must obtain a new letter of accommodation for every semester and must meet with each faculty member prior to implementation in each class. For additional information see the ODA website at disability.unt.edu.

BEST PRACTICES FOR HEALTH & SAFETY IN THE STUDIO

Over the semester, you will be learning to use many new tools. Any tool can be dangerous if you do not use proper safety precautions, so it is important that everyone learns the best practices for staying safe in the studio. On certain days, you will be asked to come to class wearing appropriate “work clothes” (closed-toed shoes, no loose-hanging clothing or jewelry, long hair pulled back). If you fail to do this, your instructor will ask you to go home and change before you come back to class. You may also be asked to use safety goggles, earplugs, dust masks, or other safety equipment when using certain tools. If you fail to follow these rules, you’ll be asked to leave class and it will count as an absence. Finally, please refrain from using any toxic materials in the Foundations classroom. If a need arises to use materials such as spray paint or epoxy, please alert your instructor so that they can help you find a safe way to do so. They may be able to help you find comparable non-toxic alternatives and/or find a safe way to use proper facilities and precautions. If you are not sure whether or not a material is toxic, please ask!

• All students must abide by all rules set forth by the Instructor and Technician. During your class all shop rules and policies are presented as well as a discussion of the proper and safe use of shop tools.

• If you are ever unsure or uncomfortable using a tool or machine during open studio time, please make sure that you get an instructor or technician to help you. Plan ahead and ask the instructor to personally demonstrate the tool during class time so that you are properly trained and comfortable to use it on your own time during open shop hours.

• Please read Monona Rossol’s The Artist’s Complete Health and Safety Guide for more information.

• Work in a well-ventilated area (or outside) while working with any material or practice that produces toxic or irritating fumes or dust (Resins, chemicals, oil-based paints, and solvents may not be mixed indoors).

• ALWAYS clean up all messes produced by any material or practice to prevent from exposing others to the hazards of that material and/or practice.

• Closed toe shoes and safety goggles are required when using a power tools or drills.

• Wash hands (including under fingernails) after using toxic materials and chemicals (even if you were wearing gloves).

• Wear protective gloves and use plastic drop cloth to contain chemicals, paints, and stains when applying.

• Make sure to wear the proper safety gear for each process.

• All spray painting must be done in spray booth.

• Always use common sense, avoid distractions and concentrate on the task at hand.
• Artist materials can sometimes get messy. Make sure to wear clothes that you are ok with getting dirty or you may want to purchase an apron.
